At Home in Our Sounds Oct 24 2019 "At Home in Our Sounds: Music, Race, and Cultural Politics in Interwar Paris shows how and why music became part of the social changes Europe faced in the aftermath of World War One. It focuses on the story of black music in Paris and the people who created it, enjoyed it, criticised it and felt at home when they heard it. African Americans, French Antilleans, and French West Africans wrote, danced, sang, and acted politically in response to the heightened visibility of racial difference in Paris during this era. They were consumed with questions that continue to resonate today. Could one be black and French? Was black solidarity more important than national and colonial identity? How could French culture include the experiences and contributions of Africans and Antilleans? From highly educated women, like the Nardal sisters of Martinique, to the working black musicians performing in crowded nightclubs at all hours, At Home in Our Sounds gives a fully rounded view of black reactions to jazz in interwar Paris. It places that phenomenon in its historic and political context, and in doing so shows how music and music-making formed a vital terrain of cultural politics. It shows how music-making brought people together around pianos, on the dancefloor, and through reading and gossip, but it did not erase the political and regional and national differences between them. It shows that many found a home in Paris but did not always feel at home. This book reveals these dimensions of music-making, race, and cultural politics in interwar Paris"--

After Midnight Dec 18 2021 Contributions by Apryl Alexander, Alisia Grace Chase, Brian Faucette, Laura E. Felschow, Lindsay Hallam, Rusty Hatchell, Dru Jeffries, Henry Jenkins, Jeffrey SJ Kirchoff, Curtis Marez, James Denis McGlynn, Brandy Monk-Payton, Chamara Moore, Drew Morton, Mark C. E. Peterson, Jayson Quearry, Zachary J. A. Rondinelli, Suzanne Scott, David Stanley, Sarah Pawlak Stanley, Tracy Vozar, and Chris Yogerst Alan Moore and Dave Gibbons's Watchmen fundamentally altered the perception of American comic books and remains one of the medium's greatest hits. Launched in 1986—"the year that changed comics" for most scholars in comics studies—Watchmen quickly assisted in cementing the legacy that comics were a serious form of literature no longer defined by the Comics Code era of funny animal and innocuous superhero books that appealed mainly to children. After Midnight: "Watchmen" after "Watchmen" looks specifically at the three adaptations of Moore and Gibbons's Watchmen—Zack Snyder's Watchmen film (2009), Geoff Johns's comic book sequel Doomsday Clock (2017), and Damon Lindelof's Watchmen series on HBO (2019). Divided into three parts, the anthology considers how the sequels, especially the limited series, have prompted a reevaluation of the original text and successfully harnessed the politics of the contemporary moment into a potent relevancy. The first part considers the various texts through conceptions of adaptation, remediation, and transmedia storytelling. Part two considers the HBO series through its thematic focus on the relationship between American history and African American trauma by analyzing how the show critiques the alt-right, represents intergenerational trauma, illustrates alternative possibilities for Black representation, and complicates our understanding of how the mechanics of the show's production can impact its politics. Finally, the book's last section considers the themes of nostalgia and trauma, both firmly rooted in the original Moore and Gibbons series, and how the sequel texts reflect and refract upon those often-intertwined phenomena.

Films Famous, Fanciful, Frolicsome & Fantastic Jan 07 2021 Remember "Humpy," the talking camel? You'll find him in this book, along with a host of other legendary characters from Alice in Wonderland through the Mysterious Mr Wong to Wild Bill Hickok. Movie stars featured include Lon Chaney, Kay Francis, Buster Keaton, Greta Garbo, Constance Bennett, Adolphe Menjou and Will Rogers. Directors include John Ford, Cecil B. DeMille, Ernst Lubitsch and Fred Zinnemann. It all adds up to many hours of pleasure for classic movie fans who can thumb through details of award-winning films, popular pictures, and little-known masterpieces that deserve wider recognition. Yes, there are famous "B" movies too, like "Sleepers West" and its re-make, "The Narrow Margin."

