International Students in Higher Education Sep 06 2020 This book sheds light on lived experience, identity construction, and language acquisition in presenting the portraits of four multilingual international students and of their university. It approaches the students' experiences from a critical and holistic perspective that showcases experiences of challenge, resilience, and success.

Fifty Years of Causes of Delinquency, Volume 25 May 03 2020 This volume marks the 50th anniversary of the publication of Travis Hirschi's seminal work *Causes of Delinquency*. The influence of Hirschi's book, and the theory of social control it described, can scarcely be overstated. Social control theory has been empirically tested or commented on by hundreds of scholars and is generally regarded as one of the three dominant theories of crime. The current work highlights the impact that social control theory has had on criminological theory and research to date. Agnew's contribution highlights the role that Hirschi's tests of control versus strain theory had in contributing to the "near demise" of classic strain theories, and to the subsequent development of general strain theory. Serrano-Maillo relates control to drift, and Tedor and Hope compare the human nature assumptions of control theory to the current psychological literature. Other contributions return to Hirschi's original Richmond Youth Survey (RYS) data and demonstrate the robustness of Hirschi's major findings. Costello and Anderson find strong support for Hirschi's predictions in an analysis of a diverse group of youths in Fayetteville, Arkansas, in 1999; Nofziger similarly finds support for Hirschi's predictions with an analysis of the girls in the RYS, and explores the criticisms of social control theory that were the result of Hirschi's failure to analyze the data from the girls in the sample. Kempf-Leonard revisits her seminal 1993 survey of control theory and reviews the current empirical status of control theory. Other contributions explore new directions for both social control theory and self-control theory. The contribution by Cullen, Lee, and Butler holds that one element of the social bond, commitment, was under-theorized by Hirschi, and the authors present a more in-depth development of the concept. Quist explores the possibility of expanding social control theory to explicitly incorporate exchange theory concepts; Ueda and Tsutomi apply control theory cross-culturally to a sample of Japanese students; and Felson uses control theory to organize criminological ideas. Vazsonyi and Javakhishvili's contribution is an empirical analysis of the connections between social control in early childhood and self-control later in life; Chapple and McQuillan's contribution suggests that the gender gap in delinquency is better explained by increased controls in girls than by gendered pathways to offending. Oleson traces the evolution of Hirschi's control theory, and suggests that, given the relationships between fact and theory, a biosocial model of control might be a promising line of inquiry. *Fifty Years of Causes of Delinquency: The Criminology of Travis Hirschi* describes the current state of control theory and suggests its future directions, as well as demonstrates its enduring importance for criminological theory and research. The volume will be of interest to scholars working in the control theory tradition as well as those critical of the perspective, and is suitable for use in graduate courses in criminological theory.

Underage Drinking: Feb 09 2021 Early onset of Drinking is a major public health concern facing countries. Early initiation is considered as a marker of alcohol dependence and other substance abuse in

later years of life. Heavy episodic alcohol use (Binge drinking) in adolescence diminishes their educational attainment by affecting brain structure, brain functioning, and neuropsychological performance. Beyond health consequences, the harmful use of alcohol brings significant social and economic losses to individuals and society at large. The empirical results obtained in our study suggest that binge pattern of drinking and the spirits contents in the alcoholic beverage exert a positive and significant influence on Alcohol-Attributable Fractions. Factors that interfere with the evidence-based prevention strategies include corporate lobbying, lack of political will, and weak enforcement of public regulations. There is a need for countries to revisit their alcohol control policies and assess the gap between the evidence-based prevention science and implementation in practice.

The Condition of Education (1996) Sep 26 2019 Contains 60 indicators that shed light on the condition of education in the U.S. These indicators represent a consensus of professional thinking on the most significant national measures of the condition and progress of education to date. Topics include: access, participation, and progress; achievement, attainment, and curriculum; economic and other outcomes of education; size, growth, and output of educational institutions; climate, classrooms, and diversity in educational institutions; human and financial resources of educational institutions. Glossary. Charts and tables.

