[Three Mystics Walk into a Tavern](#) Aug 24 2019 In [Three Mystics Walk into a Tavern](#), Jalal ad-Din Rumi, Moses de León, and Meister Eckhart—three of the greatest mystics of all time—meet in Venice for an imaginary night-long conversation that will inspire everyday individuals of the twenty-first century to find their own spirituality and realize that everyone can be a mystic. Although the mystics came from different backgrounds and religious traditions (Islam, Judaism, and Christianity), their spiritual paths led them to similar understandings of a union with the Divine. The three mystics have a timeless and timely message for people who walk the earth eight centuries after they did, no matter an individual's religious background or even if they have none. It is a message of connecting with the "divine spark" deep within us and within the universe.

**Interconnected: Tropical Biodiversity of St. John, U. S. Virgin Islands** Feb 20 2022 You don't have to be a naturalist to care about nature, and you don't have to be an expert to appreciate the distinctive lives of animals. That's the main theme in this ecology narrative written as part travel diary - part memoir. Cynthia Moulton, a biology professor at Castleton University who has been traveling to St. John with college students for more than fifteen years, is uniquely qualified to lead you on a tour of the fascinating lives of animals residing in the sea, sand, and trees of this enchanted tropical island. Snorkel over the fringing reef of Waterlemon Cay, along the rocky shore of Yawzi Point and in the mangroves of Hurricane Hole. Swim with sea turtles, stingrays, groupers and damselfish to appreciate their beauty and grace, as well as their struggle for survival. From sex-changing parrotfish to group sex in corals, the animals of the island have stories to tell and secrets to reveal. Discover the many mysteries behind the island's subtle web of life in [Interconnected](#).

**Symmetry in Graphs** May 14 2021 This is the first full-length book on the major theme of symmetry in graphs. Forming part of algebraic graph theory, this fast-growing field is concerned with the study of highly symmetric graphs, particularly vertex-transitive graphs, and other combinatorial structures, primarily by group-theoretic techniques. In practice the street goes both ways and these investigations shed new light on permutation groups and related algebraic structures. The book assumes a first course in graph theory and group theory but no specialized knowledge of the theory of permutation groups or vertex-transitive graphs. It begins with the basic material before introducing the field's major problems and most active research themes in order to motivate the detailed discussion of individual topics that follows. Featuring many examples and over 450 exercises, it is an essential introduction to the field for graduate students and a valuable

addition to any algebraic graph theorist's bookshelf.

*Big Java* Aug 17 2021 This book introduces programmers to objects at a gradual pace. The syntax boxes are revised to show typical code examples rather than abstract notation. This includes optional example modules using Alice and Greenfoot. The examples feature annotations with dos and don'ts along with cross references to more detailed explanations in the text. New tables show a large number of typical and cautionary examples. New programming and review problems are also presented that ensure a broad coverage of topics. In addition, Java 7 features are included to provide programmers with the most up-to-date information.

**Paste Tailings Management** Mar 24 2022 This book provides an overview of paste tailings disposal at mine sites. It deals comprehensively with the characterization of sulphide-rich tailings, geotechnical and microstructural behaviour, surface tailings disposal applications, underground paste backfilling, and case studies. The authors place emphasis on the characterization, monitoring, disposal and treatment, as well as environmental considerations of problematic sulphidic tailings. The framework is supported by worldwide case studies.

*Spiking Neuron Models* Nov 19 2021 This is an introduction to spiking neurons for advanced undergraduate or graduate students. It can be used with courses in computational neuroscience, theoretical biology, neural modeling, biophysics, or neural networks. It focuses on phenomenological approaches rather than detailed models in order to provide the reader with a conceptual framework. No prior knowledge beyond undergraduate mathematics is necessary to follow the book. Thus it should appeal to students or researchers in physics, mathematics, or computer science interested in biology; moreover it will also be useful for biologists working in mathematical modeling.

