*Critical Race English Education* Jun 23 2019 Johnson's visionary and much-needed book is a call for the transformation of English education to embrace rather than reject Blackness. Confronting the context of heightened racial violence against Black youth that continues to sweep across the United States, Johnson illuminates the interconnection between the physical and symbolic violence that unfolds in and outside the classroom and demonstrates the harm this causes to Black youth. Employing

an original framework, *Critical Race English Education*, Johnson reveals how English education and ELA classrooms are dominated by eurocentric language and literacy practices, and provides a justice-oriented framework that combats anti-Black racism. Throughout the book, Johnson disperses love letters to Blackness, Black culture, and Black people, which serve as actions and practices for positive thinking and self-awareness about Blackness. *Critical Race English Education* is a movement for Black lives. A crucial resource for

pre-service ELA teachers, researchers, professors, and graduate students in language and literacy education, and sociology of education, this book offers classroom lessons, thematic units, sample activities, and other pedagogical and curricula practices that reconceptualize ELA pedagogies in humanizing ways and cater to the needs of students who come from racially and linguistically diverse backgrounds. *An Authentic English Language Arts Curriculum* Apr 25 2022 This book provides

ways of thinking for preservice and new teachers to transition from the theory behind curricular design to engaged teaching and learning in the classroom. It offers a comprehensive framework for the creation and implementation of one's own authentic and effective ELA curriculum. In addition to strategies for preservice teachers to develop their own pedagogies, lessons, and teaching techniques, Costigan also demonstrates how to design tools for teaching in the current testing- and standards-driven context of the educational reform movement. Containing real-life examples of reading and writing instruction, this book empowers preservice teachers to translate the concepts of curriculum design to actual ELA classroom practices that will engage students.

#### Legacies of Christian Language and Literacies in American Education

Oct 08 2020 Because spiritual life and religious participation are widespread human and cultural phenomena, these experiences unsurprisingly find their way into English language arts curriculum, learning, teaching, and teacher education work. Yet many public school literacy teachers and secondary teacher educators feel unsure how to engage religious and spiritual topics and responses in their classrooms. This volume responds to this challenge with an in-depth exploration of diverse experiences and perspectives on Christianity within American education. Authors not only examine how Christianity – the historically dominant religion in American society – shapes language and literacies in schooling and other educational spaces, but they also imagine how these relations might be reconfigured. From curricula

to classroom practice, from narratives of teacher education to youth coming-to-faith, chapters vivify how spiritual lives, beliefs, practices, communities, and religious traditions interact with linguistic and literate practices and pedagogies. In relating legacies of Christian language and literacies to urgent issues including White supremacy, sexism and homophobia, and the politics of exclusion, the volume enacts and invites inclusive relational configurations within and across the myriad American Christian sub-cultures coming to bear on English language arts curriculum, teaching, and learning. This courageous collection contributes to an emerging scholarly literature at the intersection of language and literacy teaching and learning, religious literacy, curriculum studies, teacher education, and youth studies. It will speak to teacher educators, scholars, secondary school teachers, and graduate and postgraduate students, among others.

*Adolescent Literacies* Mar 01 2020 Showcasing cutting-edge findings on adolescent literacy teaching and learning, this unique handbook is grounded in the realities of students' daily lives. It highlights research methods and instructional approaches that capitalize on adolescents' interests, knowledge, and new literacies. Attention is given to how race, gender, language, and other dimensions of identity--along with curriculum and teaching methods--shape youths' literacy development and engagement. The volume explores

innovative ways that educators are using a variety of multimodal texts, from textbooks to graphic novels and digital productions. It reviews a range of pedagogical approaches; key topics include collaborative inquiry, argumentation, close reading, and composition.ÿ

Compose Our World Aug 30 2022 "Although there are a few other titles related to project based learning in ELA, they are no books that focus specifically on the ways that the design principles of project based learning, universal design for learning, and social and emotional learning can be used to anchor an ELA curriculum and the learning experiences that students engage in throughout the school year. Other PBL books focus almost exclusively on implementing and designing PBL Projects, whereas this book centers around a set of design principles that can be used to teach existing projects (which we share), to create new ones, or to create authentic learning experiences that are project enhanced. Our book brings PBL to life through classroom vignettes and teacher and student voices.

