Theologische Medienethik im digitalen Zeitalter Jan 15 2021 Medien sind ubiquitär geworden, was vor allen Dingen an den technischen Möglichkeiten liegt, die Smartphones und andere mobile Kommunikationsgeräte mit sich bringen. Mediale Kommunikation wird nicht mehr allein von großen Sendeanstalten initiiert, sondern jede*r kann mit Social Media öffentlich kommunizieren. Darüber hinaus kann Kommunikation - wie sich bei social bots beispielsweise zeigt - auch maschinell erstellt werden. Diese zahlreichen Veränderungen im Bereich der Medien und Kommunikation führen zu ethischen Fragen, die weit über die traditionellen Themen der Medienethik, wie beispielsweise journalistische Ethik, hinausweisen und stellen Gesellschaft und Institutionen wie Kirche vor neue moralische und rechtliche Herausforderungen. In dem Band werden diese Entwicklungen unter theologisch-medienethischen Perspektiven analysiert und diskutiert.

Through the Black Mirror Oct 31 2019 This edited collection charts the first four seasons of Black Mirror and beyond, providing a rich social, historical and political context for the show. Across the diverse tapestry of its episodes, Black Mirror has both dramatized and deconstructed the shifting cultural and technological coordinates of the era like no other. With each of the nineteen chapters focussing on a single episode of the series, this book provides an in-depth analysis into how the show interrogates our contemporary desires and anxieties, while simultaneously encouraging audiences to contemplate the moral issues raised by each episode. What if we could record and replay our most intimate memories? How far should we go to protect our children? Would we choose to live forever? What does it mean to be human? These are just some of the questions posed by Black Mirror, and in turn, by this volume. Written by some of the foremost scholars in the field of contemporary film and

television studies, *Through the Black Mirror* explores how Black Mirror has become a cultural barometer of the new millennial decades and questions what its embedded anxieties might tell us.

Love and Society Nov 12 2020 Why does love matter? *Love and Society* discusses the meaning and importance of love for contemporary society. Love is not only an emotion that occurs in our intimate relationships; it is a special emotion that allows us to relate to each other in a lasting fashion, to create out of our individual pasts a shared past, which enables us to project a shared future. Bringing together the idea of Simmel's second order forms with theories of love, this insightful volume shows that the answer to why love is so central to society can be found in the social transformation of the last two centuries. It also explains how we can build our strongest social bonds on the fragility of an emotions thanks to the creation of "special moments" (love rituals) and "intimate stories" (love myths) that are central to the weaving of lasting social bonds. Going to the cinema, reading a book together or sharing songs are forms of weaving bonds of love and part of the cycle of love. But love is not only shared between two people; the desire and the search for love is something we share with almost all members of society. With rich empirical data, an analysis of love's transformation in modernity, and a critical engagement with classical and contemporary theorists, this book provides a lively discussion on the meaning and importance of love for today's society. It will be of interest to undergraduate and postgraduate students and postdoctoral researchers who are interested in fields such as Sociology of Emotions, Sociological Theory and Sociology of Morality.

Building Resilient Neighbourhoods in Singapore Feb 02 2020 This book examines how institutional and environmental features in neighbourhoods can contribute to social resilience, highlighting the related socio-demographic issues, as well as the infrastructure, planning, design and policies issues.

It is divided into three themes - infrastructure, planning, and community. Infrastructure examines how physical features such as parks and street patterns influence neighborliness and resilience, while planning studies how urban design enhances social interactions. Lastly, community discusses policies that can forge social bonds, either through racial integration, grassroots activities, or social service. Overall, the book combines research and empirical work with scholarly models of resilience and governance philosophy, focusing on Singapore's urban planning and social policies.

