The Everyday Lives of Gay Men Jul 04 2020 The Everyday Lives of Gay Men draws on the expertise of 12 contributors from different countries and fields, writing from an autoethnographic first-person approach. Putting the power of personal stories at the centre of the construction of sophisticated narratives of gay men's lives, the accounts draw attention to the limits of traditional perspectives to gay men's studies that look at gayness through a sexualised lens and explore how gay men make sense of their identity in their everyday lives. Together they present a complex, nuanced understanding of gayness and challenge the conception of 'being gay' as a sexual orientation because it describes in sexual terms an identity that is not only, not always, and not predominantly sexual. The authors come from a variety of fields, including counselling studies and sociology, to communication, religion, and education. The innovative approach of The Everyday Lives of Gay Men makes it ideal for students and scholars in gender studies, sexuality studies, sociology, mental health, and research methods. Just Ignore Him May 14 2021 'A simply astonishing achievement. The quality, depth, emotional power and terrifying honesty of Alan Davies's story-telling take the breath away' Stephen Fry 'This hugely affecting book is brave, insightful and, at times, funny about things it is hard to be funny about' Jo Brand The story of a life built on sand. In the rain. In this compelling memoir, comedian and actor Alan Davies recalls his boyhood with vivid insight and devastating humour. Shifting between his 1970s upbringing and his life today, Davies moves poignantly from innocence to experience to the clarity of hindsight, always with a keen sense of the absurd. From sibling dynamics, to his voiceless, misunderstood progression through school, sexuality and humiliating 'accidents', Davies inhabits his younger mind with spectacular accuracy, sharply evoking an era when Green Shield

Stamps, Bob-a-Job week and Whizzer & Chips loomed large, a bus fare was 2p - and children had little power in the face of adult motivation. Here, there are often exquisitely tender recollections of the mother he lost at six years old, of a bereaved family struggling to find its way, and the kicks and confusion of adolescence. Through even the joyous and innocent memories, the pain of Davies's lifelong grief and profound betrayal is unfiltered, searing and beautifully articulated. Just Ignore Him is not only an autobiography, it is a testament to a survivor's resilience and courage.

12 Rose Street Oct 19 2021 The indomitable Joanne Kilbourn is back! From beloved author Gail Bowen comes the 15th installment in the nationally bestselling series. For readers of Louise Penny, Ruth Rendell, and Peter Robinson. Joanne's husband Zack is the leading progressive candidate in a neck-and-neck race, with the existing mayor, for Regina's top job. Joanne soon realizes that sinister interests are working behind the scenes of the election, and another savage act makes clear that someone will stop at nothing to maintain the status quo. The Shreve campaign perseveres, but when Zack's opponents share some shocking information about the past, the revelation sends Joanne reeling. As tensions around the election build, Joanne tries to hold herself together, keep her family intact, and get to the bottom of why a series of violent incidents, seemingly related to the mayoral race, all lead back to a mysterious property in North Central, 12 Rose Street. NSFW Aug 29 2022 An exploration of how and why social media content is tagged as “not safe for work” and an argument against conflating sexual content with risk. The hashtag #NSFW (not safe for work) acts as both a warning and an invitation. NSFW tells users, “We dare you to click on this link! And by the way, don't do it until after work!” Unlike the specificity of movie and television advisories (“suggestive dialogue,” “sexual content”), NSFW signals, nonspecifically, sexually explicit content that ranges from nude selfies to pornography. NSFW looks at how and why social media content is tagged “not safe” and shows how this serves to conflate sexual content and risk. The authors argue that the notion of “unsafety” extends beyond

the risk of losing one's job or being embarrassed at work to an unspecified sense of risk attached to sexually explicit media content and sexual communication in general. The authors examine NSFW practices of tagging and flagging on a range of social media platforms; online pornography and its dependence on technology; user-generated NSFW content—in particular, the dick pic and associated issues of consent, desire, agency, and social power; the deployment of risqué humor in the workplace; and sexist and misogynist online harassment that functions as an enforcer of inequalities. They argue against the categorical effacement of sexual content by means of an all-purpose hashtag and urge us to shift considerations of safety from pictorial properties to issues of context and consent.

Control and Freedom Sep 17 2021 A work that bridges media archaeology and visual culture studies argues that the Internet has emerged as a mass medium by linking control with freedom and democracy. How has the Internet, a medium that thrives on control, been accepted as a medium of freedom? Why is freedom increasingly indistinguishable from paranoid control? In *Control and Freedom*, Wendy Hui Kyong Chun explores the current political and technological coupling of freedom with control by tracing the emergence of the Internet as a mass medium. The parallel (and paranoid) myths of the Internet as total freedom/total control, she says, stem from our reduction of political problems into technological ones. Drawing on the theories of Gilles Deleuze and Michel Foucault and analyzing such phenomena as Webcams and face-recognition technology, Chun argues that the relationship between control and freedom in networked contact is experienced and negotiated through sexuality

and race. She traces the desire for cyberspace to cyberpunk fiction and maps the transformation of public/private into open/closed. Analyzing "pornocracy," she contends that it was through cyberporn and the government's attempts to regulate it that the Internet became a marketplace of ideas and commodities. Chun describes the way Internet promoters conflated technological empowerment with racial empowerment and, through close examinations of William Gibson's *Neuromancer* and Mamoru Oshii's *Ghost in the Shell*, she analyzes the management of interactivity in narratives of cyberspace. The Internet's potential for democracy stems not from illusory promises of individual empowerment, Chun argues, but rather from the ways in which it exposes us to others (and to other machines) in ways we cannot control. Using fiber optic networks—light coursing through glass tubes—as metaphor and reality, *Control and Freedom* engages the rich philosophical tradition of light as a figure for knowledge, clarification, surveillance, and discipline, in order to argue that fiber-optic networks physically instantiate, and thus shatter, enlightenment.

