The Handy Psychology Answer Book 29 2019 Bridging the gap between the entertainment-focused "pop psychology" on television and the academic research that is published in journals, The Handy Psychology Answer Book helps answer why humans do what we do through accessible scientific data presented in a lively, accessible, and engaging way. It covers the fundamentals and explains the psychology behind how people, money, sex, morality, family, children, aging, addiction, work, and other everyday issues. Fully revised to reflect the latest scientific research—current DSM-5 (Diagnostic and Statistical Manual of Mental Disorders, published by the American Psychiatric Association); the latest neurobiological theories; and the changing face of marriage—this timely reference has expanded to include information sections on the biology and evolution of emotions; technology and adolescence; bisexuality; optimism; autism; as well as a full section on the law, eyewitness testimony and police science. Featuring more than 1,500 answers to questions concerning how the human mind and the science of psychology really work such as: How do different cultures address psychological issues? Why was Freud so focused on sex? How can I maintain a healthy brain? Is it normal to argue during marriage? Does religion make people happier? How do we reduce social prejudice?

Emotions in American History Jun 19 2021 The study of emotions has attracted anew the interest of scholars in various disciplines, igniting a lively public debate on the constructive and destructive power of emotions in society as well as within each of us. Most of the contributors to this volume hail from the United States but look at the nation from abroad. They explore the role of emotions in history and ask how that exploration changes what we know about national and international history, and in turn how that affects the methodological study of history. In particular they focus on the role of emotions in American history between the 18th century and the present: in war, in social and political discourse, as well as in art and the media. In addition to case studies, the volume includes a review of their fields by senior scholars, who offer new insights regarding future research projects.

The Handy Military History Answer Book May 07 2020 Brutality and fear. Heroism and sacrifice. Military history is a fascinating, complex, and often contradictory subject. War and fighting between tribes, clans, groups and countries has been with us forever. Great leaders, great villains, pivotal moments and events become transformative, causing political, social, and technological upheavals, which were often built on the foundation of war. The Handy Military History Answer Book is a captivating, concise, and convenient look at how the world, the United States, and the lives we lead have been changed by war and the military. The weapons, leaders, soldiers, battles, tactics, strategies, blunders, technologies, and outcomes are explored in this powerful primer on the military, its history—and world history. From early Greeks and Romans to Genghis Khan and other great conquerors, the military of the past, continuing on through the civil wars and world wars that shaped the boundaries of today's nations, and to the modern technologies, guerrilla warfare, and terrorism currently reported in the nightly news, this book investigates everything from the smallest military tactics and maneuvers to the biggest invasions and battles, as well as the cutting-edge technologies and firepower that led to victories and helped shape the modern world. The Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. It answers the most commonly asked questions, from the mostly widely asked to the more obscure, such as: Who cast the first stone (of human history)? Who were the "Sea Peoples"? Where is there anything to the story of Ancient Troy? Could Alexander the Great have conquered the early Roman Republic? How wealthy would each of the great conquerors have been had the treasure at Persepolis been divided? How many Romans lost their lives at the Battle of Cannae? Why did people underestimate Julius Caesar when he was in his thirties? How many men, and auxiliary fighters, were there in a Roman legion? Was the Battle of Actium truly decisive? And what way? Which precious metal did the Vikings prefer above all others? Do we even have his name--Genghis Khan? Who employed the composite bow with greater effectiveness: the Arabs or the Turks? Why did Pope Urban II go to central France in 1095? Why did Richard the Lion-Heart get his nickname? Why on earth did Hitler code-name his invasion of Russia for a German emperor who drowned? Why did Napoleon have greater wit: Voltaire or King Frederick the Great? About whom did King George II remark: "Mad, is he? Well I hope he bites some of my other generals?" What great poet spent years gathering food and wine for the Spanish Armada? What was the price for King Francis' freedom, in 1562? How long did it take to learn how to use the longbow? What was the largest of the cannon brought by the Ottoman Turks to the siege of Constantinople? Who took over when Genghis Khan died (after a fall from his horse)? What did the Franciscan monks say when they returned from Karakorum? Was Napoleon really not French? Who won the Battle of the Nile, and how? Where was the world's first submarine deployed? When did George Washington have to alter all his plans: and how did he go about making the change? How many people died at the Siege of Fort Sumter? What was the role of the military in the Civil War, in the Far West? When were balloons first deployed in warfare? Where did the name "Uncle Sam" come from? What signals did the USS Intrepid receive watch for on the evening of April 18, 1775? What did Rasputin have to say about the approach of the First World War? How close did the Allies come to victory at Moscow in 1941? What ten days decided the outcome of World War II? What was so special about the B-24? When did the atomic bomb first commence? What was the last action of the Yom Kippur War? What role did Colin Powell play in the run-up to war in Iraq?