Lacan on Love May 19 2021 Quintessentially fascinating, love intrigues and perplexes us, and drives much of what we do in life. As wary as we may be of its illusions and disappointments, many of us fall blindly into its traps and become ensnared time and again. Deliriously mad excitement turns to disenchantment, if not deadening repetition, and we wonder how we shall ever break out of this vicious cycle. Can psychoanalysis - with ample assistance from philosophers, poets, novelists, and songwriters - give us a new perspective on the wellsprings and course of love? Can it help us fathom how and why we are often looking for love in all the wrong places, and are fundamentally confused about "what love really is"? In this lively and wide-ranging exploration of love throughout the ages, Fink argues that it can. Taking within his compass a vast array of traditions - from Antiquity to the courtly love poets, Christian love, and Romanticism - and providing an in-depth examination of Freud and Lacan on love and libido, Fink unpacks Lacan's paradoxical claim that "love is giving what you don't have." He shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love, and how it is possible and indeed vital to give something to another that we feel we ourselves don't have. This first-ever commentary on Lacan's Seminar VIII, *Transference*, provides readers with a clear and systematic introduction to Lacan's views on love. It will be of great value to students and scholars of psychology and of the humanities generally, and to analysts of all persuasions.

The Passions Apr 29 2022 A survey of astonishing breadth and penetration. No cognitive neuroscientist should ever conduct an experiment in the domain of the emotions without reading this book, twice. Parashkev Nachev, Institute of Neurology, UCL There is not a slack moment in the whole of this impressive work. With his remarkable facility for making fine distinctions, and his commitment to lucidity, Peter Hacker has subtly characterized those emotions such as pride, shame, envy, jealousy, love or sympathy which make up our all too human nature. This is an important book for philosophers but since most of its illustrative material comes from an astonishing range of British and European literature, it is required reading also for literary scholars, or indeed for anyone with an interest in understanding who and what we are. David Ellis, University of Kent Human beings are all subject to boundless flights of joy and delight, to flashes of anger and fear, to pangs of sadness and grief. We express our emotions in what we do, how we act, and what we say, and we can share our emotions with others and respond sympathetically to their feelings. Emotions are an intrinsic part of the human condition, and any study of human nature must investigate them. In this third volume of a major study in philosophical anthropology which has spanned nearly a decade, one of the most preeminent living philosophers examines and reflects upon the nature of the emotions, advancing the view that novelists, playwrights, and poets - rather than psychologists and cognitive neuroscientists - elaborate the most refined descriptions of their role in human life. In the book's early chapters, the author analyses the emotions by situating them in relation to other human passions such as affections, appetites, attitudes, and agitations. While presenting a detailed connective analysis of the emotions, Hacker challenges traditional ideas about them and criticizes misconceptions held by philosophers, psychologists, and cognitive neuroscientists. With the help of abundant examples and illustrative quotations from the Western literary canon, later sections investigate, describe, and disentangle the individual emotions - pride, arrogance, and humility; shame, embarrassment, and guilt; envy and jealousy; and anger. The book concludes with an analysis of love, sympathy, and empathy as sources of absolute value and the roots of morality. A masterful contribution, this study of the passions is essential reading for philosophers of mind, psychologists, cognitive neuroscientists, students of Western literature, and general readers interested in understanding the nature of the emotions and their place in our lives.

Friends, Partners, and Lovers Dec 26 2021 Great marriages don't just happen--they're made, intentionally, day by day. Yet most of us enter the covenant of marriage thinking that the role of spouse will be easy, natural, effortless. Rarely is this true. In fact, the number one cause of divorce isn't adultery or finances or disagreements. It's apathy--a lack of intentional emotional, physical, and mental investment in the relationship. With engaging stories and clear, simple language, pastor Kevin A. Thompson explains the three critical roles of a spouse--friend, partner, and lover--and shows how to nurture those roles in order to keep a marriage healthy and strong. Using solid biblical principles, he helps couples understand how to grow their friendship, be a supportive partner through the good times and the bad, and develop a healthy and satisfying sex life. Friends, Partners, and Lovers offers essential insight for couples at any stage of marriage but will be especially helpful to those who are struggling and those who are engaged or newly married and looking to start their marriage on strong footing.