San Francisco Noir Mar 21 2022 Following in the footsteps of classic films like *The Maltese Falcon* and *The Lady from Shanghai*, veteran photographer Fred Lyon creates images of San Francisco in high contrast with a sense of mystery. In this latest offering from the photographer of *San Francisco: Portrait of a City 1940-1960*, Lyon presents a darker tone, exploring the hidden corners of his native city. Images taken in the foggy night are illuminated only by neon signs, classic car headlights, apartment windows, or streetlights. Sharply dressed couples stroll out for evening shows, drivers travel down steep hills, and sailors work through the night at the old Fisherman's Wharf. Stylistically, many of the photographs are experimental the noir tone is enhanced by double exposures, elements of collage, and blurred motion. These strikingly evocative duotone images expose a view of San Francisco as only Fred Lyon could capture.

Faulkner and Mystery Jan 19 2022 *Faulkner and Mystery* presents a wide spectrum of compelling arguments about the role and function of mystery in William Faulkner's fiction. Twelve new essays approach the question of what can be known and what remains a secret in the narratives of the Nobel laureate. Scholars debate whether or not Faulkner's work attempts to solve mysteries or celebrate the enigmas of life and the elusiveness of truth. Scholars scrutinize Faulkner's use of the contemporary crime and detection genre as well as novels that deepen a plot rather than solve it. Several essays are dedicated to exploring the narrative strategies and ideological functions of Faulkner's take on the detective story, the classic "whodunit." Among Faulkner's novels most interested in the format of detection is *Intruder in the Dust*, which assumes a central role in this essay collection. Other contributors explore the thickening mysteries of racial and sexual identity, particularly the enigmatic nature of his female and African American characters. Questions of insight, cognition, and judgment in Faulkner's work are also at the center of essays that explore his storytelling techniques, plot development, and the inscrutability of language itself.

Rockstar Games and American History Feb 26 2020 For two decades, Rockstar Games have been making games that interrogate and represent the idea of America, past and present. Commercially successful, fan-beloved, and a frequent source of media attention, Rockstar's franchises are positioned as not only game-changing, ground-breaking interventions in the games industry, but also as critical, cultural histories on America and its excesses. But what does Rockstar's version of American history look like, and how is it communicated through critically acclaimed titles like *Red Dead Redemption* (2010) and *L.A. Noire* (2011)? By combining analysis of Rockstar's games and a range of official communications and promotional materials, this book offers critical discussion of Rockstar as a company, their video games, and ultimately, their attempts at creating new narratives about U.S. history and culture. It explores the ways in which Rockstar's brand identity and their titles coalesce to create a new kind of video game history, how promotional materials work to claim the "authenticity" of these products, and assert the authority of game developers to perform the role of historian. By working at the intersection of historical game studies, U.S. history, and film and media studies, this book explores what happens when contemporary demands for historical authenticity are brought to bear on the way we envisage the past -- and whose past it is deemed to be. Ultimately, this book implores those who research historical video games to consider the oft-forgotten sources at the margins of these games as importance spaces where historical meaning is made and negotiated.