Stricher Nov 07 2020 Die individuellen Beweggründe und Umstände, warum ein Junge "anschaffen" geht, stehen im Zentrum des Buches. Die Szene wird mit allen in ihr befindlichen Personen beschrieben: Freier, Barkeeper, Bordellbesitzer, Pornohersteller usw. Immer häufiger nutzen Stricher die Neuen Medien, um ihre "Dienste" anzubieten und schneller erreichbar zu sein; diese aktuellen Veränderungen wirken sich nicht nur auf die gesamte Struktur der Stricher-Szene aus, sondern erfordern auch ein Umdenken in der präventiv-pädagogischen Arbeit. Die Autoren, in diesem Bereich seit Jahren engagiert, lassen in Interviews männliche Prostituierte selbst zu Wort kommen. Ein authentisches Buch: Es vermittelt Einblicke, die den Nichtbeteiligten bislang versperrt blieben.

I Confess! Nov 19 2021 In the postwar decades, sexual revolutions - first women's suffrage, flappers, Prohibition, and Mae West; later Alfred Kinsey, Hugh Hefner, and the pill - altered the lifestyles and desires of generations. Since the 1990s, the internet and its cataclysmic cultural and social technological shifts have unleashed a third sexual revolution, crystallized in the acts and rituals of confession that are a staple of our twenty-first-century lives. In *I Confess!*, a collection of thirty original essays, leading international scholars such as Ken Plummer, Susanna Paasonen, Tom Roach, and Shohini Ghosh explore the ideas of confession and sexuality in moving image arts and media, mostly in the Global North, over the last quarter century. Through self-referencing or autobiographical stories, testimonies, and performances, and through rigorously scrutinized case studies of "gay for pay," gaming, camming, YouTube uploads, and the films *Tarnation* and *Nymph()*maniac, the contributors

describe a spectrum of identities, desires, and related representational practices. Together these desires and practices shape how we see, construct, and live our identities within this third sexual revolution, embodying both its ominous implications of surveillance and control and its utopian glimmers of community and liberation. Inspired by theorists from Michel Foucault and Gilles Deleuze to Gayle Rubin and José Esteban Muñoz, *I Confess!* reflects an extraordinary, paradigm-shifting proliferation of first-person voices and imagery produced during the third sexual revolution, from the eve of the internet to today.

Gay Male Pornography Oct 31 2022 The 2000 case of *Little Sisters Book and Art Emporium v. Customs Canada* provided Canada's highest court with its first opportunity to consider whether the analysis set out in *R. v. Butler* - in which the Supreme Court identified pornography as an issue of sex discrimination - applies to pornography intended for a lesbian or gay male audience. The Court held that it did, finding that, like heterosexual pornography, same-sex pornography also violates the sex equality interests of all Canadians. Christopher Kendall supports this finding, arguing that gay male pornography reinforces those social attitudes that create systemic inequality on the basis of sex and sexual orientation - misogyny and homophobia alike - by sexually conditioning gay men to those attitudes and practices. The author contends that as a result of litigation efforts like those brought by lesbian and gay activists in the *Little Sisters* case, the notion of empowerment and the rejection of those values that daily result in all that is anti-gay have been replaced with a misguided community ethic and identity politic that encourages inequality. This is best exemplified in the gay male pornography defended in *Little Sisters* as "liberation" and "central to sexual freedom." *Gay Male Pornography* rejects the equality claims of gay male pro-pornography advocates and argues that there is little to be gained from sexualized conformity. To date, no one has taken the position that gay male pornography violates the legal right to sex equality. This book does that and, as such, it will be of value to scholars of law, sociology, and gender studies,

as well as to all who have an interest in equality and justice.

Security, Race, Biopower Jul 16 2021 This book explores how technologies of media, medicine, law and governance enable and constrain the mobility of bodies within geographies of space and race. Each chapter describes and critiques the ways in which contemporary technologies produce citizens according to their statistical risk or value in an atmosphere of generalised security, both in relation to categories of race, and within the new possibilities for locating and managing bodies in space. The topics covered include: drone warfare, the global distribution of HIV-prevention drugs, racial profiling in airports, Indigenous sovereignty, consumer lifestyle apps and their ecological and labour costs, and anti-aging therapies. *Security, Race, Biopower* makes innovative contributions to multiple disciplines and identifies emerging social and political concerns with security, race and risk that invite further scholarly attention. It will be of great interest to scholars and students in disciplinary fields including Media and Communication, Geography, Science and Technology Studies, Political Science and Sociology.