Sylvia's Lovers Jan 27 2022 *Sylvia's Lovers* is a Victorian romance novel described by the author as "the saddest story I ever wrote". The story begins in the 1790s in the fictional coastal town of Monkshaven against the background of the practice of impressments during the early phases of the Napoleonic Wars. Sylvia Robson lives happily with her parents on a farm, and is passionately loved by her rather dull Quaker cousin Philip. She, however, meets and falls in love with Charlie Kinraid, a dashing sailor on a whaling vessel, and they become secretly engaged. When Kinraid goes back to his ship, he is forcibly enlisted in the Royal Navy by a press gang, a scene witnessed by Philip. Philip does not tell Sylvia of the incident nor relay to her Charlie's parting message and, believing her lover is dead, Sylvia eventually marries her cousin and they get a daughter. Inevitably, Kinraid returns to claim Sylvia and she discovers that Philip knew all the time that he was still alive. Elizabeth Gaskell (1810-1865) was an English novelist and short story writer. Her novels offer a detailed portrait of the lives of many strata of Victorian society, including the very poor, and are of interest to social historians as well as lovers of literature. Some of Gaskell's best known novels are *Cranford*, *North and South*, and *Wives and Daughters*.

International Handbook of Love Sep 03 2022 This handbook includes state-of-the-art research on love in classical, modern and postmodern perspectives. It expands on previous literature and explores topics around love from new cultural, intercultural and transcultural approaches and across disciplines. It provides insights into various love concepts, like romantic love, agape, and eros in their cultural embeddedness, and their changes and developments in specific cultural contexts. It also includes discussions on postmodern aspects with regard to love and love relationships, such as digitalisation, globalisation and the fourth industrial revolution. The handbook covers a vast range of topics in relation to love: aging, health, special needs, sexual preferences, spiritual practice, subcultures, family and other relationships, and so on. The chapters look at love not only in terms of the universal concept and in private, intimate relationships, but apply a broad concept of love which can also, for example, be referred to in postmodern workplaces. This volume is of interest to a wide readership, including researchers, practitioners and students of the social sciences, humanities and behavioural sciences. In the 1970s through the 90s, I was told that globalization was homogenizing cultures into a worldwide monoculture. This volume, as risky and profound as the many adventures of love across our multiplying cultures are, proves otherwise. The authors' revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is. But that's what love does: It communicates what is; offers what can be; and pleads for what must be. I know you'll enjoy this wonderful book as much as I do! Jeffrey Ady, Associate Professor (retired), Public Administration Program, University of Hawaii at Manoa, Founding Fellow, International Academy for Intercultural Research *The International Handbook of Love* is far more than a traditional compendium. It is a breath-taking attempt to synthesize our anthropological and sociological knowledge on love. It illuminates topics as diverse as Chinese love, one-night stands, teen romance or love of leaders and many more. This is a definitive reference in the field of love studies. Eva Illouz, author of *The End of Love: A sociology of Negative relationships*. Oxford University Press.

Song of Solomon: Passion, Purity, and the Glory of Christ (Growing and Changing Commentary) Apr 17 2021

A Political Companion to James Baldwin Jun 07 2020 In seminal works such as *Go Tell It on the Mountain*, *Notes of a Native Son*, and *The Fire Next Time*, acclaimed author and social critic James Baldwin (1924--1987) expresses his profound belief that writers have the power to transform society, to engage the public, and to inspire and channel conversation to achieve lasting change. While Baldwin is best known for his writings on racial consciousness and injustice, he is also one of the country's most eloquent theorists of democratic life and the national psyche. In *A Political Companion to James Baldwin*, a group of prominent scholars assess the prolific author's relevance to present-day political challenges. Together, they address Baldwin as a democratic theorist, activist, and citizen, examining his writings on the civil rights movement, religion, homosexuality, and women's rights. They investigate the ways in which his work speaks to and galvanizes a collective American polity, and explore his views on the political implications of individual experience in relation to race and gender. This volume not only considers Baldwin's works within their own historical context, but also applies the author's insights to recent events such as the Obama presidency and the Black Lives Matter movement, emphasizing his faith in the connections between the past and present. These incisive essays will encourage a new reading of Baldwin that celebrates his significant contributions to political and democratic theory.