With the growing emphasis on student assessment and learning outcomes, many teachers find they lack the time and the encouragement to begin implementing SEL techniques into their instruction. This book offers a solution in the form of practical lesson plans—all of which can be implemented without tedious preparation and all of which are designed to boost self-awareness, self-management, social awareness, and other key SEL skills. Your students will discover how to... Practice mindfulness and think positively, Exert self-control and employ self-management skills, Become independent thinkers and make sound decisions, Be resilient and develop a growth mindset, Improve relationship skills and avoid bullying, Be authentic and develop leadership skills, And much more! Each activity is ELA-focused, so students will develop social-emotional learning while meeting key literacy objectives such as reading a nonfiction speech, looking closely at symbolism, analyzing Shakespearean sonnets, and more. The book also includes reproducible tools for classroom

use. You can photocopy them or download them as eResources from [www.routledge.com/9781138345263](http://www.routledge.com/9781138345263).

### **An Exploration of Anti-oppressive Education in the High School ELA Classroom**

Jan 11 2021 In the past three years, the province of Manitoba has been implementing a new curriculum in English Language Arts (ELA), starting at the elementary level and more recently voluntary implementation at the high school level. An important change to the curriculum is the addition of the practice of power and agency, which can be viewed as an attempt by this curriculum to be anti-oppressive. Anti-oppressive education is the practice of teaching to all students by embracing their diversity, and creating safe spaces to actively work against various forms of social oppression (Kumashiro, 2000). The goal of this qualitative research study, that garnered data through interviews, is to discover how some high school ELA teachers in the province who self-identify as taking an anti-oppressive stance do so in their approach to students, curriculum and materials, and pedagogy. The findings show that these educators' motivations for taking such a stance are grounded in their experiences teaching, their identities, and their professional learning. While their objectives for their teaching focused on the selection of resources, building relationships, and having meaningful class discussions. The implications of the study could guide teachers in their selection of resources,

**Compose Our World** Aug 25 2019 Learn how to develop and sustain multimodal, project-based learning (PBL) instruction in secondary English Language Arts classrooms. National standards encourage authentic forms of reading, writing, and communication that can support college and career readiness, and this book highlights PBL as a powerful way to harness students' interests and engage them in academically rigorous learning. The authors provide specific, research-informed curricular approaches and instructional guidance for classroom teachers, as well as an overview of the dimensions of PBL that are often overlooked in the broad expectations of inquiry-based teaching. Instead of "quick fix" lessons, *Compose Our World* explores how core dimensions of equitable teaching—such as social and emotional support, universal design for learning, and cultivating classroom community—function as the bedrock for student success in PBL contexts and beyond. **Book Features:** Based on the authors' extensive experience developing and studying a PBL curriculum. Brings PBL to life through classroom vignettes and teacher and student voices. Provides classroom resources that facilitate customization to unique contexts. Shares ideas for developing teacher communities around PBL practices. Offers additional curriculum materials online. Appropriate for ELA teachers new to

PBL, as well as veterans.

*Teaching with the Common Core Standards for English Language Arts, Grades 3-5* Jul 05 2020 "The Common Core State Standards (CCSS) are the first academic standards to be independently adopted by almost every state in the country. The purpose and intent of the Common Core standards for English Language Arts (ELA), as well as Literacy in History/Social Studies and Science education, are the focus of this book. This volume is aimed at educators, administrators, graduate students, university professors, and others who deal with students in grades 3 through 5. Each of the chapters addresses one of the major English Language Arts domains: literature, informational texts, foundational skills, writing, speaking and listening, language, technology, and assessment. They contain invaluable information, insight, and research from literacy leaders in their respective fields. Their objective is twofold: to provide a theoretical background and detailed explanation of each of the CCSS/ELA standards, as well as practical suggestions, classroom vignettes, models, instructional resources, and unit ideas to implement the standards"--