Implementing Mental Health Promotion Sep 18 2021 This book offers a comprehensive overview of current research, policy, and practice developments in promoting mental health and well-being. It offers guidance on developing and delivering mental health promotion interventions across a variety of settings internationally. Chapters outline key mental health promotion concepts, implementation processes, and outcomes through empirical findings, practical advice based on successful evidence-based approaches, and templates for action. In addition, chapters answer key "how" questions on practical implementation as well as the "whys", providing rationales for mental health promotion and identifying the key factors and underlying principles that make these interventions work. The book includes examples of evidence-based practice with 17 case studies of innovative interventions from different international settings. These case studies illustrate the practical aspects of intervention development and delivery and the realities of implementing policies and programmes outside of controlled research conditions. Topics featured in this book include: · Interventions that promote gender equality. · Community empowerment models of mental health promotion. · Mental health promotion in the home for children and parents. · Promoting social and emotional learning in schools. · Addressing stress and promoting mentally healthy workplaces. · Mental health promotion within primary health care. · Re-orienting mental health services to mental health promotion for service users and caregivers. *Implementing Mental Health Promotion, Second Edition*, is a must-have resource for researchers, clinicians and related professionals, and policymakers as well as graduate students across such interrelated disciplines as health promotion, public health, child and school psychology, social work, clinical psychology, child and adolescent psychiatry, health psychology, educational policy and practice, school nursing, occupational therapy, school counseling, and family studies.

Child Delinquents Dec 30 2019 Between 1980 and 1996 the number of arrests has increased considerably for offenders ages 12 and under. This increase is a cost to society in two ways: the cost of the crime and the cost of multiple agencies involved with these children. Several questions have developed due to this increase: How does the juvenile justice system deal with child delinquents? Is child delinquency a predictor of serious, violent, and chronic offending? How early can we predict, and what are early warning signs? In an effort to develop answers for these questions and many more, editors Rolf Loeber and David Farrington organized a study group on Very Young offenders comprising 39 experts on juvenile delinquency and child problem behavior. Over a two-year period of intense and collaborative work these individuals have produced the book *Child Delinquents: Development, Intervention, and Service Needs*. Presenting empirically derived insights, *Child Delinquents* is the definitive statement to date on the working knowledge of prevalence, development, risk and protective factors, and optimal intervention with preteen offenders. This book is an excellent source for a broad audience of researchers, scholars, psychiatry, and practitioners at the administrative level.

The Condition of Education Oct 27 2019 Includes a section called Program and plans which describes the Center's activities for the current fiscal year and the projected activities for the succeeding fiscal year.

The Cambridge Handbook of Forensic Psychology Aug 18 2021 In the decade since the publication of the first edition of *The Cambridge Handbook of Forensic Psychology*, the field has expanded into areas such as social work and education, while maintaining the interest of criminal justice researchers and policy makers. This new edition provides cutting-edge and comprehensive coverage of the key theoretical perspectives, assessment methods, and interventions in forensic psychology. The chapters address substantive topics such as acquisitive crime, domestic violence, mass murder, and sexual violence, while also exploring emerging areas of research such as the expansion of cybercrime, particularly child sexual exploitation, as well as aspects of terrorism and radicalisation. Reflecting the global reach of forensic psychology and its wide range of perspectives, the international team of contributors emphasise diversity and cross-reference between adults, adolescents, and children to deliver a contemporary picture of the discipline.

Forensic Psychology Jun 27 2022 FORENSIC PSYCHOLOGY Explore the theory, research, and practice of forensic psychology with this collection of resources from recognized leaders in the field The newly revised Third Edition of *Forensic Psychology* delivers insightful coverage of the theory and applications of forensic psychology. The book combines authoritative scholarship with an unprecedented breadth of international coverage and constitutes an essential resource for all aspects of contemporary forensic and criminal psychology. The new edition addresses issues of equality, diversity, and inclusion in each section, as well as the uses and abuses of power in forensic contexts. The book takes a constructively critical approach to the dominant theories, policy, and practices of today, as opposed to being merely descriptive, and considers new and developing areas, like the prevention of sexual violence at universities. *Forensic Psychology* comprehensively addresses the application of modern forensic techniques and practices to the civil and criminal justice systems in the United Kingdom. Each chapter concludes with some specific suggestions for further reading. Additionally, readers will enjoy the inclusion of a wide variety of topics, like: A thorough

