BTEC First in Principles of Applied Science Study and Exam Practice Nov 05 2022 **BTEC First in Principles of Applied Science Study and Exam Practice** **Understanding Assessment** Jun 27 2019 This is the first title in this new series, which is aimed principally at secondary PGCE and BAEd students and school- and HEI-based tutors. Each book provides a digest of the central issues around a particular topic or issues, grounded in or supported by examples of good practice, with suggestions for further reading, study and investigation. The books are not intended as 'how to' books, but rather as books which will help students and teachers to explore and understand critical theoretical issues in ways that are challenging, that invite critical reappraisals of taken-for-granted practices and perceptions, and that provide appropriate links between theory and practice. Issues related to equal opportunities and special needs are included in each separate volume. There are boxes of questions, 'think abouts', further reading, and bulleted summary lists for the reader. This book is written specifically for teachers-in-training which will clarify the 'big picture' of monitoring and assessment and makes the crucial distinctions in this large (and still taken-for-granted) field. The authors have written widely on assessment matters and have also worked in various capacities for the QCA (and its former manifestations). They are also engaged in initial teacher education and so know the level and market extremely well.

BTEC First Caring Apr 17 2021 This textbook has been thoroughly updated to cover the BTEC First Caring specifications which began in September 2003.

By focusing on assessment this compact guide leads students through each pass, merit and distinction criterion by clearly showing them what they are required to do. - Helps your students tackle the new exam with confidence, with mock examination questions together with answers and feedback provided. - Provides a sample student answer for every single pass, merit and distinction criterion, together with detailed assessor's comments on how work can be improved, so that students know exactly what their work needs to show to hit their grade target - Saves you time - realistic model assignments are included and provide an opportunity to generate all evidence, with each criterion and grade clearly indicated, so there is no need to rewrite yet more assignment briefs - Use instead of a textbook - detailed revision-style summaries of all the learning aims from the unit support students, allowing them to quickly find the facts and ideas they will need for their assessment - Enables you to customise your course - combine this guide with others in the series so you only pay for the units you deliver

Pearson BTEC Level 3 in Information Technology Sep 22 2021 The aim of this book is to provide comprehensive coverage of topics in Unit 1 of the BTEC Level 3 course in Information Technology in an interesting and approachable manner. If you are studying this course, you need to notice, read about, experience and analyse the impact and implications of current and emerging digital technologies. Examples and case studies from scenarios and events that have recently been in the news are used to bring the subject to life. Reading and discussing articles from quality newspapers, whether printed or online, discussing relevant TV documentaries, noticing and analysing the use of digital technology in countless aspects of life, as well as learning from a textbook, are all going to contribute to a successful exam result. The book is divided into six sections corresponding to the six Learning Aims outlined in the specification, complementing each of the PG Online teaching resource packs. These sections are divided into between four and eight chapters, each containing material that can be covered in one or two lessons. The chapters have in-text questions which can be used as discussion points in a lesson. An extra chapter at the end of Learning Aim B on "Drawing System Diagrams" will be useful for students faced with a question on the exam for which they are required to draw such a diagram. In addition to almost 100 in-text questions and discussion points, there are over 80 end-of-chapter exercises that are designed to give practice in answering exam-style questions, using command words such as state, describe, explain, analyse. As much practice as possible is needed in answering such questions and getting feedback from the teacher so as to understand how to gain the maximum possible marks in the final exam.

The Stranger In My Home Sep 30 2019 I thought she was my daughter. I was wrong. The stunning domestic noir from the No. 1 Sunday Times bestselling author of Both of You.

'TIGHTLY PLOTTED, BRILLIANTLY CONCEIVED AND TOTALLY GRIPPING' LISA JEWELL 'GRIPPING, TWISTY AND HEARTBREAKING, THIS STANDOUT STORY IS A TRIUMPH' ISABELLE BROOM, HEAT 'TWISTY, UNPUTDOWNABLE AND UTTERLY ENGROSSING' JENNY COLGAN

What would YOU do if your child wasn't yours? Alison is lucky and she knows it. She has the life she always craved, including a happy home with Jeff and their brilliant, vivacious teenage daughter, Katherine - the absolute centre of Alison's world. Then a knock at the door ends life as they know it. Fifteen years ago, someone else took Alison's baby from the hospital. And now Alison is facing the unthinkable. The daughter she brought home doesn't belong to her. When you have everything you dreamed of, there is everything to lose. 'Had me gripped all the way through . . . a totally absorbing, beautifully written story - loved it!' ? ? ? ? reader review 'Full of surprises throughout. The twists and turns in the story kept me enthralled from start to finish! Loved it' ? ? ? ? reader review 'So enthralling that I finished it within 24 hours! A true page turner - I really couldn't put it down. It had so many twists and turns, some of which almost left me breathless' ? ? ? ? reader review Includes a preview of The Image of You, another gripping story of family, deception, lies and secrets, out now!
