That Liverpool Girl Feb 13 2021 NOT EVEN THE BOMBS THAT DESTROYED THEIR CITY COULD BREAK THEIR SPIRIT ... Three generations of strong, determined women and the war that threatened to tear them apart. In the backstreets of Liverpool, Eileen Watson lives with her mother, Nellie, daughter Mel and her three tear-away sons. Life isn't great, but they have each other, and family can get you through anything. Or...can it? Then, on the third day in September 1939, Britain declares war on Germany and their lives change forever. The children have to be evacuated, but daughter Mel refuses to go, and so Eileen says goodbye to her mother and sons, moves away from the street they love and faces a future without most of the people in her precious family. Thus begins a journey for them all. A journey filled with forbidden love, tragedy and the terrifying sounds of a city they love crumbling into craters left by the Luftwaffe. Their lives will never be the same again ...

Progressive Rhetoric and Curriculum Aug 02 2022 *Progressive Rhetoric: Contested Visions of Public Education in Interwar Ontario* considers the ways that progressivist ideas and rhetoric shaped early curriculum and structural changes to Ontario's public schools. Through a series of case studies, conceptual analyses, and personal reflections from the field, this volume shows how post-WWI era debates around progressive education were firmly situated within political, economic, social and intellectual evolutions in the province and beyond. By framing contemporary educational rhetoric in light of historical concepts and arguments, *Progressive Rhetoric* adds to the ongoing historical examination of the meaning of progressive education in the modern age.

The Feminine Gaze Feb 25 2022 Many Canadian women fiction writers have become justifiably famous. But what about women who have written non-fiction? When Anne Innis Dagg set out on a personal quest to make such non-fiction authors better known, she expected to find just a few dozen. To her delight, she unearthed 473 writers who have produced over 674 books. These women describe not only their country and its inhabitants, but a remarkable variety of other subjects: from the story of transportation to the legacy of Canadian missionary activity around the world. While most of the writers lived in what is now Canada, other authors were British or American travellers who visited Canada throughout the years and reported on what they found here. This compendium has brief biographies of all these women, short descriptions of their books, and a comprehensive index of their books' subject matters. *The Feminine Gaze: A Canadian Compendium of Non-Fiction Women Authors and Their Books, 1836-1945* will be an invaluable research tool for women's studies and for all who wish to supplement the male gaze on Canada's past.

Stewardship Ethics in Debt Management Nov 24 2021 As we move forward into the Third Millennium AD the perennial problem of unmanageable debt is still with us. As if to prove the point, in late November 1997, the Tokuyo City Bank in Japan closed down its business, reminding the world that default still stalks families, institutions and governments. It seems that little has been achieved in handling debt since 1216 when the Magna Carta limited the actions of bailiffs against debtors willing and able to make payment. Current literature about consumer credit, business finance and mortgages reveals the urgent need to tackle the ethics of borrowing and lending on some commonly understood and acceptable basis. In this book, the stewardship concept familiar in accounting, corporate governance, environmental strategy and Christian social ethics is analyzed to provide a framework. The book demonstrates that analysis of the concept of stewardship provides a set of resource-related social values which shed light upon ethical issues in debt management and enable the construction of a decision support model to secure improvements in debt management practice.

The Bonin Islanders, 1830 to the Present Feb 02 2020 This book is a collection of interwoven historical narratives that present an intriguing and little known account of the Ogasawara (Bonin) archipelago and its inhabitants. The narratives begin in the seventeenth century and weave their way through various events connected to the ambitions, hopes, and machinations of individuals, communities, and nations. At the center of these narratives are the Bonin Islanders, originally an eclectic mix of Pacific Islanders, Americans, British, French, German, Portuguese, Italian, and African settlers that first landed on the islands in 1830. The islands were British sovereign territory from 1827 to 1876, when the Japanese asserted possession of the islands based on a seventeenth century expedition and a myth of a samurai discoverer. As part of gaining sovereign control, the Japanese government made all island inhabitants register as Japanese subjects of the national family register. The islanders were not literate in Japanese and had little experience of Japanese culture and limited knowledge of Japanese society, but by 1881 all were forced or coerced into becoming Japanese subjects. By the 1930s the islands were embroiled in the Pacific War. All inhabitants were evacuated to the Japanese mainland until 1946 when only the descendants of the original settlers were allowed to return. In the postwar period the islands fell under U.S. Navy administration until they were reverted to full Japanese sovereignty in 1968. Many descendants of these original settlers still live on the islands with family names such as Washington, Gonzales, Gilley, Savory, and Webb. This book explores the social and cultural history of these islands and its inhabitants and provides a critical approach to understanding the many complex narratives that make up the Bonin story.