Indie Reframed Sep 15 2021 Explores the films, practitioners, production and distribution contexts that currently represent American women's independent cinema. With the consolidation of indie culture in the 21st century, female filmmakers face an increasingly indifferent climate. Within this sector, women work across all aspects of writing, direction, production, editing and design, yet the dominant narrative continues to construe a male-dominated white male auteurs such as Quentin Tarantino or Wes Anderson as the face of indie discourse. Defying the formulaic myths of the mainstream chick flick and the ideological and experimental radicalism of feminist counter-cinema alike, women's indie filmmaking is neither ironic, popular nor political enough to be readily absorbed into pre-existing categories. This ground-breaking collection, the first sustained examination of the work of female practitioners within American independent cinema, reclaims the indifference of female indie filmmaking. Through a variety of case studies of directors, writers and producers such as Ava DuVernay, Lena Dunham and Christine Vachon, contributors explore the innovation of a range of female practitioners by attending to the sensibilities, ideologies and industrial practices that distinguish their work while embracing the in-between space in which the narratives they represent and embody can be revealed. Key Features Covers American women's independent cinema since the late 1970s Analyses the work of acclaimed but critically overlooked female practitioners such as Kelly Reichardt, Christine Vachon, Miranda July, Kasi Lemmons, Nicole Holofcener, Mira Nair, Lisa Cholodenko, Megan Ellison, Lynn Shelton, Ava DuVernay, Mary Harron and Debra Granik Distinguishes four different approaches to analysing women's independent cinema through: production and industry perspectives; genre and other classificatory modalities; political, cultural, social and professional identities; and collaborative and collectivist practices Contributors John Alberti, Northern Kentucky University Linda Badley, Middle Tennessee State University Cynthia Baron, Bowling Green State University Shelley Cobb,

Somewhere in the Night Aug 14 2021 Film noir is more than a cinematic genre. It is an essential aspect of American culture. Along with the cowboy of the Wild West, the denizen of the film noir city is at the very center of our mythological iconography. Described as the style of an anxious victor, film noir began during the post-war period, a strange time of hope and optimism mixed with fear and even paranoia. The shadow of this rich and powerful cinematic style can now be seen in virtually every artistic medium. The spectacular success of recent neo-film noirs is only the tip of an iceberg. In the dead-on, nocturnal jazz of Charlie Parker and Miles Davis, the chilled urban landscapes of Edward Hopper, and postwar literary fiction from Nelson Algren and William S. Burroughs to pulp masters like Horace McCoy, we find an unsettling recognition of the dark hollowness beneath the surface of the American Dream. Acclaimed novelist and poet Nicholas Christopher explores the cultural identity of film noir in a seamless, elegant, and enchanting work of literary prose. Examining virtually the entire catalogue of film noir, Christopher identifies the central motif as the urban labyrinth, a place infested with psychosis, anxiety, and existential dread in which the noir hero embarks on a dangerously illuminating quest. With acute sensitivity, he shows how technical devices such as lighting, voice over, and editing tempo are deployed to create the film noir world. *Somewhere in the Night* guides us through the architecture of this imaginary world, be it shot in New York or Los Angeles, relating its elements to the ancient cultural archetypes that prefigure it. Finally, Christopher builds an explanation of why film noir not only lives on but is currently enjoying a renaissance. *Somewhere in the Night* can be appreciated as a lucid introduction to a fundamental style of American culture, and also as a guide to film noir's heyday. Ultimately, though, as the work of a bold talent adeptly manipulating poetic cadence and metaphor, it is itself a superb aesthetic artifact.

Orlan Dec 26 2019 Unique book addressing cooperative algorithms at the MAC layer Cooperative Communications: MAC Protocols focuses on issues pertaining to the MAC layer of wireless cooperative communication networks, offering a rigorous taxonomy of this dispersed field, along with a range of application scenarios for cooperative and distributed schemes to show how these techniques can be employed. The authors provide rigorous analytical tools for reservation and contention based MACs, as well as hybrids. This is complemented by an application of developed techniques to specific wireless standards. There is currently no book on the market which coherently discusses cooperative algorithms at the MAC layer. Introduces background, concepts, applications, milestones and thorough taxonomy of the field, along with a range of application scenarios Identifies the potential in this emerging technology applied to e.g. LTE/WiMAX, WSN Explores reservation-based, contention-based and hybrid cooperative MAC protocols, and applies rigorous mathematical tools to these Demonstrates cross-layer design to boost performance Addresses advanced MAC topics, such as opportunistic and network coded MACs Highlights future research challenges within the cooperative communications Includes an accompanying website (<http://books.cttc.es>)

