Children of Paradise Sep 03 2022 In the opening pages of this novel, an accident brings a young girl to the attention of the Preacher, the all-powerful leader of a religious cult secluded in the jungle. Trina has only dim memories of the life she lived with her mother before they joined the community and the closed, close society is all she knows. When she is singled out for special favour, it becomes clear that the gaze of the Preacher can be a dangerous thing. As the Preacher's behaviour and the demands he places on his followers become more extreme, Trina's mother begins to question her faith in the charismatic but fatally flawed leader and to dream of an escape from his control. In this powerful re-imagining of the infamous Jonestown tragedy, D'Aguiar writes with the lyrical intensity of a poet, examining the motivations and obsessions that lead to religious fanaticism. This is a novel about the betrayal of faith and of innocence, a story about love, devotion and mania that is a brave attempt to understand the reasoning of people who would, in the end, kill their own children in the prelude to a mass suicide that shocked the world. Although history tells us that the ending of this story can never be anything other than a tragedy, D'Aguiar's compassion, and his ability to draw the reader into the intimate and terrible reality of lives lived at the whim of a corrupt and dangerous cult leader, ensure that in the end this is a story of hope.

Children of the Mirna Valley May 19 2021 In the quiet farmland of southeastern Slovenia the people of the Mirna Valley endured rule by feudal lords and the Habsburg Empire for over a thousand years. In the early 1600s, the Bevc Family worked the land in the small village of _entrupt. Three generations and over a hundred years later, their descendants moved to the Debenec hills overlooking the Mirna Valley. The family acquired more land and spread to the nearby towns of Mokronog and Mirna. Economic conditions prompted immigration by almost one-third of the Slovenian people. One Bevc generation, a family of eleven children, found different futures in America or Slovenia. Most traded the green hills and hard work of farming for the harsh life of mining coal in a smoky, industrial town. Each withstood hardships so that their children would have a better life. Many of those children fought in World War II. In Slovenia that meant occupation and Partisan resistance; in America, sons went off to war in Europe and the Pacific.

Evil Children of Naor May 31 2022 There are many laws in the world of Naor, but all its creatures absolutely have to respect one: never let in, create or help the evil children of Hodgorn, the God of darkness. This is a sin that can never be forgotten or forgiven by the Gods of light. Other guilts can be redeemed and expiated. Yet, evil fights for the souls of Naor's creatures. It hides everywhere, even buried deep in human nature, waiting for the moment to attack and possess its victims. No one is safe. Namaris is a regular noblewoman living on the northern side of the Engaris Empire. She only desires to find a suitable husband and live a happy life. Tarion is a knight of Kemeid's Order who carries a letter from his Grand Master to Ranidor Castle. Jansemi is a daughter of a leader of the Isher clan, living on the endless steppes of Elmor. None of them are aware that evil has chosen them for its victims. None of them expect that they will have to fight over their souls. Damnation or salvation is at stake.

The Children of Ash and Elm Feb 25 2022 The Viking Age - between 750 and 1050 - saw an unprecedented expansion of the Scandinavian peoples. As traders and raiders, explorers and colonists, they reshaped the world between eastern North America and the Asian steppe. For a millennium, though, their history has largely been filtered through the writings of their victims. Based on the latest archaeological and textual evidence, *Children of Ash and Elm* tells the story of the Vikings on their own terms: their politics, their cosmology, their art and culture. From Bjoern Ironside, who led an expedition to sack Rome, to Gudrid Thorbjarnardottir, the most travelled woman in the world, Price shows us the real Vikings, not the caricatures

they have become in popular culture and history.

Children of the Albatross Mar 17 2021 Children of the Albatross is divided into two sections: "The Sealed Room" focuses on the dancer Djuna and a set of characters, chiefly male, who surround her; "The Café" brings together a cast of characters already familiar to Nin's readers, but it is their meeting place that is the focal point of the story. As always, in Children of the Albatross, Nin's writing is inseparable from her life. From Djuna's story, told in "The Sealed Room" through hints and allusions, hazy in their details and chronology, the most important event to emerge is her father's desertion (like Nin's) when she was sixteen. By rejecting realistic writing for the experience and intuitions she drew from her diary, Nin was able to forge a novelistic style emphasizing free association, spontaneity, and improvisation, a technique that finds its parallel in the jazz music performed at the café where Nin's characters meet.