Why is English Like That? Nov 12 2020 Why is "night" spelled with "gh"? Why can't sentences end with prepositions? Why does English have so many words that express the same ideas? Questions like these can be difficult for teachers to answer when they do not know the historical background.

English language. Why Is English Like That? gives teachers a brief and accessible history of the English without assuming any prior knowledge of the subject. The book outlines the historical events that shaped English; describes how its grammar, vocabulary, spelling, and pronunciation developed over time; and highlights the "quirks" and "exceptions" in English that can be explained on a historical basis. By understanding how the English of today evolved from the English of past times, both teachers and students will be more comfortable with the many conventions of the English language. Why Is English Like That? also contains reproducible grammar and vocabulary exercises that will help teachers incorporate some of this historical knowledge into classroom activities. This book was written with English language teachers in mind, and the exercises are designed for ESL/EFL students and may also be used by teachers in training (L1 and L2).

Interpreting African American History and Culture at Museums and Historic Sites 12 16 2019 In this landmark guide, nearly two dozen essays by leading scholars, educators, and museum leaders suggest the next steps in the interpretation of African American history and culture from the colonial period to the twentieth century at history museums and historic sites. This diverse anthology addresses both historical research and interpretive methods, including investigating church and legal records, using social media, navigating sensitive or difficult topics, preserving historic places, engaging students and communities, and strengthening connections between local and national history. Case studies of exhibitions, tours, and school programs from around the country provide practical inspiration, including photographs of projects and examples of exhibit label text. Highlights include: Seymour discusses the prevalence of "false nostalgia" at the homes of the first five presidents and offers practical solutions to create a more nuanced history. Dr. Bernard Powers reveals that African American church records are a rich but often overlooked source for developing a more complete portrayal of individuals and communities. Dr. David Young, executive director of Cliveden, uses his experience in reinterpreting this Historic Landmark to identify four ways that people respond to a history that has been too often untold, ignored, or appropriated—and how historic sites can constructively respond. Dr. Matthew Pinsker explains that historic sites may be missing a huge opportunity in telling the story of freedom and emancipation by focusing on the underground railroad rather than its much bigger "upper-ground" counterpart. Martha Katz-Hyman tackles the challenges of interpreting the material culture of both enslaved and free African Americans in the years before the Civil War by discussing the furnishing of period rooms. Dr. Benjamin Filene describes three "micro-public history" projects that lead to new ways of understanding the handling of source limitations, building partnerships, and reaching audiences. Andrea Jones shares her approach for engaging students through simulations based on the "Fight for Your Rights" school program at the Atlanta History Center. A exhibit on African American Vietnam War veterans at the Heinz History Center not only linked local and international events, but became an award-winning model of civic engagement. A collaboration between a university and museum that began as a local history project interpreting the Scottsboro Boys Trial as a website and brochure that is changing Alabama law. A list of national organizations and an extensive bibliography on the interpretation of African American history provide convenient gateways to additional resources.