*Fear Cay: A Doc Savage Adventure* Aug 29 2022 DigiCat Publishing presents to you this special edition of "Fear Cay: A Doc Savage Adventure" by Lester Bernard Dent. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

**Caribbean Treasures** Jan 28 2020 Welcome Aboard! Come along with us as we enjoy a ten-day vacation cruise through the British Virgin Islands! We will sharpen our sailing skills, explore gracious cruising sites, and rediscover some of those life lessons that brighten any relationship. You may find some suggestions for making your own journey more enjoyable, or simply sit back and vicariously be part of our crew. We would like you to know that all the sites herein described are actually there. The events described in our account are rooted in true experience, though embellished for the sake of the telling. The crew represented is also an authentic family, although some may say a bit brighter for the telling. Fictionalized characters have been added to protect the innocent. If this book might be your devotional while vacationing in mountains, prairie, or best, afloat, it will have accomplished our highest hopes. May fair winds, and calm seas be yours! Yours cordially, Norman O'Banyon

**The Cayarn** Feb 08 2021 When an unspeakable evil threatens his people, Kris must sacrifice everything to save them. This one selfless act soon places Kris in the midst of the Span, a new world that will demand more of him than he ever dreamed. The Cayarn is an epic tale of one man's struggle to find his place in a new world while joining a quest that seeks to save it. Small in stature, but with a warrior's heart, Kris will struggle with enemies around him while facing trials within. He will learn more than he could have ever imagined about the Span, himself, and what it really means to be a hero.

*More Novels and Plays* Apr 12 2021 Entries for thirty novels and plays each include a brief plot summary, an appraisal of the work's reputation, lists of themes and literary concepts, titles for outside reading, discussion questions, and suggested activities for students.

**The Outer Limits of Edgar Cayce's Power** Sep 05 2020 Edgar Cayce, America's "sleeping prophet," was one of the most active and trusted psychics of the 20th century. Thousands of people relied on him for insights into their physical and emotional health, spiritual questions, business

prospects, and dreams. His writings still inform us today. Cayce's readings were stunningly accurate-about 85 percent of them hit the mark. But some cases seemed to be beyond his abilities. Why did his powers fail him at times-if they in fact did? In *The Outer Limits of Edgar Cayce's Power*, his sons, Edgar Evans Cayce and Hugh Lynn Cayce, investigate the questions that challenged the prophet's seemingly unlimited psychic abilities.

*The Fairgrounds* Jan 22 2022 Can you stomach the Fairgrounds? Based on nothing but a modern-day message in a bottle and a secret invention that can measure the ebb and flow of Karma itself, watch as three troubled strangers each takes a leap of faith to find fairness in an unfair world. But things get close and personal as a masked vigilante vows to take Karma into his own hands. But no matter what brought our band of less-than-merry men together, one thing is for certain, common enemies make for strange bedfellows! In Book 1, get acquainted with each of our three misunderstood adventurers as they independently try to make sense of a secret message embedded in a mysterious \$2 bill. Who wrote the secret message, and can they be trusted? Each of our protagonists must face their inner conflicts and weigh the pros and cons of endeavoring on such a risky pilgrimage. Is it fate that guides these complete strangers towards a common destiny? Or is it simply a disaster waiting to happen, the wishful and wistful thinking wrought by the telltale imaginations of overzealous dreamers?

**Elijah** Jan 10 2021 Elijah is rife with drive and depth. Above all, it provides its readers with a rich and rewarding experience.

