Library is an imprint of Abdo Publishing, a division of ABDO. *Basic Equality and Discrimination* Sep 30 2019 The focus of this book is the idea of equality as a moral, political and jurisprudential concept. The author is motivated primarily by a concern to better understand conundrums in the justification, interpretation and application of discrimination law. Nicholas Smith aims to provide a clearer understanding of the nature of the value that the law is trying to uphold - equality. He rejects the notion that the concept of equality is vacuous and defends the idea as the proper range of moral concern. After discussing the general characteristics of

the denial of equality and some types of discrimination, Smith considers prominent views on the point of equality law. He argues that human rights lawyers should step back from the business of trying to steer courts towards vague equality goals informed by conceptions of equality that are either empty or even more abstract than the notion of equality itself. If they do, Smith thinks that the meaning of 'equality' will be apparent, though abstract, and our difficulties will be shown to be, in the first instance, moral ones. These moral issues will require more rigorous attention before we can draft discrimination law which gives clear effect to a

*The Bobbed Haired Bandit* Jan 03 2020 *Media Studies: A Reader* introduces a full range of theoretical perspectives through which the media may be explored, analyzed, critiqued, and understood.

*Media Studies: A Reader* includes essential essays from writers such as Raymond Williams, Stuart Hall, Marshall McLuhan, Jürgen Habermas, Jean Baudrillard, and Michel Foucault, whose work was central to forming the field. It also includes wide ranging work on current media formations from key

contemporary theorists, including Paul Gilroy, Angela McRobbie, and Nick Couldry. Finally, *Media Studies: A Reader* looks to the future, exploring new media formations and their significance through the work of Mark Andrejevic, Lev Manovitch, Jonathan Sterne, Janice Radway, Ien Ang, David Morley, Linda Williams, and others. The sixty-seven readings are divided into two main parts. "Studying the Media" begins with a section on key theoretical perspectives and follows this with five sections opening up questions around the Public Sphere, Representation, Feminism and Gender, Audiences, and

### **When Peace Is Not Enough**

May 07 2020 The state of Israel is often spoken of as a haven for the Jewish people, a place rooted in the story of a nation dispersed, wandering the earth in search of their homeland. Born in adversity but purportedly nurtured by liberal ideals, Israel has never known peace, experiencing instead a state of constant war that has divided its population along the stark and seemingly unbreachable lines of dissent around the relationship between unrestricted citizenship and Jewish identity. By focusing on the perceptions

and histories of Israel’s most marginalized stakeholders—Palestinian Israelis, Arab Jews, and non-Israeli Jews—Atalia Omer cuts to the heart of the Israeli-Arab conflict, demonstrating how these voices provide urgently needed resources for conflict analysis and peacebuilding. Navigating a complex set of arguments about ethnicity, boundaries, and peace, and offering a different approach to the renegotiation and reimagination of national identity and citizenship, Omer pushes the conversation beyond the bounds of the single narrative and toward a new and dynamic concept of justice—one that offers the

Phospholipid Research and the Nervous System Aug 29 2019

The purpose of this book is to describe the latest findings relating to biochemical and molecular pharmacology of the nervous system and phospholipids and to report the proceedings of the fourth symposium on phospholipids.

These Symposia have been satellite meetings of the International Society for Neurochemistry. This meeting was held on May 26-29, 1985 in the Teatro Bibiena in Mantova, Italy. Preceding meetings were held in Cortona, Italy in 1975, in Birmingham, England in 1981, and in British Columbia,

