Losing Ground (10th Anniversary Edition) Jan 10 2021 This classic book serves as a starting point for any serious discussion of welfare reform. *Losing Ground* argues that the ambitious social programs of the 1960s and 1970s actually made matters worse for its supposed beneficiaries, the poor and minorities. Charles Murray startled readers by recommending that we abolish

welfare reform, but his position launched a debate culminating in President Clinton's proposal "to end welfare as we know it."

International Policy Jun 14 2021 Part of The Labour Governments 1964-70 series, this text concentrates on Britain's international policy during Harold Wilson's Labour governments in the 1960s. The coverage ranges from defence policy and the government machine to European integration, NATO and the Vietnam War. Harold Wilson

and his ministers have often been accused of betraying the sense of promise that greeted their victory in 1964. Using recently released archival evidence, Young argues that a more balanced view of the government should recognize the real difficulties that surrounded decision-making, not only on Vietnam, but also on Aden, the Nigerian Civil War and Rhodesia. tensions and the need to placate allies all placed limits on what a once-great but clearly declining power could achieve. Frurthermore, the government proved of pivotal importance in the history of Britain's international role, in that it presided over a major shift of focus from positions east of Suez to European concerns, a focus that has remained until the present day. international relations during this exciting period. Together with the other books in the series, on domestic and economic policy, it provides a complete picture of the development of Britain under the premiership of Harold Wilson.

Harold Wilson's EEC

Application Mar 12 2021

Britain's policy towards Europe in the latter half of the twentieth century has been the subject of endless interest, scrutiny and debate. The European question has dominated foreign policy agendas from Churchill to Blair. This book seeks to further our knowledge of one of the most crucial periods for both Britain and Europe but also to enliven the debate concerning fundamental issues. Why, against a backdrop of the burgeoning 1960s, did the Labour Prime Minister, Harold Wilson, seek to replicate the path taken by his Conservative predecessor Harold Macmillan, and make an application to join the EEC? And why was he

unable to succeed? These two questions are central to this study and their answers provide invaluable insights into the formulation, execution and fate of Britain's European policy during this period. Using newly released archival material in the National Archives and having consulted extensive interviews with many of the key political figures, Jane Toomey not only challenges old assumptions but also offers a new interpretation of Wilson's European diplomacy *Woodrow Wilson and American Internationalism* Mar 24 2022 In this new work, one of the world's leading historians of US foreign relations, Lloyd E. Ambrosius, addresses enduring questions about American political culture and statecraft by focusing on President Woodrow Wilson and the United States in international relations during and after World War I. Updated to include recent historiography as well as an original introduction and conclusion, *Woodrow Wilson and American Internationalism* features nine different essays closely linked together by the themes of Wilson's understanding of Americanism, his diplomacy to create a new world order in the wake of World War I, and the legacy of his foreign policy. Examining the exclusive as well as universal dimensions of Wilsonianism, Ambrosius assesses not only Wilson's role during his presidency but also his legacy in defining America's place in world history. Speaking to the transnational turn in American history,

Ambrosius shows how Wilson's liberal internationalist vision of a new world order would shape US foreign relations for the next century.

The Wilson Governments

1964-1970 Reconsidered Dec 21 2021

This book provides a fascinating re-assessment of our view of the Wilson governments of 1964-1970. This new text draws on newly available sources, across the range of British government, and for the first time looks at the whole range of political and state activity. This critical appraisal provides a fascinating case study of British government in action in this key period of British History.

This book was previously published as a special issue of the leading journal *Contemporary British History*. It is an excellent resource for students of governance, foreign policy, economics and social policy.

