**A Practical Guide to the Self-Management of Lower Back Pain** 14 2020 At the beginning, your back may feel a little sore but then it starts to get stiff. Before you know it, your muscles start seizing up, causing you to bend over like an old man, unable to move. Soon it may even become chronic. Constantly suffering or becoming addicted to pain medication is no way to live life, which is why James Tang wrote this practical guide to help those who suffer from back pain. Drawing on his experiences as someone who has suffered from lower back pain, he helps you understand its causes and symptoms, examining topics such as obesity, flat feet, sacroiliac joint dysfunction, sleep positions, and diet and sports nutrition. He also highlights how to holistically manage lower back pain via trigger-point therapy, flexibility training, and core stability exercises. With the majority of the population spending working lives in prolonged seated positions, education about posture and back problems has never been more important. Get straightforward advice on preventing, managing, and eradicating pain with A Practical Guide to the Self-Management of Lower Back Pain.

**16th International Conference on Soft Computing Models in Industrial and Environmental Applications (SOCC 2021)** This book of Advances in Intelligent and Soft Computing contains accepted papers presented at SOCC 2021 conference held in the beautiful and historic city of Bilbao (Spain), in September 2021. Soft computing represents a collection or set of computational techniques in machine learning, computer science, and some engineering disciplines, which investigate, simulate, and analyze very complex issues and phenomena. After a thorough peer-review process, the 16th SOCC 2021 International Program Committee selected 78 papers which are published in these conference proceedings and represents an acceptance rate of 48%. In this relevant edition, a special emphasis is put on the organization of special sessions. Seven special sessions are organized related to relevant topics as follows: applications of machine learning in computer vision; soft computing applied to autonomous robots and renewable energy systems; optimization, modeling, and control by soft computing techniques (OMCS); challenges and new approaches toward artificial intelligence deployments in real-world scenarios; time series forecasting in industrial and environmental applications (TSF); soft computing methods in manufacturing and management systems and applied machine learning. The selection of papers was extremely rigorous in order to maintain the high quality of the conference, and we would like to thank the members of the program committee for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference, and the SOCC conference would not exist without their help.

**Advanced Hairdressing** Sep 03 2022 Written to match the 2004 specifications, this successful book provides everything students need to pass their S/NVQ Level 3. **An Holistic Guide to Massage** 15 2021 An Holistic Guide to Massage incorporates the links between body, mind and soul in the search for well-being. This approach has not been taken by any other text written about massage. Other texts currently available tend to focus on one theory and one theory only, whereas this book encourages students to look at the wider picture encompassing different theories. The students are then able to try their own mind up about which massage therapy to practice. This title is ideal for any students taking Beauty Therapy NVQ levels 2 or 3, as well as VTCT, City & Guilds, BTEC and other massage courses.

**A Practical Guide to the Self-Management of Musculoskeletal Pain in Dental Professionals** 14 2021 Dental professionals spend their working lives in stressful environments and in awkward postures, with resultant musculoskeletal problems. While there are numerous books on musculoskeletal pain, there is nothing specific for dental professionals on the holistic approach to the self-management of musculoskeletal conditions. This book is a practical guide: it combines all the different modalities in a logical and systematic programme, firstly by recognising the possible causes of your predicament, and secondly by effectively managing it to prevent recurrence. Beauty Therapy, Level 3 Nov 05 2022 Matched to the 2004 standards, this handbook contains comprehensive coverage of the Beauty Therapy, Body Massage and Spa pathways. It includes step-by-step photographs for every procedure to help students learn the skills they need.

**Learning Through Play, 2nd Edition For Babies, Toddlers and Young Children** Apr 05 2020 Praise for the first edition: "The key advantage to this book is the way in which it is easy to read and the amount of information it provides with regard to the role of play in supporting young children's learning." Karen Phethean, University of Winchester "This book is excellent. It is an invaluable resource for both qualified and trainee early years practitioners." Tina Bruce has a real talent with how she expresses ideas. The concepts are presented in an accessible way. The material is suitable across a range of levels of study." Caroline McGrath, Programme Manager for Foundation Degree in Early Childhood Studies, City of Bristol College in partnership with the University of Plymouth "I would always recommend books by Tina Bruce as she is highly accessible, combining theory and practice so closely together. They are attractively laid out and are therefore popular with students." Maureen Brookson, University of East Anglia Professor Tina Bruce CBE, an acknowledged expert on play, clearly presents the key ideas and demonstrates the best practices for cultivating play in an Early Years setting. The book covers historical perspectives, how we can observe and study play, and the role of play in learning, developing abstract ideas, helping children to relate to one another. She shows that play helps children to achieve the highest form of learning in early childhood. This new edition of Learning Through Play will provide students and practitioners with an invaluable guide to the core values behind play, the importance of play for children from 0 to 5 years old, and practical schemas for getting the best out of play in an Early Years or Educational setting. It will be an ideal text for those studying play at levels 3 and 4, Foundation Degrees, Undergraduate Early Childhood Studies and Primary Education courses, Post-graduate study and for those working in an Early Years setting.

**Constitutionalism in Asia** Apr 05 2020 This book of text, cases and materials from Asia is designed for scholars and students of constitutional law and comparative constitutional law. The book is divided into 11 chapters, arranged thematically around key ideas and controversies, enabling the reader to work through the major facets of constitutionalism in the region. The book begins with a lengthy introduction that critically examines the traditional constitutional orders in 'Asia', highlighting the histories, colonial influences, and cultural particularities extant in the region. This chapter serves both as a provisional orientation towards the major constitutional developments in Asia – both unique and shared with other regions – and as a guide to the controversies encountered in the study of constitutional law in Asia. Each of the following chapters is framed by an introductory essay setting out issues and succinctly highlighting critical perspectives and themes. The approach is one of 'challenge and response', whereby questions of constitutional importance are posed and the reader is then led, by engaging with primary and secondary materials, through the way the various Asian states respond to these questions and challenges. Chapter segments are accompanied by notes, comments and questions to facilitate critical and comparative analysis, as well as recommendations for further reading. The book presents a representative range of Asian materials from jurisdictions including: Bangladesh, China, Hong Kong, India, Japan, Mongolia, Nepal, Pakistan, South Korea, Sri Lanka, Taiwan, Timor-Leste and the 10 ASEAN states.
