*Designing Mobility and Transport Services* Oct 08 2020

European cities increasingly face problems caused by transport and traffic. For many people transport provision is unsatisfactory and current arrangements are leading to a deteriorating environment. A fundamental problem is that our currently fragmented approach makes it difficult to understand fully the

circumstances and needs of transport users. In any overall approach public transport is a crucial component. Designing Mobility and Transport Services shows how these issues can be addressed and resolved. The development of an inclusive, validated passenger experience measurement instrument is the first step in understanding the situation and thus tackling it. It is needed if we are to create high quality, user centred, integrated, accessible public transport services, which are capable of attracting and retaining public transport users whilst meeting sustainability targets. The METPEX research project was devised to tackle these issues. Coordinated by Coventry University, the METPEX consortium brought together 16 European partners from 12 countries. The project's underlying rationale was the proposition that if transport operators and authorities were provided with a robust, reliable and tailorable means of measuring the whole multimodal passenger journey, they could improve service provision. The book describes how such an improvement can be achieved, to attract travellers out of their private vehicles, thereby reducing congestion and pollution and increasing health and well-being. It provides a template for a creative approach and a meta-design narrative in designing for transport systems to enhance mobility choices by improving the door to door journey and thus underpin sustainable transport initiatives.

**Parties at War** Jun 23 2019 Political parties formed the  
cornerstone of the liberal democracy for which Britain claimed it  
was fighting in the Second World War. However, that conflict  
represented the most sustained challenge to the British party  
system during the twentieth century. War forced the suspension  
of normal electoral politics, and exerted considerable extra  
demands on the time and loyalties of party activists and  
organizers. This all posed a serious challenge to the  
Conservative, Labour and Liberal parties. **Parties at War** uses an  
unusually broad and deep range of records of the main political  
parties to explore how they responded to the challenge of war.  
Extensive use of the local as well as the national-level papers of  
the major parties offers a fuller picture than ever previously  
attempted. Andrew Thorpe focuses on what parties actually did,  
at both local and national levels, to sustain their organization  
during the war. He assesses the varying impacts of war, not just  
on each of the parties, but also over time, and between the  
different regions and areas of Britain. Thorpe demonstrates how

wartime struggles over organization had significance not just for the election of the first majority Labour government in 1945, but also for the longer-term development of 'party' in modern British politics.

### **Police Courts in Nineteenth-Century Scotland, Volume 1**

Nov 28 2019 Taking the form of two companion volumes, *Police Courts in Nineteenth-Century Scotland* represents the first major investigation into the administration, experience, impact and representation of summary justice in Scottish towns, c.1800 to 1892. Each volume explores diverse, but complementary, themes relating to judicial practices, relationships, experiences and discourses through the lens of the same subject matter: the police court. Volume 1, with the subtitle *Magistrates, Media and the Masses*, provides an institutional, social and cultural history of the establishment, development and practice of police courts. It explores their rise, purpose and internal workings, and how justice was administered and experienced by those who attended them in a variety of roles. Special attention is given to examining how courtroom discourse was represented in print culture, the role of the media in providing a discursive commentary on summary justice, and the ways in which magistrates and the police engaged in a law and order dialogue with the press. Throughout, consideration is given to uncovering the relationship between magistrates, the courts, the police and the wider community, and to charting the implications of the rise of summary justice and the 'police-man' state for the urban masses (as evidenced through prosecution, conviction and punishment patterns). Volume 2, with the subtitle *Boundaries, Behaviours and Bodies*, explores, through themed case studies, how police courts shaped conceptual, spatial, temporal and commercial boundaries by regulating every-day activities, pastimes and cultures.

**Sex, Work, and Professionalism Nov 08 2020** Sex, Work and Professionalism examines what happens when professional concern is defined in terms of sex. Based on original fieldwork with outreach workers in HIV prevention it addresses issues of professionalism, emotion work and boundaries, integrating empirical insights with sociological theory. In most professional relationships sex is not defined as part of the relationship, in fact it is explicitly excluded in guidelines and codes of ethics. HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality. They have to learn how to balance their work and professional lives, overcoming conflicts such as: \* professional role V community role \* sexual skills V sexual boundaries \* personal experiences V professional understanding \* professional identity V worldviews. Many of the questions being raised in this book about the meaning of professionalism, the pain and pleasure in emotion work and the management of boundaries between home, sex and work are being asked more generally by workers in a range of organisations. Sex, Work and

Professionalism argues for a new understanding of professionalism more appropriate to the human services.

*The Shock of the News* Aug 25 2019 How did the events of September 11, 2001 come to be thought of as 9/11? *The Shock of the News* is an authoritative account of post-9/11 political and social processes, offering an in-depth analysis of the media coverage of this momentous event. Brian Monahan demonstrates how 9/11 has been transformed into a morality tale centered on patriotism, victimization, and heroes. Introducing the idea of “public drama” as a way of making sense of how media processed and packaged the 9/11 attacks for their audiences, Monahan not only illuminates how and why the coverage took shape as it did, but also provides us with new insights into the social, cultural, and political consequences of the attacks and their aftermath. Monahan explains how and why 9/11 became such a potent symbol, exploring how meanings and symbols get created, reinforced, and disseminated in modern society. Ultimately, Monahan offers an important new understanding of this singular event of our time, and his compelling narrative

brings the momentous events back into focus.