Woodrow Wilson: Neutrality, 1914-1915 Nov 27 2019

American Government: Brief Version Oct 31 2022

This popular brief edition text for the one-semester or one-quarter American Government course maintains the framework of Wilson's comprehensive text, emphasizing the historical development of the American political system, who governs, and to what ends. AMERICAN GOVERNMENT, BRIEF VERSION, TENTH EDITION offers new coverage of such key and emerging issues as the 2010 campaigns and elections; leadership of President Obama and the 111th Congress; the economic downturn and new

policies to combat the crisis; healthcare reform; recent changes to the Supreme Court; same-sex marriage; and the war in Afghanistan. The text also emphasizes critical thinking skills throughout and includes many tools to help students maximize their study efforts ... and results.

Woodrow Wilson Aug 29 2022

From the Ivy League to the oval office, Woodrow Wilson was the only professional scholar to become a U.S. president. A professor of history and political science, Wilson became the dynamic president of Princeton University in 1902 and was one of its most prolific scholars before entering active politics. Through his labors as student, scholar, and statesman, he left a legacy of elegant writings on everything from educational reform to religion to history and politics. Woodrow Wilson: Essential Writings and

Speeches of the Scholar-President collects Wilson's most influential work, from early essays on religion to his famous "Fourteen Points" speech, which introduced the idea of the League of Nations. Among the last of the presidents to write his own speeches, Wilson left behind works which offer impressive insights into his mind and his age. Deeply religious, Wilson looked to his faith to guide his life and wrote candidly about the connection. A passionate advocate of liberal learning, he broadcast his ideas on educational reform with missionary intensity. In politics he moved from a traditional nineteenth-century conservative view of government to a progressive, international vision which transformed American politics in the new century. His writings allow us to trace the intellectual struggle that took the nation from a position of neutrality in World War I to its role as a central player on the world stage. Penetrating and eloquent, the works gathered here represent the best and the most important of Wilson's writings that retain enduring interest. A rich repository of ideas on the American people and America's purpose in the world, these works reveal the thoughts of one of the most acute analysts and actors in the drama of American politics.

The British Army in Italy

1917-1918 Sep 17 2021 After the Italian defeat at Caporetto, a British Expeditionary Force under General Plumer was despatched from France. This account describes the

campaign which ended after the victory at Vittorio Veneto over the Austrians. ' [Eritrea and Ethiopia](#) Dec 29 2019 The Ethiopian-Eritrean federation, a product of a United Nations resolution, came into existence in 1952 and was abolished ten years later. The primary objective of this book is to examine the rise and the fall of the federation in the light of present-day realities. This central theme is placed in context by a reconstruction of Eritrean political organizations during the crucial postwar years. The work includes a short account of the war between Eritrean nationalist forces and the Ethiopian government, which led up to the emergence of Eritrea as a sovereign state. Based primarily on archival sources at the Public Record Office in London, Eritrea and Ethiopia argues that no other group in the region has repeatedly succeeded in shaping its political destiny as the Tigreans of Eritrea have. Negash maintains that the federation was abolished by Eritrean social and political forces rather than by Ethiopia. The UN-imposed federation, together with its accompanying constitution, were doomed to fail, as these were foreign to Eritrean and Ethiopian conceptions of political power. The attempts of the Eritrean Moslem League to defend and maintain the federation were frustrated by internal contradictions, by the Unionist party, and by misconstrued perceptions of the division of powers between Eritrea and Ethiopia. The author looks

Read Online American Government Wilson 10th Edition Pdf For Free

closely at the impact of the British period on Eritrean society. Such an examination provides a better understanding of the background to the conflict and it is an important part of Eritrean political and social history. This book is the story of the slow but steady dissolution of the federation as seen and observed by the British diplomatic corps. Between 1952 and 1962, there were about thirty British nationals assigned to the Eritrean government. These expatriates kept in touch with the British consulate-general whose responsibility was to protect the interests of British nationals as well as to report developments to London. The conclusions and interpretations found in this book are, to a great extent, based on that documentation. Eritrea and Ethiopia is the first study of its kind to follow the rise and fall of the federation. It will be a challenging and insightful read for students of African affairs, diplomatic historians, policy studies scholars, and political theorists.
