nehmen, ist das vorrangige Ziel unserer ergotherapeutischen Intervention. Beide Perspektiven sind wichtig: die des Insiders, also des Klienten, und auch die der Außenstehenden, also von uns Ergotherapeuten, die die Einbindung in Betätigung beobachten. Nach dem aktuellen Paradigma ist unsere praktische Arbeit - die ergotherapeutische Intervention - auf Betätigung im alltäglichen Kontext ausgerichtet. Wenn dort unser Fokus liegt, müssen wir dafür sorgen, dass die Betätigung nicht nur das Ergebnis (Ziel), sondern auch der Schwerpunkt unserer Evaluation, Intervention und Dokumentation ist. Das Occupational Therapy Intervention Process Model (OTIPM) hilft uns, diese Sichtweise zu verinnerlichen. Das Buch stellt mit zahlreichen Abbildungen, Tabellen und Merksätzen verständlich dar, welche Interventionsarten (restitutive, akquisitorische und adaptive Betätigungen) wir vorrangig einsetzen sollten, welche Prinzipien wir der ergotherapeutischen Intervention zugrunde legen, welche zielgerichteten Aktionen, also motorische und prozessbezogene Fertigkeiten sowie soziale Interaktionsfertigkeiten, wir bei einer Betätigung beobachten können und welche ICF-Codes sie haben, wie wir das OTIPM umsetzen können: Zwei Fallbeispiele erläutern die konkrete Anwendung. Eine umfangreiche Literaturliste und eine Liste mit der Übersetzung einiger Begriffe ergänzen dieses Buch.

Nutzen hat kunsttherapeutisches Arbeiten im Praxisfeld der stationären Altenhilfe? Diese Dokumentation aus 10 jähriger kunsttherapeutischer Arbeit innerhalb eines Seniorenzentrums zeigt wie es gehen kann. Selbstreflexion, Kommunikation und Alltagskompetenz von Senioren können mit Hilfe kunsttherapeutischer Arbeit in der stationären Altenhilfe gefördert werden. In der Kunsttherapie mit Senioren können Krankheit, Pflegebedürftigkeit, Sterben und Tod thematisiert werden. Auch Kreativität kann im Alter wiederentdeckt werden. Mit Hilfe der Kunsttherapie kann die Lebensfreude geweckt und Erfolgserlebnisse begünstigt werden. Kunsttherapie kann für demenzkranke Senioren im Pflegeheim angeboten werden sowie auch als Nachbarschaftsprojekt für Bewohner von Seniorenwohnanlagen. Anhand von ausgewählten Fallbeispielen aus der Einzel- und Gruppentherapie mit Senioren eines Seniorenzentrums wird diese Arbeit, basierend auf dem klientenzentrierten kunsttherapeutischen Ansatz nach Carl R. Rogers und Natalie Rogers, vorgestellt. Die Zusammenarbeit von Kunsttherapeuten und Museumspädagogen wird am Beispiel des Projektes der Kunsthalle Schirn "Schirn Extern" mit dem Frankfurter Verband für Alten- und Behindertenhilfe Frankfurt/M. dokumentiert. In den Jahren 2005 und 2006 erfolgte dieses Projekt zu den Ausstellungen "Religion, Macht, Kunst, Die Nazarener" und "Rodin und Beuys" der Kunsthalle Schirn/Frankfurt a.M.. Es wird gezeigt, wie Impulse und Anregungen museumspädagogischer Arbeit für die kunsttherapeutische Arbeit mit Senioren im Heim weitergeführt und umgesetzt werden können. Presseberichte von Kunsttherapie, Vernissagen und Ausstellungen zeigen, wie respektvoll und behutsam die Arbeiten von Senioren präsentiert werden können und dabei trotzdem die Würde des alten Menschen gewahrt werden kann.

Designed for use by rehabilitation professionals, documentation guidelines are easily adaptable to different practice settings and patient populations. Realistic examples and practice exercises reinforce concepts and encourage you to apply what you've learned. Written by expert physical therapy educators Lori Quinn and James Gordon, this book will improve your skills in both documentation and clinical reasoning. A practical framework shows how to organize and structure PT records, making it easier to document functional outcomes in many practice settings, and is based on the International Classification for Functioning, Disability, and Health (ICF) model - the one adopted by the APTA. Coverage of practice settings includes documentation examples in acute care, rehabilitation, outpatient, home care, and nursing homes, as well as a separate chapter on documentation in pediatric settings. NEW Standardized Outcome Measures chapter leads to better care and patient management by helping you select the right outcome measures for use in evaluations, re-evaluations, and discharge summaries.