Champagne For Dummies Mar 29 2020 Champagne may be the most misunderstood category of wine in the world. The major reason for all the confusion is the use of the term "Champagne" appearing on labels of sparkling wines that come from places other than the province of Champagne in northeastern France. But true champagne can only be born in an environment that combines the essential elements of chalky soil, a cool climate, and the Chardonnay, Pinot Noir, and Pinot Meunier grape varieties. These are the crucial elements informing the unique flavor profile found only in wines from that corner of the world. Without them, any wine—even a very good one—calling itself champagne, is just an imposter. Baffled by bubbly? Let wine expert Ed McCarthy clear away the confusion. If you find shopping for champagne a challenge, try this fun, friendly guide and discover just how easy it is to select the perfect bottle and: Appreciate various champagne styles Enjoy the author's favorite champagnes Store and serve champagne Pair champagne with food Evaluate sparkling wines from the US and other countries What's the difference between brut and extra dry? Is Vintage Champagne worth the extra money? You'll get the answers to these and all your questions about that effervescent wonder. And in the process you'll discover: How champagne is made, what grape varieties are used, where the major grape-growing areas are, and how those tiny bubbles get into champagne The difference between vintage and non-vintage champagne and champagne specialties, such as blancs and rosé Champagnes The meanings of terms used to describe the dryness/sweetness levels of champagne, such as brut, extra-dry and semi-sec All about the great champagne houses, including in-depth coverage of the author's 25 favorites Everything you need to know about buying and storing champagne The best ways to serve champagne, including the best glasses, the best foods to eat with it and more Like most good things in life, the better you understand champagne, the more you enjoy it. This friendly guide will help you make your enjoyment of the most glamorous beverage on the planet complete.

Black & White & Noir Aug 02 2020 The first book to treat issues of race and ethnicity as related to noir, offering a cultural history of twentieth-century America through episodic readings of films, photographs, and literature.

Dictionary of Electronics Feb 20 2022 The special interest in electronics all over the world is due to its decisive role in the scientific and technical progress now taking place in all fields of modern technology. Electronics also plays a decisive role in the development of science, providing as it does the technical basis for various scientific experiments. The role of electronics in the development of the world's culture also deserves a special mention. That is why it is hoped that the English-German French-Dutch-Russian Dictionary of Electronics, which contains some 9.000 entries and is jointly published by Kluwer Technische Boeken, B.V. (Deventer, Holland) and Ruski Yazyk Publishers (Moscow, USSR) will be favourably received. In accordance with existing international tradition, the term «electronics» covers several fields known in Soviet classification as electronics proper, radio engineering, and wire communication. The entries included in this dictionary have been selected in accordance with the international understanding of the term «electronics». One of the main difficulties encountered by the compilers was that although according to some calculations the number of terms used in special literature on electronics exceeds 50.000, the vocabulary of the dictionary had to be restricted to only 9.000 entries. Therefore this dictionary cannot claim to be comprehensive. Its purpose is to enable a wide range of specialists in various countries to find the English, German, French, Dutch, or Russian equivalents of the principal and most up-to-date terms in the field of electronics. Most attention has been paid to quantum electronics, fibre optics, optoelectronics, integrated circuit technology, radiolocation and radionavigation, pulse technique, holography, etc.

Compact Oxford-Hachette French Dictionary Apr 10 2021 A compact, intermediate-level dictionary covering over 90,000 words and phrases, and 120,000 translations ideal for the home, office, or school.

French Phrases Vol.1 May 31 2020 French Phrases Vol.1: English & French THIS EDITION: French Phrases seeks to bridge the gap between knowing individual words and knowing how to create or understand sentences. Sentences are phrases or a combination of phrases, and phrases are a combination of words. The simplest phrases are the simplest ways of combining words. Exposure to a wide variety of phrases, especially in increasing complexity, provides the basis for obtaining a solid grasp of a new language. The reason being, phrases can be combined with other phrases to create endless possibilities in language. French Phrases contains a wide variety of phrases, but it also demonstrates how phrases can increase in complexity - through the inclusion of individual words or other phrases. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French The text can be used to obtain a fundamental grasp of French grammar. An understanding of the rules that underpin the way words combine into phrases, or phrases combine into sentences, allows the language learner to expand their capacity exponentially simply by increasing vocabulary. With this in mind, the text includes an introductory section summarising the important aspects of French grammar. The dual-language text has been arranged for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing and expanding on a basic grasp of the language. With an increasingly robust grasp of the language, the language learner can easily and fruitfully move on to more advanced bilingual text — like in 2Language Books editions —, or suitable French only text: a simple novel, a French news website, etc. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources (as digital content), an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources. (A Dual-Language Book Project) 2Language Books