Rocks, Ice and Dirty Stones Mar 05 2020 The king of stones, valued since antiquity for their unrivalled hardness, diamonds today are both desired and deplored. Once faceted and polished they glitter on the fingers of brides-to-be and in the ornaments of the super-rich, but their extraction from some of the world's poorest countries remains contentious. Immensely valuable for their size, diamonds can be easily hidden and transported, making them perfect contraband. Diamonds have been widely used in industry since the nineteenth century and have long been valued for their pharmaceutical and prophylactic properties. This entertaining and richly illustrated book examines the history of the diamond trade through the centuries from India and Brazil to South Africa and Europe and investigates what happens to diamonds once they reach the cutters and polishers. Marcia Pointon takes the reader on a unique tour of the ways in which the quadrhedron diamond shape has inspired design, architecture, and painting, from the symbolism of medieval manuscripts to modern-day graffiti. She questions the etiquette of engagement rings, and she reminds us why and how lost, stolen, or cursed diamonds create suspense in so many classic novels and films. This compelling and fascinating account of the history of sparklers around the world will appeal to all who covet, as well as all who despise, the unparalleled brilliance and glitter of the diamond.

Postmodern Love in the Contemporary Jewish Imagination Jul 09 2020 Offering a radical critique of contemporary Israeli and diaspora fiction by major writers of the generation after Amos Oz and Philip Roth, this book asks searching questions about identity formation in Jewish spaces in the twenty-first century and posits global, transnational identities instead of the bipolar Israel/diaspora model. The chapters put into conversation major authors such as Jonathan Safran Foer, Nicole Krauss, Michael Chabon, and Nathan Englander with their Israeli counterparts Zeruya Shalev, Eshkol Nevo, and Etgar Keret and shows that they share common themes and concerns. Read through a postmodern lens, their preoccupation with failed marriage and failed ideals brings to the fore the crises of home, nation, historical destiny, and collective memory in contemporary secular Jewish culture. At times provocative, at others iconoclastic, this innovative study must be read by

anyone concerned with Jewish culture and identity today, whether scholars, students, or the general reader.

Evolutionary Love and the Ravages of Greed Aug 22 2021 The widespread turmoil in the human community today is a symptom of the dominance of unchecked desire, or Greed. This book distinguishes two ancient concepts of love (the Greek ideas of agape and eros) and explores how agape, the driver of evolution, when put into play through the harmonious action of eros, displays the true essence of love – Evolutionary Love– that alone is the antidote to the ravages of Greed.

Music Cities May 31 2022 This book provides a critical academic evaluation of the ‘music city’ as a form of urban cultural policy that has been keenly adopted in policy circles across the globe, but which as yet has only been subject to limited empirical and conceptual interrogation. With a particular focus on heritage, planning, tourism and regulatory measures, this book explores how local geographical, social and economic contexts and particularities shape the nature of music city policies (or lack thereof) in particular cities. The book broadens academic interrogation of music cities to include cities as diverse as San Francisco, Liverpool, Chennai, Havana, San Juan, Birmingham and Southampton. Contributors include both academic and professional practitioners and, consequently, this book represents one of the most diverse attempts yet to critically engage with music cities as a global cultural policy concept.