discussion of investigative and clinical practice, including the politics of forensic psychology, offender profiling, eyewitness testimony, and jury decision making An examination of clinical and risk assessments, including reviews of the key legal issues and principles involved in risk assessments, the role of structured instruments and protocols, and coverage of actuarial and structured clinical methods Discussions of working with criminalized populations in prisons and forensic mental health facilities A treatment of psychology in the courts with an emphasis on the courts of England and Wales Perfect for graduate level students in forensic psychology courses, *Forensic Psychology* will also earn a place in the libraries of qualified forensic psychologist practitioners and postgraduate students seeking to improve their understanding of forensic psychology with a high-quality international textbook underpinned by considerations of human rights and ethical standards.

Journal of Criminal Law and Criminology Jul 17 2021

Criminology Aug 30 2022 Written by bestselling author Larry Siegel, *CRIMINOLOGY*, 8th Edition, guides you through the fast-paced field of modern criminology, its most current research and fascinating examples that help you understand criminological theory. Details on the crimes of real-life people illustrate concepts, while unbiased coverage of even the most controversial topics -- ranging from responses to sexual assault on campus to cybercrime -- enables you to form your own opinions about current issues and events. The 8th Edition offers insights into racial bias, political crime, terrorism following the U.S. withdrawal from Afghanistan, green-collar crime, ransomware attacks, human trafficking, the impact of the COVID-19 pandemic and more. In addition, features such as Crime of the Century provide in-depth discussions of notorious crimes that captivated the public and shaped the way we view the true meaning of justice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Abstracts on Criminology and Penology Dec 10 2020 Bimonthly. Abstracts of journal articles and monographs. Covers material from psychiatric literature as well as from criminological sources. Entries arranged in classified order. Author, subject indexes.

Course Offerings, Enrollments, and Curriculum Practices in Public Secondary School, 1972-73 Aug 06 2020

The Oxford Handbook of Developmental and Life-Course Criminology Sep 30 2022 Developmental and life-course criminology are both concerned with the study of changes in offending and problem behaviors over time. Developmental studies in criminology focus on psychological factors that influence the onset and persistence of criminal behavior, while life-course studies analyze how changes in social arrangements, like marriage, education or social networks, can lead to changes in offending. Though each perspective is clearly concerned with patterns of offending and problem behavior over time, the literature on each is spread across various disciplines, including criminology & criminal justice, psychology, and sociology. The *Oxford Handbook on Developmental and Life-Course Criminology* offers the first comprehensive survey of these two approaches together. Edited by three noted authorities in the field, the volume provides in-depth critical reviews of the development of offending, developmental and life-course theories, development correlates and risk/protective factors, life transitions and turning points, and effective developmental interventions from the world's leading scholars. In the first two sections, the contributors provide overviews of specific criminal career parameters, including age-crime curve, prevalence/frequency of offending, and co-offending, and review the main theoretical frameworks in the developmental and life-course criminology areas. They further summarize some of the empirical literature on known developmental correlates and risk/protective factors associated with longitudinal patterns of offending in the next section. The fourth section focuses on life transitions and turning points as they may relate to persistence in-or desistance from-criminal activity into adulthood, while the final section examines the genesis of antisocial, delinquent, and criminal activity, its maintenance, and its cessation. A state of the art overview on the topic, this Handbook aims to be the most authoritative resource on all issues germane to developmental and life-course criminologists and provides next steps for further research.

Canadian Journal of Criminology and Corrections Jun 15 2021

Decolonizing Trauma Work Nov 28 2019 In *Decolonizing Trauma Work*, Renee Linklater explores healing and wellness in Indigenous communities on Turtle Island. Drawing on a decolonizing approach,

which puts the “soul wound” of colonialism at the centre, Linklater engages ten Indigenous health care practitioners in a dialogue regarding Indigenous notions of wellness and wholistic health, critiques of psychiatry and psychiatric diagnoses, and Indigenous approaches to helping people through trauma, depression and experiences of parallel and multiple realities. Through stories and strategies that are grounded in Indigenous worldviews and embedded with cultural knowledge, Linklater offers purposeful and practical methods to help individuals and communities that have experienced trauma. *Decolonizing Trauma Work*, one of the first books of its kind, is a resource for education and training programs, health care practitioners, healing centres, clinical services and policy initiatives.