"Why Won't You Just Tell Us the Answer?" 27 2022 Every major measure of students' historical understanding since 1917 has demonstrated that students do not retain, understand, or enjoy their school experiences with history. Bruce Lesh believes that this is due to the way we teach history: lecture and memorization. Over the last fifteen years, Bruce has refined a method of teaching history that mirrors the process used by historians. Students are taught to ask questions of evidence and develop historical explanations. --from publisher description.

Poverty and Policy in American History 24 2021 Poverty and Policy in American History is about people who needed help in the nineteenth and early twentieth centuries. It is about the ways in which the perception of poverty and other forms of dependence affected the development of social programs and the conduct of voluntary reform. It also about the ways in which people have written about welfare. The book contains three chapters. The first opens with a description of the life and death of a poor family in early twentieth-century Philadelphia based on case records. It attempts to understand the themes in the lives of the poor through the close analysis of one extended example. The second chapter moves back in time and consists of studies drawn from the project's empirical research. The first case study takes up the history of a neglected institution, the poorhouse. The second reports on a survey of the causes of pauperism undertaken by the New York Board of State Charities in the mid-1870s. The third case analysis is of the seven special schedules of the 1880 U.S. census, which enumerated the "defective, dependent, and delinquent" population. The final chapter is a register of tramps from various places in New York State during the mid-1870s to assess the relation between popular images of tramps and their actual characteristics. The third chapter uses the results of the project's research and other recent work on related topics to discuss American historical writing about dependence as a field and offers a sympathetic critique.

American Democracy: 21 Historic Answers to 5 Urgent Questions 27 2019 From The Federalist to Citizens United, a bestselling historian presents key writings on five crucial questions confronting American democracy today. Amid the frenzied overload of 24-hour cable news and incessant social media, at a time when many of us fear for the future of our democracy, it is becoming harder and harder to think clearly about politics. American Democracy: 21 Historic Answers to 5 Urgent Questions provides an alternative for those who want to step back and look to the past for insight and guidance. Edited with perceptive and provocative commentary by bestselling historian and journalist Nicholas Lemann (The Promised Land, The Next Transaction Man), the book presents key writings from the American past that speak to five contemporary flashpoints in our political landscape: gender, immigration, and citizenship; opportunity and inequality; the purpose and powers of the federal government; money, special privilege, and corruption; and protest and civil disobedience. Some of the selections are well-known—George Washington's letter to the Hebrew Congregation in Newport, Frederick Douglass's "What to the Slave is the 4th of July," Martin Luther King Jr.'s letter from Birmingham Jail—while others will be new to many readers—Horace Mann's argument for public schools as a means of fighting inequality, Jane Addams's perceptive analysis of gender and class in charity work, Randolph Bourne envisioning a "Trans-National America." American Democracy presents a remarkable range of insightful and eloquent American political writing, while serving as an invaluable resource for concerned citizens who wish to become better-informed participants in the ongoing drama of our democracy.

Accessible American History: Connecting the Past to the Present 2019 In a comprehensive series of essays - addressing topics from the time of Columbus to the covid-19 pandemic - Paul Swendson does in written form what he has spent more than twenty years doing as a community college history instructor: making American history "manageable, meaningful, and relevant" for everyday people. In addition to breaking down the fundamental topics of American history in a concise, easy to read fashion, this is a work of political and social commentary, relating the experiences, struggles, and decisions of past Americans to life in the United States today. As stated in the book's introductory essay, "For if history teachers and historians for that matter - make no effort to draw lessons from the data and to bring the facts to life, then we are merely engaged in a trivia game. In the end, the goal of this book, like all good history teaching and writing, is to help its readers become a little wiser, and raising the essential questions is often more important than providing the "right" answers. This book is ideal for anyone who is looking to get an overview of the basics of American history. It can also be a very effective supplemental reader in an American history survey course, stimulating classroom discussions that go beyond learning the "facts." The author himself is currently using this book in his history courses, and many of the essays have evolved through his own experiences working with junior high, high school, and college students. And since many of these students have not been history enthusiasts, he has worked as hard at making the material engaging as he has ensuring its accuracy.
