The Dark Corners of the Lindbergh Kidnapping May 19 2021 This book will follow the same path as volumes one and two by exploring the dark corners of the Lindbergh kidnapping. The topics that will be discussed in this volume are ones that have never before been properly examined, and new facts will be brought to light, which will, I believe, cause many to rethink their positions on these subjects. Readers should be prepared, though, for the unorthodox approach I take in not providing transitions between chapters, and they may also find that I repeat certain facts or bring up different interpretations of those facts that may not always accord with one another. I do this intentionally, so the reader can draw his or her own conclusions. Over the years, I have been fortunate to have access to number of sources that are little-known and privately held. They have greatly enhanced my knowledge of the case, and I have tried to communicate my essential findings from each in my books. In this regard, my books are unique and should offer new information to even the most seasoned researchers.

"The Words Came Down!" May 07 2020 As teachers everywhere find more and more students with limited English in their classes, many are asking: "How can I include ELL students in every aspect of the day?" Beginning with designing a classroom that welcomes students and creates appropriate conditions for learning, Emelie Parker and Tess Pardini go on to detail a workshop format for reading, writing and content-area studies. The workshop structure allows teachers to differentiate instruction to include all students, and affords students ample opportunities to collaborate with others as they learn to speak, read, write, and comprehend while also engaging in active learning of the curriculum. The authors provide numerous examples of ways that teachers can become proficient in knowing each child and orchestrating instruction to meet individual needs. Throughout "The Words Came Down!" oral language is emphasized in a continuum from teacher modeling and demonstration to situations in which student-to-student communication is essential. The authors show that when children's attempts at communicating are accepted and celebrated, they will learn to communicate with each other comfortably and spontaneously whether on the playground or working on a science experiment. In addition, this helpful guide offers a variety of approaches to assessment, and demonstrates the importance of engaging families as partners in learning English and content.

Serfdom and slavery are both common, and no one thinks that's wrong. Why should they? Most people spend their lives doing backbreaking farm work anyway. But teenaged Khadija, daughter of a prosperous family of Moorish business travellers, is unfazed. That's because Khadija is really Annette Klein from twenty-first-century California. Now it's time for Annette and her family to return to California for the start of another school year, so they begin a journey to the hidden crosstime portal in Marseilles. As they cross the Pyrenees, bandits attack. When Annette/Khadija comes to, she's a captive in a caravan of slaves being taken to the markets in the south. Worse, her purchasers take her to an unofficial crosstime portal, a thing hitherto unknown . . . leaving open the question of whether Crosstime Traffic will ever be able to recover her!

Among the Angels Mar 29 2022 At the age of 63, in August 2008, the author withdrew from the practice of law to go back to Kindergarten and observe his wife, Karen, commence her 33rd consecutive year teaching Kindergarten in Room 1 at Grover Beach Elementary School and where, over the next three years, until her retirement in June of 2011, he confirmed her beatific nature, the majesty of her teaching and the beauty of the angels in her care. The one hundred and eighty-four stories in this book are a tribute to a magnificent teacher and her little angels. WHERE ABRAHAM LINCOLN DIED In the week of, and before, Abraham Lincoln's birthday, Karen gave the angels a brief synopsis of the life and importance of Abraham Lincoln, to help explain why he is so revered in American life and forever remembered by the glorious Lincoln Memorial and the national day of celebration to honor his birth. She told them about his childhood in a log cabin; his love of learning, reading by the flickering light of a candle; his prowess as a rail splitter; his exceptional ability as a lawyer; how he became president of the United States; how his leadership won the Civil War; how he freed the slaves; his indelible speeches at Gettysburg and at the second inaugural; and how he was killed just after the war had ended, shot by John Wilkes Booth at Ford's Theatre in Washington, DC. Immediately after Karen finished, an inattentive angel asked: "Is he still alive?" Another angel spontaneously responded: "He died at the movies."