Children in the Holocaust, children in exile, children under fascism Dec 26 2021 Die vorliegenden siebzehn Beiträge basieren weitgehend auf den Vorträgen der im Oktober 1996 an der University of Nevada in Reno veranstaltenden Konferenz Children in the Holocaust - Children in Exile - Children under Fascism. Die Tagung beschäftigte sich erstmals mit den einschneidenden, oft nicht wieder auszulöschenden traumatischen Erfahrungen von Kindern im nationalsozialistischen Deutschland, im Exil und im Holocaust. Mit dem Jahr 2000 - also in weniger als zwei Jahren - gehört der Holocaust, den auch Daniel J. Goldhagen als das schockierendsten Ereignis des zwanzigsten Jahrhunderts bezeichnet, das innerhalb der deutschen Geschichte am schwierigsten zu verstehen sei, zu den Ereignissen des sogenannten 'Letzten Jahrhunderts'. Ist es darum nicht geboten, die Auseinandersetzung mit diesen Ereignissen, die für viele Menschen selbst heute noch mit schweren Ängsten verbunden sind, unter neuen Gesichtspunkten zur Diskussion zu bringen, damit die Thematik auch über die Schwelle zum nächsten Jahrhundert hinweg in unseren Sichtweite

nichts an ihrer Ungeheuerlichkeit einbüße?

Treatment for Children with Selective Mutism Nov 12 2020 Selective Mutism (SM) is an impairing behavioral condition in which a child fails to speak in certain social situations despite speaking regularly and normally in other situations. SM presents a significant mental and public health problem due to impact on the social, emotional, and academic functioning of young children at a critical point in their development. SM is closely related to childhood social phobia, but it cannot be treated in the same way because of the young age of the children affected, their lack of speech in the treatment setting, and the need for significant school involvement in treatment. *Treatment for Children with Selective Mutism* outlines the sequence and essential elements to guide clinicians through a comprehensive, integrated program for young children who display symptoms of SM. This approach utilizes behavioral interventions targeting gradual increases in speaking across settings in which the child initially has difficulty. The integrated nature of the therapy refers to the goal of incorporating input from the clinician with that from the parents and teacher, as well as others impacted by the lack of speech. Exposure exercises are based on behavioral techniques such as stimulus fading, shaping, and systematic desensitization that also allow for a less intense or gradual exposure to the speaking situation. These techniques are combined and used flexibly with a behavioral reward system for participation in treatment. The approach was developed by Dr. R. Lindsey Bergman as part of the UCLA Childhood OCD, Anxiety, and Tic Disorders Program. The treatment protocol consists of 20 sessions, 60 minutes each, delivered over the course of 24 weeks. *Treatment for Children with Selective Mutism* is an invaluable guide for mental health professionals who deliver CBT-based treatment to children and want to help those with SM.

The Devil's Children Jul 21 2021 A number of cases of serious child abuse have resulted from beliefs that children may be possessed by evil spirits and may then be given the power to bewitch others. Misfortune, failure, illness and even death may be blamed on them. The 'cure', nowadays called deliverance rather than exorcism, is to expel the spirits, sometimes by violent means. This book draws together contributions on aspects of possession and witchcraft from leading academics and expert practitioners in the field. It has been put together following conferences held by Inform, a charity that provides accurate information on new religions as a public service. There is no comparable information publicly available; this book is the first of its kind. Eileen Barker, founder of Inform, introduces the subject and Inform's Deputy Director goes on to detail the requests the charity has answered in recent years on the subject of children, possession and witchcraft. This book offers an invaluable resource for readers, whether academic or practitioner - particularly those in the fields of the safeguarding of children, and their education, health and general welfare.

Children's Images of Identity Apr 05 2020 "The understandings which children have of Indigenous identity provide means by which to explore the ways in which Indigenous identity is both projected and constructed in society. These understandings play a powerful part in the ways in which Indigenous peoples are positioned in the mainstream society with which they are connected. The research presented in this edited collection uses children's drawings to illuminate and explore the images children, both mainstream and Indigenous, have of Indigenous peoples. The data generated by this process allows exploration of the ways in which Indigenous identity is understood globally, through a series of locally focussed studies connected by theme and approach. The data serves to illuminate both the space made available by mainstream groups, and aspects of modernity accommodated within the Indigenous sense of self. Our aim within this project has been to analyse and discuss the ways in which children construct identity, both their own and that of others. Children were asked to share their thoughts through drawings which were then used as the basis for conversation with the researchers. In this way the interaction between mainstream modernity and traditional Indigenous identity is made available for discussion and the connection between children's lived experiences of identity and the wider global discussion is both immediately enacted and located within broader international understandings of Indigenous cultures and their place in the world."

The Children of Divorce (Youth, Family, and Culture) Jan 15 2021 Why does divorce cause so much strain and long-term distress for children of all ages? Andrew Root, a recognized authority on youth ministry and a child of divorce himself, explains that divorce causes children to question their core identity. Since a child is the product of the union of a mother and father, when that union ends, he or she experiences a baffling sense of loss of self--a loss of his or her very sense of being. Root redirects efforts for assisting children of divorce to first address this fundamental experience. This unique book examines the impact of divorce not only from a theological and spiritual perspective but also from a young person's perspective. It will benefit those who have experienced divorce and those who minister to children of divorce.
