**Butterfly Tears and Dandelions** Feb 20 2022 When I lost my four-year-old granddaughter due to a car accident, my world came to a complete stop. My friends gave me books on grief, but nothing I read helped me, so I decided to write this book. It is raw and tells everything I went through, with no filter. I wanted to bring the process of grieving out into the open and not dance around topics that others don't want to discuss, such as anger, severe depression, and thoughts of suicide. Grieving is a series of

missteps, misinterpretations, and good intentions gone awry. This book is about not only grieving but also healing, which is sometimes just as difficult. Letting go of guilt and other burdens we sometimes carry can be daunting, but if we try really hard, we can find our way through to the light at the end of the tunnel.

**Handbook of Research on Consumption, Media, and Popular Culture in the Global Age** Oct 24 2019 The mass production and diversification of media have accelerated the development of popular culture. This has started a new trend in consumerism of desiring new consumption objects and devaluing those consumption objects once acquired, thus creating a constant demand for new items. Pop culture now canalizes consumerism both with advertising and the marketing of consumerist lifestyles, which are disseminated in the mass media. The Handbook of Research on Consumption, Media, and Popular Culture in the Global Age discusses interdisciplinary perspectives on media

influence and consumer impacts in a globalizing world due to modern communication technology. Featuring research on topics such as consumer culture, communication ethics, and social media, this book is ideally designed for managers, marketers, researchers, academicians, and students.

*Baby Boom, Boom, Baby, It's You!* Dec 26 2019 The writing of this book goes back some 14 years ago, reading a book, *Out Of The Garden - Toys and Children's Culture In to The Age Of TV Marketing*, By Stephen Kline. This would show how through Children programming, its popular culture, advertisers, and marketers, through market strategy get us to buy their products. I knew from the beginning that it would be a hard sell, to try and give you a heads up, into how we all be doped, coned, persuaded into wanting you to know how this happened, and played a big part in everyone life, at any given age or generation you were part of. As I put it, "When you were born, your story begins!" We all know the news event of each decade and the popular Movies and music. But did you have any ideas how we all (each decade) unfolds, how our spending habits came to be, what were the influences, how you drove your parents crazy into buying what you wanted. And your parent themselves, and buy public itself, into buying their next purchase. I hope you can see the pattern. You and I, are so different, but I'm sure very much the same, we just have our own story to tell.

**Why Not Capitalism?** Jul 01 2020 Most economists believe capitalism is a compromise with selfish human nature. As Adam Smith put it, "It is not from the benevolence of the butcher, the brewer, or the baker, that we expect our dinner, but from their regard to their own interest." Capitalism works better than socialism, according to this thinking, only because we are not kind and generous enough to make socialism work. If we were saints, we would be socialists. In *Why Not Capitalism?*, Jason Brennan attacks this widely held belief, arguing that capitalism would remain the best system even if we were morally perfect. Even in an ideal world, private property and free markets would be the best way to promote mutual cooperation, social justice, harmony, and prosperity. Socialists seek to capture the moral high ground by showing that ideal socialism is morally superior to realistic capitalism. But, Brennan responds, ideal capitalism is superior to ideal socialism, and so capitalism beats socialism at every level. Clearly, engagingly, and at times provocatively written, *Why Not Capitalism?* will cause readers of all political persuasions to re-evaluate where they stand vis-à-vis economic priorities and systems—as they exist now and as they might be improved in the future.

Historic Firsts in U.S. Elections Jul 21 2019 *Historic Firsts in U.S. Elections: Trailblazing Candidates in Gubernatorial, Congressional, and Mayoral Campaigns* examines barrier-breaking figures across various types of elective offices and constituent groups. The moment in which historic firsts enter the electoral arena, and the unique campaigns that ensue, are shown to be symbolically empowering. These change agents on the campaign trail become lightning rods for more liberal policies, and their candidacies are tied to questions of representation, electability, and performance. The distinctive combinations of race, ethnicity, and gender identities represented here translate into voter excitement to go to the polls and participate in other ways. Original chapters by respected scholars and practitioners consider how recent breakthrough elections are similar to yet different from past elections for gubernatorial, congressional, and mayoral offices. The shadow of Donald Trump's wildly unconventional U.S. presidency looms over this groundbreaking analysis, linking local to national level politics. For students of politics across the curriculum, this book expands the theoretical capacity of intersectionality research and links it to voter mobilization and electoral success.

Using both case studies and wider analysis, the authors examine music listening and participation between children and parents in both domestic and public settings, ranging across children's music media, digital streaming, live concerts, formal and informal popular music education, music merchandising and song lyrics. Placing young children's musical engagement in the context of the music industry, changing media technologies, and popular culture, Popular Music and Parenting paints a richly interdisciplinary picture of the intersection of popular music with the parent-child relationship.

*Mousejunkies!* Dec 18 2021 A guidebook with a decidedly different approach, "Mousejunkies! 3rd Edition" is a collection of humorous travelogues and insider how-to secrets compiled after scores of trips to Walt Disney World. The book draws on the insights of a panel of Disney fanatics — The Mousejunkies — following dozens of personal vacations, trade shows and press trips in recent years. This third edition brings everything up to date with countless new tips, tricks, and tales. "Mousejunkies!" provides tips and travel plans told through personal accounts – something that sets it apart from all the other guides. All of the most important topics are covered: When to go, where to stay, what to do and where to eat. But readers will also learn Zen and the art of not melting down under the Florida sun, how to extract your family from Fantasmic with your sanity intact, where to catch a mid-afternoon catnap in the theme parks, and even how wrong things go when Epcotch strikes. "Mousejunkies!" is more than one travel writer's experiences at one of the most popular

vacation destinations in the world. The Mousejunkies are a group of seemingly well-adjusted adults who have found themselves inexplicably drawn to Walt Disney World, again and again. Each has taken his or her own path, finding their way separately. When the smoke cleared, the group found itself back in reality, staring at one another over a pile of discarded annual passes and a useless collection of novelty hats. The stories - wry, humorous and told with an affection gained through years of Disney addiction - paint vivid portraits of a creatively engineered world, where unexpected surprises create lasting memories. The tips – valuable information designed to help readers get more out of their vacations – are told with a sly wink and the desire to share the secrets that make trips to central Florida more memorable. From touring plans to tongue-in-cheek reviews of the theme parks’ restrooms, “Mousejunkies!” provides readers with useful information couched in obsessively-detailed narrative with a humorous touch.

**Screen Media for Arab and European Children** Mar 21 2022 This book addresses gaps in our understanding of processes that underpin the making and circulation of children's screen contents across the Arab region and Europe. Taking account of recent disruptive shifts in geopolitics that call for new thinking about how children's media policy and production should proceed after large-scale forced migration in both regions, the book asks to what extent children in Europe and the Arab World are engaging with the same content. Who is funding new content and who is making it, according to whose criteria? Whose voices are loudest when it comes to pressures for regulation of children's screen content, and what exactly do they want? The answers to these questions matter for anyone seeking insights into diverse cross-cultural collaborations and content innovations that are shaping new

investment and production relationships.