Play for Health Across the Lifespan Jul 29 2019 Play for Health Across the Lifespan uses case studies to explore the impact of play and creativity on health and wellbeing throughout the lifecycle. While play at the start of life influences future development, the authors show play also has a role in improving prospects for health and wellbeing in adulthood and later life. A relational approach to health and wellbeing emphasizes the dynamic, mutually influential relationship between individual development and the changing contexts of our lives. Our personal play history is one feature of this

dynamic process, and this book explores how the experience of play throughout the life course sculpts and resculpts the shape of our lives: our physical health, our mental wellbeing, and our relationship to the people and the world around us. Storytelling has been used since the beginning of time to communicate important life lessons in an engaging way. Taking inspiration from Shakespeare's 'Seven Ages of Man', the book uses a case-story approach to differentiate the stages of development and to present evidence for how play and playful experiences impact on health and wellbeing from birth to the end of life in the context of temporal and situational change. Each chapter in *Play for Health Across the Lifespan* introduces relevant evidence-based research on play and health, before presenting several narrative 'case stories', which illustrate the application of play theory and the neuroscience of play as they relate to each life stage. With contributions from specialists in health and education, community organizations and the creative and performing arts, this book will appeal to academics, students, and practitioners who are interested in exploring the role of play in addressing contemporary challenges to our physical, mental, and social health.

Buddhism for Pet Lovers Sep 30 2019 The bonds we share with our pets go beyond words and are often deeper than many of our human relationships. What is the nature of these close connections? And what if our influence on pets, both in life and especially through sickness and death, is far more powerful than we ever conceived? David Michie draws on ancient Buddhist wisdom, supported by contemporary science, to provide fascinating insights into animal consciousness. He proposes that the pets with whom we share our lives are not there by accident. Whether your animal companion has fur, feathers or fins, he offers a treasury of practical tools to enhance your relationship with them in everyday life, as well as during times of challenge. Written with humour and compassion, and including extraordinary true stories from around the world, *Buddhism for Pet Lovers* reveals how our animal companions may indeed be among our most precious partners. For in helping them, our own lives are incomparably enriched too. 'If you have ever deeply loved an animal, this is, without doubt, the book for you.' Gail Pope, BrightHaven 'Our pets offer us one of our greatest opportunities to add compassion to the world. This book helps direct us to a path toward the blossoming of that opportunity.' Carl Safina, author of *Beyond Words*, and *What Animals Think and Feel*

Codes of Ethics and Ethical Guidelines Feb 25 2022 This book investigates how ethics generally precedes legal regulation, and looks at how changes in codes of ethics represent an unparalleled window into the research, innovation, and emerging technologies they seek to regulate. It provides case studies from the fields of engineering, science, medicine and social science showing how professional codes of ethics often predate regulation and help shape the ethical use of emerging technologies and professional practice. Changes in professional ethics are the crystallization of ongoing conversation in scientific and professional fields about how justice, privacy, safety and human rights should be realized in practice where the law is currently silent. This book is a significant addition to this area of practical and professional ethics and is of particular interest to practitioners, scholars, and students interested in the areas of practical and applied ethics.

Film, Art, and the Third Culture Dec 02 2019 In the mid-1950s C.P. Snow began his campaign against the 'two cultures' - the debilitating divide, as he saw it, between traditional 'literary intellectual' culture, and the culture of the sciences, urging in its place a 'third culture' which would

draw upon and integrate the resources of disciplines spanning the natural and social sciences, the arts and the humanities. Murray Smith argues that, with the ever-increasing influence of evolutionary theory and neuroscience, and the pervasive presence of digital technologies, Snow's challenge is more relevant than ever. Working out how the 'scientific' and everyday images of the world 'hang' together is no simple matter. In *Film, Art, and the Third Culture*, Smith explores this question in relation to the art, technology, and science of film in particular, and to the world of the arts and aesthetic activity more generally. In the first part of his book, Smith explores the general strategies and principles necessary to build a 'third cultural' or naturalized approach to film and art - one that roots itself in an appreciation of scientific knowledge and method. Smith then goes on to focus on the role of emotion in film and the other arts, as an extended experiment in the 'third cultural' integration of ideas on emotion spanning the arts, humanities and sciences. While acknowledging that not all of the questions we ask are scientific in nature, Smith contends that we cannot disregard the insights wrought by taking a naturalized approach to the aesthetics of film and the other arts.