Adverse Childhood Experiences Mar 13 2021 *Adverse Childhood Experiences: Using Evidence to Advance Research, Practice, Policy, and Prevention* defines ACEs, provides a summary of the past 20 years of ACEs research, as well as provides guidance for the future directions for the field. It includes a review of the original ACEs Study, definitions of ACEs, and how ACEs are typically assessed. Other content includes a review of how ACEs are related to mental and physical health outcome, the neurodevelopmental mechanisms linking ACEs to psychopathology, sexual violence and sexual health outcomes, and violence across the lifespan. Important and contemporary issues in the field, like reconsidering how ACEs should be defined and assessed, the appropriateness of routine ACEs screening, thinking about ACEs from a public health and global perspective, strategies for preventing ACEs, understanding ACEs and trauma-informed care and resilience, and the importance of safe stable and nurturing environments for children are discussed. *Adverse Childhood Experiences* is a useful evidence-based resource for professionals working with children and families, including physicians, nurses, social workers, psychologists, lawyers, judges, as well as public health leaders, policy makers, and government delegates. Reviews the past 20 years of ACEs research Examines ACEs and mental and physical health Discusses the neurodevelopment mechanisms of ACEs and psychopathology Examines ACEs and violence across the lifespan Reconsiders the definition and assessment of ACEs Examines the issue of routine ACEs screening Discusses ACEs from a public health and global perspective Summarizes effective ACEs prevention, trauma-informed care, and resilience Provides recommendations for the future directions of the ACEs field

The Journal of Criminal Law, Criminology, and Police Science Jan 11 2021

Handbook of Social Policy Evaluation Apr 13 2021 This Handbook uses methodologies and cases to discover how and when to evaluate social policy, and looks at the possible impacts of evaluation on social policy decisions. The contributors present a detailed analysis on how to conduct social policy evaluation, how to be aware of pitfalls and dilemmas and how to use evidence effectively.

Directory of Canadian Universities Jul 25 2019

Queering Criminology in Theory and Praxis Nov 01 2022 This accessible book introduces the key concepts and theoretical developments of queer criminology and explains what they mean for modern criminal justice frameworks and practitioners. The book sets out experiences of the LGBTQ+ population as victims, offenders and professionals in legal systems in the US and internationally and explores what they mean for elements of those systems including police, courts, corrections and victims' services. It is both a useful reference point for academics, students and professionals and a guide to how queer criminology can be theoretically applied and practically implemented in the worlds of policing, courts, corrections, and victims' services.

Private Secondary Schools Mar 01 2020 *Peterson's Private Secondary Schools* is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada, and around the world. Schools featured include independent day schools, special needs schools, and boarding schools (including junior boarding schools for middle-school students). Helpful information listed for each of these schools include: school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs and understanding the private schools' admission application form and process.

Which Degree? Jul 05 2020 Provides information for students wishing to narrow their choice of course before turning to prospectuses - saving them precious time when they need it most. Grouped by study field, this volume is divided into subject chapters with courses arranged alphabetically by title and institution.

Drum Apr 25 2022

Applied Health Economics for Public Health Practice and Research May 15 2021 In today's world of scarce resources, determining the optimal allocation of funds to preventive health care interventions (PHIs) is a challenge. The upfront investments needed must be viewed as long term projects, the benefits of which we will experience in the future. The long term positive change to PHIs from economic investment can be seen across multiple sectors such as health care, education, employment and beyond. *Applied Health Economics for Public Health Practice and Research* is the fifth in the series of *Handbooks in Health Economic Evaluation*. It presents new research on health economics methodology and application to the evaluation of public health interventions. Looking at traditional as well as novel methods of economic evaluation, the book covers the history of economics of public health and the economic rationale for government investment in prevention. In addition, it looks at principles of health economics, evidence synthesis, key methods of economic evaluation with accompanying case studies, and much more. Looking to the future, *Applied Health Economics for Public Health Practice and Research* presents priorities for research in the field of public health economics. It acknowledges the role played by natural environment in promoting better health, and the place of genetics, environment and socioeconomic status in determining population health. Ideal for health economists, public health researchers, local government workers, health care professionals, and those responsible for health policy development. *Applied Health Economics for Public Health Practice and Research* is an important contribution to the economic discussion of public health and resource allocation.