**The Backpacking Housewife: The Next Adventure (The Backpacking Housewife, Book 2)** Jul 16 2021 The Backpacking Housewife is back in a heartwarming new novel! 'A feelgood read that reminds us it's never too late to live the life you want' SUN

*The Fine Print* Jun 22 2019 "No other modern country gives corporations the unfettered power found in America to gouge customers, shortchange workers, and erect barriers to fair play. A big reason is that so little of the news . . . addresses the private, government-approved mechanisms by which price gouging is employed to redistribute income upward." You are being systematically exploited by powerful corporations every day. These companies squeeze their trusting customers for every last cent, risk their retirement funds, and endanger their lives. And they do it all legally. How? It's all in the fine print. David Cay Johnston, the bestselling author of *Perfectly Legal* and *Free Lunch*, is famous for exposing the perfidies of our biggest institutions. Now he turns his attention to the ways huge corporations hide sneaky stipulations in just about every contract, often with government permission. Johnston has been known to whip out a utility bill and explain line by line what all that mumbo jumbo actually means (and it doesn't mean anything good, unless you happen to be the utility company). Within all that jargon, disclosed in accordance with all legal requirements, lie the tools these companies use to rob you blind. Even worse is what's missing—all the contractually binding clauses that companies hide elsewhere yet still enforce and abuse.

Consider, for example, how: An insurance company repeatedly delayed paying for a paralyzed man's vital care despite court orders to pay up. Laws in nineteen states let companies like Goldman Sachs, General Electric, and Procter & Gamble pocket the state income taxes withheld from their workers' paychecks for up to twenty-five years. A little-known government rule gives safety waivers to deadly industrial facilities secretly located underneath schools and playgrounds. The "FCC Charge" on your phone bill, which appears to be a government fee, actually goes straight to the phone company. Johnston shares solutions you can use to fight back against the hundreds of obscure fees and taxes that line the pockets of big corporations, and to help end these devious practices once and for all.

**The Acts and Resolves, Public and Private, of the Province of the Massachusetts Bay** Aug 05 2020

**Creating Context in Andean Cultures** May 26 2022 This collection of previously unpublished papers explores various indigenous Andean languages and cultures in the context of new anthropological thinking about 'texts' and textuality. The contributors focus on the ways socially subordinated cultural groups construct distinctive historical identities.

**Evolution of an Andean Margin** Oct 26 2019 "The objective of this volume is to examine the

Cenozoic tectonic and magmatic evolution from the arc to the retroarc of a distinctive end-member of the Andean accretionary orogen between 35°S and 39°S. The evolution of the Andes in this region provides an outstanding case study of an orogen where periods of contraction and extension, crustal shortening and normal faulting, and differences in retroarc volcanism reflect a tectonic regime that alternates in space and time. Structural, magmatic, and paleogeographic patterns correlate strongly with the dynamics of the subduction zone. The region includes the Neuquen basin which is one of the most prolific of the Central Andes. The tectonic setting is important in understanding hydrocarbon systems of the sub-Andean basin and the potential for ore deposits in the cordillera. The book is fundamental for researchers working on tectonics and magmatism in Andean type systems as well as those involved in exploration."--Publisher's website.

[Intelligent Robotics and Applications](#) Jun 26 2022 This two volume set LNAI 8102 and LNAI 8103 constitutes the refereed proceedings of the 6th International Conference on Intelligent Robotics and Applications, ICIRA 2013, held in Busan, South Korea, in September 2013. The 147 revised full papers presented were carefully reviewed and selected from 184 submissions. The papers discuss various topics from intelligent robotics, automation and mechatronics with particular emphasis on technical challenges associated with varied applications such as biomedical application, industrial automation, surveillance and sustainable mobility.

