*Umweltmanagement in 22 Lektionen* Oct 12 2020 Die Integration der Umweltbezüge wirtschaftlichen Handelns in das unternehmerische Zielsystem und Management gewinnt zunehmende Bedeutung in der täglichen Praxis. Ökonomisch-technisch-juristische Problemkomplexe erfordern adäquate Lösungsstrategien. Technische Möglichkeiten sind im Rahmen rechtlicher Vorgaben hinsichtlich ihrer ökonomischen und ökologischen Rationalität zu beurteilen. Die interdisziplinären Anforderungen an die Entscheidungs- und Handlungsträger verlangen neue Qualifikationsmuster. Dies gilt gleichermaßen für technisch-ingenieurwissenschaftliche, betriebswirtschaftlich-kaufmännische wie für juristische Qualifizierungen; im Hochschul- und Fachhochschulbereich ebenso wie in der betrieblichen und behördlichen Aus- und Weiterbildung. Die Berücksichtigung ökologischer Belange steht im Bereich der Betriebswirtschaftslehre noch am Anfang einer Entwicklung, während die naturwissenschaftlich-technischen Ausbildungsgänge bereits über einen gewissen Vorlauf verfügen. Dennoch besteht auch hier wie in den rechtswissenschaftlichen Bildungsangeboten ein erheblicher Nachholbedarf. Das vorliegende Lehrbuch ist ein erster Versuch, Grundlagen einer umweltbewußten Unternehmensführung unter dem Thema Umweltmanagement zusammenzufassen. Es entstand aus Vorlesungsunterlagen einer Lehrveranstaltung im Fachbereich Wirtschaft, die neben den Fächern Umweltpolitik und -recht, Einführung in die Umwelttechnik sowie Entsorgungslogistik die einzelwirtschaftlichen Belange der Thematik vermitteln soll. Dabei stand zunächst das Ziel zur Diskussion, ökologische Aspekte in alle Fächer der betriebswirtschaftlichen Ausbildung zu integrieren. Das gleiche Ziel wäre in den naturwissenschaftlichen, technischen, juristischen und allen gesellschaftswissenschaftlichen Disziplinen anzustreben. Einer kurzfristigen Umsetzung dieses Vorhabens steht jedoch entgegen, daß dies eine Bereitschaft und Qualifikation der Auszubildenden voraussetzt, die kurzfristig allenfalls partiell, umfassend aber nur in Generationen zu erwarten ist. Es muß daher notgedrungen über Organisationsformen additiver Qualifikation über einen längeren Zeitraum nachgedacht werden.

**Claude Simon** Sep 22 2021 This is a major study of the Nobel prize-winning French novelist Claude Simon. Simon is a complex figure: for all that he writes in a distinctively modern fictional tradition (exemplified by Proust, Joyce, Beckett and Robbe-Grillet), his novels contain strong elements of visual representation alongside a very different kind of free-floating, anti-realist writing.

**Cuvier's History of the Natural Sciences** Jan 27 2022 Here, for the first time in English, is Georges Cuvier's extraordinary "History of the Natural Sciences from Its Origin to the Present Day." Based on a series of public lectures presented by Cuvier from 1829 to 1832, this first of a five-volume series, translated from the original French and heavily annotated with commentary, is a detailed chronological survey of the natural sciences spanning more than three millennia. It is truly astonishing in its detail and scope. Cuvier was fluent in many languages, English, German, Spanish, and certainly Latin, in addition to French. He was therefore well prepared to investigate and interpret firsthand the scientific literature of Europe as

a whole. The work is an affirmation of Cuvier's vast encyclopedic knowledge, his complete command of the scientific and historical literature, and his incomparable memory. This history is remarkable also for providing in one place a large set of useful references to a vast ancient literature that is not easily found anywhere else. This huge body of information provides us furthermore with unique insight into Cuvier's concept of the natural sciences, and to the vast breadth and progress of this human endeavor. With this work, Cuvier fills an important gap in philosophical thought between the time of Carl Linnaeus and Charles Darwin.

Samuel Beckett and the Theatre of the Witness Jun 07 2020 Samuel Beckett and the Theatre of the Witness explores Beckett's representation of physical pain in his theatre plays in the long aftermath of World War II, emphasising how the issues raised by this staging of pain speak directly to matters lying at the heart of his work: the affective power of the human body; the doubtful capacity of language as a means of communication; the aesthetic and ethical functioning of the theatre medium; and the vexed question of intersubjective empathy. Alongside the wartime and post-war plays of fellow Francophone writers Albert Camus, Eugène Ionesco, Pablo Picasso, and Marguerite Duras, this study resituates Beckett's early plays in a new conceptualising of le théâtre du témoin or a 'theatre of the witness'. These are plays concerned with the epistemological and ethical uncertainties of witnessing another's pain, rather than with the sufferer's own direct experience. They raise troubling questions about our capacity to comprehend and respond to another being's pain. Drawing on an interdisciplinary framework of extant criticism, recorded historical audience response, theatre and affect theory, and medical understandings of bodily pain, Hannah Simpson argues that these plays do not offer any easily negotiable encounter with physical suffering, pushing us to recognise the very 'otherness' of another being's pain, even as it invades our own affective sphere. In place of any comforting transcendence or redemption of endured pain, they offer a starkly sceptical, even pessimistic probing of what it is to witness another's suffering.

*Babel und Bibel* 8 Sep 30 2019 This is the eighth volume of *Babel und Bibel*, an annual of ancient Near Eastern, Old Testament, and Semitic studies. The principal goal of the annual is to reveal the inherent relationship between Assyriology, Semitics, and biblical studies—a relationship that our predecessors comprehended and fruitfully explored but that is often neglected today. The title *Babel und Bibel* is intended to point to the possibility of fruitful collaboration among the three disciplines, in an effort to explore the various civilizations of the ancient Near East. This volume is a festschrift for Joachim Krecher, Professor of Assyriology in the Westfälische Wilhelms-Universität Münster. Krecher is best known, perhaps, for his seminal *Sumerische Kultlyrik*, published already in 1966. This compendium includes 17 essays by friends and colleagues, all focusing on Sumerian language and literature.