Canada in 1983. As was the case for the proceedings of those meetings, this volume presents information that is new and important from the researchers most involved in advancing our knowledge of the function of membranes and of lipid metabolism in the nervous system. The presence of phosphorus in the brain was reported in 1719 by Hensing at the University of Giessen in Germany. Tower! has translated this pioneering work. The rather long, philosophical preface contains the following paragraph. Regardless of what may be thought of this matter, the brain is certainly that part of the animate body in which that

polymath by inclination and erudition, Yeshayahu Leibowitz has been, since the early 1940s, one of the most incisive and controversial critics of Israeli culture and politics. His direct involvement, compelling polemics, and trenchant criticism have established his steadfast significance for contemporary Israeli-and Jewish- intellectual life. These hard-hitting essays, his first to be published in English, cover the ground Leibowitz has marked out over time with moral rigor and political insight. He considers the essence and character of historical Judaism, the problems of contemporary Judaism and Jewishness, the

relationship of Judaism to Christianity, the questions of statehood, religion, and politics in Israel, and the role of women. Together these essays constitute a comprehensive critique of Israeli society and politics and a probing diagnosis of the malaise that afflicts contemporary Jewish culture. Leibowitz's understanding of Jewish philosophy is acute, and he brings it to bear on current issues. He argues that the Law, Halakhah, is essential to Judaism, and shows how, at present, separation of religion from state would serve the interest of halakhic observance and foster esteem for religion. Leibowitz calls the religious justification of national issues

"idolatry" and finds this phenomenon at the root of many of the annexationist moves made by the state of Israel. Long one of the most outspoken critics of Israeli occupation in the conquered territories, he gives eloquent voice to his ongoing concern over the debilitating moral effects of its policies and practices on Israel itself. This translation will bring to an English-speaking audience a much-needed, lucid perspective on the present and future state of Jewish culture.

Louise Thompson Patterson was a leading and transformative figure in radical African American politics. Throughout most of the twentieth century she embodied a dedicated resistance to racial, economic, and gender exploitation. In this, the first biography of Patterson, Keith Gilyard tells her compelling story, from her childhood on the West Coast, where she suffered isolation and persecution, to her participation in the Harlem Renaissance and beyond. In the 1930s and 1940s she became central, along with Paul Robeson, to the labor movement, and later, in the 1950s, she steered proto-black-

feminist activities. Patterson was also crucial to the efforts in the 1970s to free political prisoners, most notably Angela Davis. In the 1980s and 1990s she continued to work as a progressive activist and public intellectual. To read her story is to witness the courage, sacrifice, vision, and discipline of someone who spent decades working to achieve justice and liberation for all.

Seventeen essays examine the career and films of director Stanley Kubrick from a variety of perspectives. Part I focuses on his early career, including his first newsreels, his photography for *Look* magazine, and his earliest films (*Fear and Desire*, *Killer's Kiss*). Part II examines his major or most popular films (*Paths of Glory*, *The Shining*, *2001: A Space Odyssey*). Part III provides a thorough case study of *Eyes Wide Shut*, with four very different essays focusing on the film's use of sound, its representation of gender, its carnivalesque qualities, and its

phenomenological nature. Finally, Part IV discusses Kubrick's ongoing legacy and his impact on contemporary filmmakers. Instructors considering this book for use in a course may request an examination copy here.

reality of tradition. This new approach to biblical theology takes up major questions concerning the unity of the canon. Its thesis is bold: canon is both text and tradition. As text, the canon is the product of a history of formation; its unity is ascribed by subsequent generations interpreting the text. As tradition, its fundamental openness to diverse interpretations is the function of a subject behind the text that holds together the tradition's unity. Yet open-endedness does not mean an absence of determinacy. Hermeneutical, theological, and philosophical parameters are given in order to maintain a unity at one level that does not

exist between ideas conflicting on another level. These parameters are constituted through the relationship between text, reality, and experience. On the one hand, these parameters are embedded in the text. On the other hand, they are inextricably linked to reality because they themselves reflect experiences of that reality. The interdisciplinary approach in this book draws on scholarship in the Hebrew Bible, the Dead Sea Scrolls, the New Testament, philosophy, and theology. Both Jewish and Christian scholars conclude that the search for the canon is an open-ended process of

interpretation. Questions of the canon's unity find their niche in a new concept of biblical theology that presupposes the theological and philosophical relevance of biblical texts. As conceived in religious categories, experience and reality are themes already available in scripture. Whether one or many, scripture addresses these questions for our time.