*The Asian Economy* May 03 2020 The global financial crisis of 2007-09, and the Great Recession that it engendered, were both a challenge and an opportunity for Asia. The region not only remained unharmed by the global financial crisis initially but also recovered the fastest. In addition, it was also the principal driver of the global recovery. This book analyzes the impact of the global financial crisis and the Great Recession on the Asian economy. Chapters look at the most significant issues related to the Asian economy during the crisis, how it coped with them and how it eventually emerged from them. Dilip K. Das discusses how the Asian economy, particularly the emerging-market economies, spearheaded the recovery of the global economy from the global financial crisis and recession, and goes on to look at how this is of historical significance. Written in a clear, comprehensive and critical manner, this book covers the contemporary academic and policy debates on Asia's role in the world economy. As such, it is an essential read for students, researchers and public policy professionals interested in Asian Economics as well as studies in the International Political Economy.

### **Corruption Scandals and their Global Impacts Dec 22 2021**

Corruption scandals receive significant press coverage and scrutiny from practitioners of global governance, and bilateral and multilateral donors. Across the globe, the annual publication of TI's CPI and World Bank's Worldwide Governance Indicators elicits spirited denials and accusations of targeting, of neo-colonialism. Poor measures on corruption indices and the ensuing negative publicity can have serious consequences both externally, through a freeze or retraction of donor funding, and internally, through reducing the availability of public funds, and harming the credibility of serving governments and institutions. Corruption Scandals and their Global Impacts tracks several major corruption scandals across the world in a comparative analysis to assess the full impact of global corruption. Over the course of the book, the contributors deliberate the exposure and reporting of corruption scandals, demonstrate how corruption inhibits development on different levels and across different countries, the impact it has on the country in question, how citizens and authorities respond to corruption, and some local, regional and global policy and legislative measures to combat corruption. The chapters examine the transnational manifestation of corruption scandals around the world, from developed countries and regions such as the United States and the European Union, to BRIC countries Brazil and Russia, to developing countries such as Belarus, Jamaica, Kenya and Nigeria. In each case, chapters highlight the scandal, its impact, the local, regional and global responses, and the subsequent global perceptions of the country. Concluding with a review of the global impacts of corruption scandals, this book provides an

important comparative analysis which will be useful to students and scholars of international development and politics, as well as to development practitioners, donors, politicians and policy makers.

**Bok!** Sep 26 2019 Has the world changed since September 11, 2001? It has for at least one band of subversive operatives who scheme in the shadows to ambush politicians. I'm speaking, of course, of the small yet poorly organized cells of individuals who take advantage of the freedoms this nation provides in order to carry out their roles as political cartoonists. I'm one of them and this is my story. I've operated inside these borders for many years, confounding immigration officials by the simple yet elegant strategy of being born here. The primary targets of my drawing have always been the leaders of my own government from city council to Congress to the president. That's what cartoonists do and that's what the public expects of us. But what happens when an enemy force attacks the government, not with sarcasm and satire, but with commercial aircraft loaded with jet fuel, and destroys national landmarks in New York City and Washington D.C., killing thousands of people? In the immediate aftermath of the September 11 attack a lot of things changed, and I felt like one of them was my job description. No more mucking around with Gary Condit. The social security lock box was now a dead issue. And while it was tempting to make something of the president's disappearing act in Air Force One on that day, it's tough to attack the commander-in-chief when the United States itself has just been attacked. This book contains a collection of my cartoons from that day forward.

**The Female Voice of Myanmar** Jan 23 2022 The Female Voice of Myanmar seeks to offer a female perspective on the history and political evolution of Myanmar. It delves into the lives and works of four of Myanmar's remarkable women who set aside their lives to answer the call of their country: Khin Myo Chit, who spoke about latent sexual politics in pre-Independent Burma; Ludu Daw Amar, who as the editor of the leftist Ludu Daily, was deemed anti-establishment and was witness to the socialist government's abortive efforts at ethnic reconciliation; Ma Thida, whose writing bears testimony to the impact the authoritative military rule had on the individual psyche; and Aung San Suu Kyi, who has re-articulated Burmese nationalism. This book breaks new ground in exploring their writing, both published and hitherto unexamined, some in English and much in Burmese, while the intimate biographical sketches offer a glimpse into the Burmese home and the shifting feminine image.

*Wild Things 2.0* Jul 25 2019 Building on the first Wild Things volume (Oxbow Books 2014), which aimed to showcase the research putting archaeologists researching the Palaeolithic and Mesolithic at the cutting edge of understanding humanity's past, this collection of contributions presents recent research from an international group of both early career and established scientists. Covering aspects of both Palaeolithic and Mesolithic research in order to encourage dialogue between practitioners of archaeology of both periods, contributions are also geographically diverse, touching on British, European, North American, and Asian archaeology. Topics covered include transitional periods, deer and people, stone tool technologies, pottery, land-use, antler frontlets, and the development of prehistoric archaeology an 'age of wonder'.