[Bahamas For Dummies](#) Jun 14 2021 If you're planning a Bahamas getaway, this guide gets you in the know and in the mood. You'll practically feel the sand between your toes and the sea breeze brushing your face. Find out about hot spots, like the well-touristed Nassau, Paradise Island, and Freeport/Lucaya on Grand Bahama Island, and less-visited islands like the Exumas and Abacos that are perfect if you want serious R & R. This guide covers: An overview of Bahamian customs, music, festivals, cuisine, and "thirst-busters" Accommodations ranging from simple Bahamian inns and guesthouses to mega-resorts, and from quaint gingerbread villas to a spectacular beach resort with a kids' camp The best places for all kinds of water sports, including water skiing, banana boat rides, Jet-Skiing, sailing, and parasailing Snorkeling and scuba diving, including dramatic reef trips, shark dives, shipwreck dives, and even night dives Fishing for wahoo, blue marlin, oceanic bonito, blackfin tuna, snapper, grouper, barracuda, dolphins, and more Great places to stay and play if tennis or golf is your game Gambling at glamorous casinos and taking in great stage shows Shopping for international imports of china, perfume, crystal, gemstones, or watches A calendar of events including festivals, tournaments, and local holidays Like every For Dummies travel guide, Bahamas For Dummies, 4th Edition includes: Down-to-earth trip-planning advice What you shouldn't miss — and what you can skip The best hotels and restaurants for every budget Handy Post-it Flags to mark your favorite pages Whether you're honeymooning or bringing the kids...whether you want to be an adventurous underwater explorer or a contented beach potato...this guide will help you enjoy the many sites and moods of the Bahamas.

**Bahamas For Dummies?** Jul 24 2019 Bahamas for Dummies is a perfect trip-planning resource, whether it's your first time in the Bahamas or your hundredth. Our author has picked the most fascinating sights, the tastiest restaurants and the most comfortable and fun accommodations on a variety of islands. Designed to help you plan the kind of trip that you want, the guide is packed full of helpful specifics on everything from water sports to nightclubs.

**Caylen's Journey** Dec 21 2021 Returning to his beloved North , young Caylen Helms brings along his new Hopi bride Aponi , her mother and another Hopi man . The young couple , now wealthy beyond their wildest dreams , are soon comfortably at home in their beautiful newly built log mansion on their own private island utopia .Before long , eerie events begin to interrupt their utopian wilderness life . Strange but friendly beings residing on the same island as their new home is located suddenly make their presence known to Caylen and his family by presenting them with a wonderful gift . A mysterious craft appears out of the sky and crashes through the big lakes winter ice . A beautiful white wolf appears , becomes enamoured with Warrior , Caylen's pet wolf , and is soon part of the family.Blessed with extraordinary supernatural powers , Caylen , having now completed his police training is soon required to embark on a series of adventures as he fulfills his

obligations as a special constable in the Northwest Mounted Police . These investigations nearly cause his demise and require much use of the supernatural powers bestowed upon him by Sania , the old Hopi medicine man who befriended young Caylen many, many years earlier . When a stranger from his past appears placing his family in extreme danger and bringing tragedy to all , Caylen is forced to call upon further extraordinary forces from his past for assistance . Circumstances during this investigation require Caylen to make many difficult choices . Choices that , unknown to him at the time , will affect his entire family and all of their close friends and relatives , altering their future and their lives forever.

**Graphs from Rings** Jul 28 2022 This book gives an overview of research on graphs associated with commutative rings. The study of the connections between algebraic structures and certain graphs, especially finite groups and their Cayley graphs, is a classical subject which has attracted a lot of interest. More recently, attention has focused on graphs constructed from commutative rings, a field of study which has generated an extensive amount of research over the last three decades. The aim of this text is to consolidate this large body of work into a single volume, with the intention of encouraging interdisciplinary research between algebraists and graph theorists, using the tools of one subject to solve the problems of the other. The topics covered include the graphical and topological properties of zero-divisor graphs, total graphs and their transformations, and other graphs associated with rings. The book will be of interest to researchers in commutative algebra and graph theory and anyone interested in learning about the connections between these two subjects.

**The Great Barrier Reef** Jul 04 2020 The Great Barrier Reef is located along the coast of Queensland in north-east Australia and is the world's largest coral reef ecosystem. Designated a World Heritage Area, it has been subject to increasing pressures from tourism, fishing, pollution and climate change, and is now protected as a marine park. This book provides an original account of the environmental history of the Great Barrier Reef, based on extensive archival and oral history research. It documents and explains the main human impacts on the Great Barrier Reef since European settlement in the region, focusing particularly on the century from 1860 to 1960 which has not previously been fully documented, yet which was a period of unprecedented exploitation of the ecosystem and its resources. The book describes the main changes in coral reefs, islands and marine wildlife that resulted from those impacts. In more recent decades, human impacts on the Great Barrier Reef have spread, accelerated and intensified, with implications for current management and conservation practices. There is now better scientific understanding of the threats faced by the ecosystem. Yet these modern challenges occur against a background of historical levels of exploitation that is little-known, and that has reduced the ecosystem's resilience. The author provides a compelling narrative of how one of the world's most iconic and vulnerable ecosystems has been exploited and degraded, but also how some early conservation practices emerged.

