**How the Tin Man Found His Brain** Feb 02 2020 "'Will I ever be normal again?' That was the question. The First Light had occurred. It had happened... Some years ago, a gentleman was referred to me for consultation. It was unclear what kind of strategy this man was looking to develop, or why he was referred to me. He seemed vague and perhaps a bit confused. I should say, that some of the work I was engaged in at that time was "decision strategy innovation": an approach to professional and personal problem solving which incorporates multiple functions of conscious resources. Simply put, it involves the intuitive/inspired, rational and creative forms of thinking being utilized in concert, using subjectively and emotional intelligence." As Mr. Humphries points out via Alice Hoffman, "Once you know some things, you can't unknow them." In other words, learning creates inner change. Within these pages you will find what has been described as many "nuggets that require further digestion," as Ms. Debney Shaw takes you on a personal journey toward enhancing your decision strategies , using methods designed to bring out innovation.

**Julio: a Brooklyn Boy Plays Detective to Find His Missing Father** Oct 12 2020 A Brooklyn Boy Plays Detective to Find His Missing Father, writer and editor Robert Eidelberg has added thought-provoking questions throughout the pages of John Carters original story (they're set off to the side here and there); these questions are intended to prompt you, the reader, to engage in some detecting, some reflecting, and even some expecting during the novels development of character, plot, and point of view. These provocative questions all appear under WERE YOU WONDERING? headings because they are just the sort of questions that good readers generally wonder about when they read mysteries (actually, when they read all kinds of stories). Good readers look closely (detect) in order to know; they think more fully (reflect) about what they've noticed in order to understand what it most likely means; and they predict (mindfully expect) by using the details of a story and their own experiences and knowledge to guess at what will probably happen next.

**Finding His Footprints in the Sand** Feb 25 2022 "Offers hope to anyone that struggles with being 'good enough' for God" (Julie Zine Coleman, author of Unexpected Love). Perhaps you've experienced a defining moment, one that explains who you are today. God had a defining moment. His Son died on the cross for our sins, changing history and his relationship with mankind. Still, His forgiveness, love, and sacrifice are concepts unfamiliar to much of the world. Ignorant of such grace, society bombards us with the daily temptation to measure up or perform. When we fail to achieve the desired results, we struggle to feel God's grace. This is especially true when life hits us hard through tragedy, unfortunate events, and prolonged suffering—we question; we wonder; we misunderstand His amazing grace. This can cause us to battle shame, self-doubt, and bitterness. When dark times come, are you able to find strength in God's grace? Do you defeat insecurity, lack of self-worth, and guilt through your view of grace? Have you seen your Lord's footprints in the sand when you look back at the most difficult times in your life? Do your struggles and disappointments bring you to a deeper understanding of His grace? In this book, Erica S. Kim starts with a defining moment in her personal life—the tragic death of her mother—to describe her journey to rediscover God's grace. Through poignant true-life stories and teachings about women in the Bible, you will be led from the book of Genesis to the cross to see without a doubt how God has carried each one of us in His arms through every dark and hopeless moment, to help you to experience fulfillment and spiritual growth.