Crime Scene Investigations Aug 25 2019 This unique resource offers activities in earth, life, and physical science as well as science inquiry and technology. The Grades 6-12 level book provides labs on life, physical, and earth science as well as critical thinking. Like real-life forensic scientists, students observe carefully, organize, and record data, think critically, and conduct simple tests to solve crimes like theft, dog-napping, vandalism and water pollution. For added fun, each resource features an original cartoon character, Investi Gator for the Elementary level and Crime Cat for Grades 6-12. All activities include complete background information with step-by-step procedures for the teacher and reproducible student worksheets. Whatever the teacher's training or experience in teaching science, *Crime Scene Investigations* can be an intriguing supplement to instruction.

15-Minute Focus - Behavioral Threat Assessment and Management for K-12 Schools Oct 08 2020

In *15-Minute Focus: Behavioral Threat Assessment and Management for K-12 Schools*, Dr. Melissa A. Louvar Reeves explains the interrelated factors that play a role in a person's decision to plan and carry out an act of violence. Every year, stories about violence in schools make headlines around the world. And every year, questions surface: How could this have been prevented? What were the warning signs? What changes do we need to make in our schools and communities to prevent this from happening yet again? This book will help answer those questions, as you learn about the factors that affect decision-making, and the role of Behavioral Threat Assessment and Management (BTAM) in managing students' troubling behaviors, mitigating risk for the school and community, and directing students onto more positive pathways. In this book, you'll discover: Why schools should establish BTAM teams and protocols? How to establish a BTAM team? Identifying and reporting concerns? Establishing protocols for evaluating threats? How teachers, administrators, counselors and the community can work together to mitigate troubling behavior and ensure student success? Ways to assist struggling students as they transition to adult life after high school Educators, administrators, and school counselors have been trained on how to respond to a student who is suicidal or despondent. This book helps translate those skills to assist someone who is thinking about harming others.

Research in Education Feb 21 2022

Criminology Nov 20 2021 The fourth edition of best-selling *Criminology: Theory, Research, and Policy* discusses criminal behavior and explores the factors that contribute to crime as well as the social reactions to crime. The digital edition of this book is missing some of the images or content found in the physical

edition.

Positioning Technology Education in Minnesota's Graduation Standards Mar 25 2022

Communities That Care Oct 20 2021 Scholars and policymakers increasingly call for evidence-based, prevention-oriented, and community-driven approaches to improve public health and reduce youth crime, substance use, and related problems. However, few functional models exist. In Communities that Care, four leading experts on prevention describe one such system to illustrate how communities effectively engage in prevention activities. Communities That Care (CTC) is a coalition-based prevention system implemented successfully in dozens of communities across the world that promotes healthy development and reduces crime rates for youth. Drawing on literature from criminology, community psychology, and prevention science this book describes the conditions and actions necessary for effective community-based prevention. The authors illustrate how effective community-based prevention can be undertaken by describing how the CTC prevention system has been developed, implemented, evaluated, and disseminated across the U.S. and

internationally. Communities that Care shares invaluable lessons about the implementation and evaluation of community-level interventions and establishes a set of best practices for anyone seeking to engage in and/or evaluate effective prevention efforts.

Canadian Journal of Criminology Nov 08 2020

Private Secondary Schools: Traditional Day and Boarding Schools Jan 29 2020 Peterson's Private Secondary Schools: Traditional Day and Boarding Schools is everything parents need to find the right day or boarding private secondary school for their child. Readers will find hundreds of school profiles plus links to informative two-page in-depth descriptions written by some of the schools. Helpful information includes the school's area of specialization, setting, affiliation, accreditation, subjects offered, special academic programs, tuition, financial aid, student profile, faculty, academic programs, student life, admission information, contacts, and much more.
