Intelligent Mobile Service Computing      Jul 16 2021 This book discusses recent research and applications in intelligent service computing in mobile environments. The authors first explain how advances in artificial intelligence and big data have allowed for an array of intelligent services with complex and diverse applications. They then show how this brings new opportunities and challenges for service computing. The book, made up of contributions from academic and industry, aims to present advances in intelligent services, new algorithms and techniques in the field, foundational theory and systems, as well as practical real-life applications. Some of the topics discussed include cognition, modeling, description and verification for intelligent services; discovery, recommendation and selection for intelligent services; formal verification, testing and inspection for intelligent services; and composition and cooperation methods for intelligent services.

Visions of Peace      Jan 28 2020 Visions of Peace: Asia and the West explores the diversity of past conceptualizations as well as the remarkable continuity in the hope for peace across global intellectual traditions. Current literature, prompted by September 11, predominantly focuses on the laws and ethics of just wars or modern ideals of peace. Asian and Western ideals of peace before the modern era have largely escaped scholarly attention. This book examines Western and Asian visions of peace that existed prior to c.1800 by bringing together experts from a variety of intellectual traditions. The historical survey ranges from ancient Greek thought, early Christianity and medieval scholasticism to Hinduism, classical Confucianism and Tokugawa Japanese learning, before illuminating unfamiliar aspects of peace visions in the European Enlightenment. Each chapter offers a particular case study and attempts to rehabilitate a 'forgotten' conception of peace and reclaim its contemporary relevance. Collectively they provide the conceptual resources to inspire more creative thinking towards a new vision of peace in the present. Students and specialists in international relations, peace studies, history, political theory, philosophy, and religious studies will find this book a valuable resource on diverse conceptions of peace.

Honeyball and Bowers' Textbook on Employment Law      Jan 10 2021 "Honeyball and Bowers' Textbook on Employment Law is a concise yet analytical and contextual introduction to this fascinating area of the law. Accessible by virtue of its succinct style and clear layout, yet challenging and critical, the eleventh edition of this book is suitable for students on law and business degree courses, as well as anyone else engaged in the study of employment law. Beginning with a historical perspective and explanation of how and why the law has developed as it has, Simon Honeyball goes on to explore what the law actually is, and the practical and theoretical issues raised by its study and application. The book contains cross referencing to Cases and Materials on Employment Law by Painter & Holmes ensuring that these two titles continue to complement one another providing the perfect blend of textbook analysis and the most up-to-date cases and materials. The Impact of International Debt Relief      Oct 31 2022 International debt relief continues to be a highly controversial subject. Although many heavily indebted poor countries have received large amounts of debt relief over the past quarter of a century, it doesn't appear to be enough. This book examines the impact of international debt relief efforts since 1990. It assesses whether the various debt relief modalities have enhanced economic growth in eight highly indebted countries in Latin America and Africa. Dijkstra argues that fundamental changes of the international aid and debt architecture are necessary to stop the flow of new multilateral loans and the possible perverse effects of conditionality.