*Incorporating LGBTQ+ Identities in K-12*

*Curriculum and Policy* Jan 23 2022 Educators in the K-12 school environment work diligently to help at-risk students find success in the classroom. One particular group of at-risk students is the LGBTQ+ population. K-12 students who identify as lesbian, gay, bisexual, transgender, or queer often fear the repercussions of disclosing this information in the classroom environment. Homophobia from fellow students, faculty, and/or administrators can be in the form of bullying, lack of acknowledgement of identity, absence in curriculum, etc. There is a strong need for this group of students to be included in the landscape of curriculum design and policymaking. Incorporating LGBTQ+ Identities in K-12 Curriculum and Policy is a critical research publication that provides comprehensive research on inclusive curriculum design and education policy that specifically impacts LGBTQ+ students. Featuring an array of topics such as gender diversity, mental health services, and preservice teachers, this book is essential for teachers, counsellors, school psychologists, therapists, curriculum developers, instructional designers, principals, school boards, academicians, researchers, administrators, policymakers, and students.

*Teaching English Language Arts to English Language Learners* Nov 28 2019 This book focuses on the ways in which English language arts (ELA) pre-service and in-service teachers have developed - or may develop - instructional effectiveness for working with English language learners (ELL) in the secondary English classroom. Chapter topics are grounded in both research and practice, addressing a range of timely topics including the current state of ELL education in the ELA classroom, and approaches to leveraging the talents and strengths of bilingual students in heterogeneous classrooms. Chapters also offer advice on best practices in teaching ELA to multilingual students and ways to infuse the secondary English teacher preparation curriculum with ELL pedagogy. Comprehensive in scope and content and examining topics relevant to all teachers of ELLs, teacher educators and researchers, this book appeals to an audience beyond ELA teachers and teacher educators.

*Ending Social Promotion Without Leaving Children Behind* Dec 30 2019 The New York City Department of Education asked RAND to conduct an independent longitudinal evaluation of its 5th-grade promotion policy. The findings of that study, conducted between March 2006 and August 2009, provide a comprehensive view of the policy's implementation and its impact on student outcomes, particularly for students at risk of retention and those who were retained in grade.

**Teaching Literature-Based Instructional Units** Dec 22 2021 Teaching Literature-Based Instructional Units: From Planning to Assessment provides an accessible roadmap to planning, designing, and implementing literature-based instructional units for the English Language arts (ELA) classroom. Understanding that unit plans are the building blocks of the ELA curriculum, Hansen and Vásquez outline the theoretical foundations and approaches behind teaching ELA and offer a framework to help readers make sound decisions about their content pedagogy. In so doing, this text offers research-based and straightforward guidance on planning instruction around key literary texts. Placing literature at the center of the ELA curriculum, the approaches in this book not only support students' reading, writing, listening, speaking, and digital media skills, but will also motivate and inspire them. Part 1 addresses how to choose unit themes and texts, discusses the importance of having a rationale for choices

made, and examines the practical, philosophical, and historical approaches to teaching literature. Part 2 provides step-by-step instructions for designing literature-based units of instruction by using backwards design. The text focuses on assessment before moving into how to scaffold and sequence lessons to meet learning objectives, and concludes with consideration given to teaching ELA in virtual environments. The wealth of activities, strategies, exercises, examples, and templates in this book make this text essential reading for instructors and pre-service teachers in ELA pedagogical methods courses and for practicing teachers of literature instruction.

**Acts of Resistance** Jul 25 2019 In 1969, Neil Postman and Charles Weingartner published *Teaching as a Subversive Activity*. Subversive teaching today, however, looks very different than it did in 1969. Teachers today must deliver their instruction in an era of formidable challenges related to curriculum, educational policy, and cultural and political ideology. Students learn in an environment that includes active shooter drills and increasingly violent public policy that assaults immigrants, people of Color, women, and the LGBTQIA+ community. A robust public education is needed now more than ever, though the resources to provide it dwindle daily. *Acts of Resistance: Subversive Teaching in the English Language Arts (ELA) Classroom* showcases examples of subversive pedagogy to instruct and inspire teachers and to contextualize subversive ELA

pedagogy in the contemporary educational moment. Chapter authors--in-service teachers and teacher educators alike--draw from case studies, narrative inquiry, and other qualitative methodologies to explain how they have variously taken up subversive pedagogy in the ELA classroom. Because teachers and other stakeholders resist oppressive structures—including disciplinary confinements—when they teach from subversive viewpoints, each chapter describes a disciplinary “act of resistance” that illuminates possibilities for countering uncritical, “traditional” handling of ELA experiences.