EBOOK: Critically Engaging CBT Jul 09 2020 In recent years, Cognitive Behaviour Therapy (CBT) has become an increasingly popular therapy and is now widely recommended by GPs and a range of other health professionals. Part of CBT's appeal lies in the fact that it is time-limited and cheaper than most alternatives. The editors of this book argue that in the rush to embrace CBT there has not been sufficient attention paid to the potential drawbacks of such a therapy. This book redresses the balance by taking a critical look at CBT through the lens of various standard psychotherapy approaches, considering those areas where CBT is appropriate as well as those where it might not be. Leading figures associated with particular approaches (including Jungian, Systemic, Lacanian and Rogerian practitioners) examine the role of CBT and how it fits within their approach, exploring a synthesis of the two. Responses from three leading international CBT authorities enable readers to engage with both sides of the emerging global debate about CBT, and to consider what CBT therapists and other psychotherapists might learn from one another. *Critically Engaging CBT* is key reading for training and practising counsellors and psychotherapists as well as other health professionals who deal with CBT and/or other psychological interventions. Contributors: Ann Casement, Windy Dryden, John Heaton, Jeremy Holmes, Richard House, Del Loewenthal, Stacey Millichamp, Ian Parker, Howard A. Paul, Michael Proeve, Anthony Ryle, Peter Stratton and Keith Tudor.

Operations Forensics Apr 17 2021 Powerful tools for using operations metrics to analyze companies in ways that go beyond traditional financial models and statements. Investors and analysts often need to look into a firm's operations more deeply than traditional financial statements and models allow. This book describes newly developed tools for using operations metrics to discern and influence the valuation of a firm. It is the first to present these techniques from a unified perspective: that of operations forensics, which looks at operations management not from the traditional point of view of a manager but from that of an investor or shareholder. After a discussion of financial statements and the useful but incomplete insights they provide, the book covers the three components of operations forensics: operational indicators, operations details that can predict future performance; operational due diligence, methods for verifying companies' claims about operational excellence and valuing their operational assets; and operational turnaround, an innovative approach to buyout and turnaround strategies. The text also offers brief reviews of operations management concepts, real-world examples of operations forensics, and a glossary. The mathematical material gradually increases in sophistication as the book progresses (but can be skipped without loss of continuity). Each chapter concludes with a "Takeaways and Toolkit" section, a brief summary of prior research, and suggestions for further reading. *Operations forensics* offers powerful tools and frameworks for financial analysts, private equity firms, managers, and consultants. This book provides a valuable resource for MBA students and practitioners. Downloadable supplementary material for instructors includes figures from the text and 42 slides that can be used for class presentations.

Making the Scene Aug 22 2021 *Making the Scene* is a history of 1960s Yorkville, Toronto's countercultural mecca. It narrates the hip Village's development from its early coffee house days, when folksingers such as Neil Young and Joni Mitchell flocked to the scene, to its tumultuous, drug-fuelled final months. A flashpoint for hip youth, politicians, parents, and journalists alike, Yorkville was also a battleground over identity, territory, and power. Stuart Henderson explores how this neighbourhood came to be regarded as an alternative space both as a geographic area and as a symbol of hip Toronto in the cultural imagination. Through recently unearthed documents and underground press coverage, Henderson pays special attention to voices that typically aren't heard in the story of Yorkville - including those of women, working class youth, business owners, and municipal authorities. Through a local history, *Making the Scene* offers new, exciting ways to think about the phenomenon of counterculture and urban manifestations of a hip identity as they have emerged in cities across North America and beyond.