Film and Knowledge Jul 13 2021 Film has become such an underpinning of art and pop culture that its potential for inspiring serious thought is often overlooked. Our intellectual involvement with film has been minimized as more in the audience want to be merely amazed and entertained. Essays written by both established and cutting-edge philosophers of film concentrate in this work on the value of film in general and the value of certain films in particular for the study and teaching of ideas. The essays explore such topics as the significance of narrative unity for self knowledge in David Lynch's *Lost Highway* and in Paul Schrader's *Affliction*; ambiguity and responsibility in Akira Kurosawa's *Rashomon*; consciousness and cognition in Orson Welles's *Citizen Kane*; skepticism in Alfred Hitchcock's *Suspicion* and David Cronenberg's *Naked Lunch*; language and gender in Neil Jordan's *The Crying Game*; Platonic idealism in Chris Marker's *La Jetee*; race in Spike Lee's *Summer of Sam*; the concept of the imagination in cognitive film theory; and the role of ideology in feminist film

theory. Instructors considering this book for use in a course may request an examination copy here.

Challenging and Controversial Picturebooks Apr 29 2020 It is often assumed that picturebooks are for very young readers because of their emphasis on the illustrations and their scarcity of text; however, there are increasing numbers of picturebooks where the age of the implied reader is questionable. These are picturebooks whose controversial subject matter and unconventional, often unsettling style of illustration challenge the reader, pushing them to question and probe deeper to understand what the book is about. In addition to the book challenging the reader, the reader often challenges the book in an attempt to understand what is being said. These increasingly popular picturebooks work on many different levels; they are truly polysemic and worthy of in-depth analysis. They push the reader to ask questions and in many instances are intrinsically philosophical, often dealing with fundamental life issues. *Challenging and Controversial Picturebooks* examines these unconventional, non-conformist picturebooks, considering what they are, their audience and their purpose. It also considers: Children's and adults' thoughts on these kinds of picturebooks. How challenging and unsettling wordless picturebooks can play with the mind and promote philosophical thought. What creates non-conformity and strangeness ... is it the illustrations and their style, the subject matter or a combination of both? Why certain countries create, promote and accept these picturebooks more than others. Why certain picturebooks are censored and what factors are in play when these decisions are made. The role of publishers in translating and publishing these picturebooks. Children's creative and critical responses to strange, unsettling and often disturbing visual texts. This inspiring and thought-provoking volume explores the work of a number of highly respected, international picturebook experts and includes an exclusive interview with the legendary Klaus Flugge, Managing Director of Andersen Press, one of the few remaining independent children's book publishers in England. It is an indispensable reference for all interested in or working with picturebooks, including researchers, students in higher and teacher education, English advisors/inspectors, literacy consultants and classroom teachers.

6 Degrees of Film Sep 03 2020 This book is intended for film buffs of all ages, and in fact anyone interested in learning more about the history of film. *6 Degrees of Film* will take you on a short trip through the history of the movies where you will learn about the surprising connections between the films of the past and the films of today. Some stories may surprise you, and some will simply entertain. *6 Degrees of Film* connects the films and the film makers from the Silent Era and the Golden Age of Film with many of the movies that are made today. You'll learn why we are in a new Golden Age of Film that is defined by movies like *Star Wars* and companies such as George Lucas' state-of-the-art special-effects company-Industrial Light & Magic.