**Frommer's Bahamas 2001** Feb 29 2020 Experience a place the way the locals do. Enjoy the best it has to offer. And avoid tourist traps. At Frommer's, we use 150 outspoken travel experts around the world to help you make the right choices. Frommer's. Your guide to a world of travel experience. Choose the Only Guide That Gives You: Outspoken opinions on what's worth your time and what's not. Exact prices, so you can plan the perfect trip no matter what your budget. Off-the-beaten-path experiences and undiscovered gems, plus new takes on top attractions. The best hotels and restaurants in every price range, with candid reviews. The expert guidance you need to take charge and travel with confidence. Great trips begin at [www.frommers.travelocity.com](http://www.frommers.travelocity.com) Book flights, hotels, and rental cars. Get free updates on attractions and prices.

**Hành Trình Văn Hoá: A Journey Through Vietnamese Culture** Dec 29 2019 This intermediate textbook continues to develop students' skills in listening, speaking, reading, and writing Vietnamese at the second-year language learning level. The book is presented as a linguistic and cultural journey of a family through twelve selected cities in Vietnam. Each chapter is organized into sections on dialogue, grammar, reading, practice exercises, and vocabulary.

**Work Process Knowledge** Oct 07 2020 Work Process Knowledge brings together the findings of twenty-four leading researchers on new forms of work and the demands these place on workers'

knowledge and skill. Their findings, based on a new set of investigations in a wide range of manufacturing and service industries, identify the kinds of knowledge required to work effectively in the post-Taylorist industrial organization. Raising fundamental issues for current industrial policy, science and technology policy, and ways of managing the post-Taylorist organization and developing human resources, this book will be of essential interest to academics and professionals working in the fields of management, human resource development, and workplace learning.

**Understanding Translation** Nov 27 2019

**Curse (Book 1 of the Wexkia trilogy)** Apr 24 2022 Nell is looking forward to leaving the isolation of her beach and attending University in the city. But when her father reveals that she is a product of two warring alien species, Nell's life somersaults as ever-increasing evidence proves her family wrong. She is something else. She must now decide if knowing the truth is worth risking lives. With friend Sam by her side, she travels to an alien world where she must defend herself against her growing number of enemies. Can she find a secret book that contains the genuine facts about her ancestry—whatever that may be! Author, Dale Furse takes us on a fantastic adventure to a world inhabited by bizarre beings. Confused by her life-changing experiences and facing an uncertain future, who can Nell trust to help her? A coming of age, teen and Young Adult, Science Fiction, Fantasy, Action Adventure, Fiction novel about aliens, interplanetary travel, extraterrestrial planets and so much more.

In Search of Maya Sea Traders Dec 09 2020 Archaeologist Heather McKillop shares the experiences she had off the coast of Belize while searching for clues about the little known ancient Maya sea trade. This recollection of her work there includes the adventure of discovery, as the story of the traders emerges from the excavations. She describes the trading port of Wild Cane Cay, where exotic goods were traded from distant lands, and also discusses the more coastal-inland trade there. Through the story of her work, McKillop models the research design and field work required to interpret civilizations of the past.

**Restricted Congruences in Computing** Jun 02 2020 Congruences are ubiquitous in computer science, engineering, mathematics, and related areas. Developing techniques for finding (the number of) solutions of congruences is an important problem. But there are many scenarios in which we are interested in only a subset of the solutions; in other words, there are some restrictions. What do we know about these restricted congruences, their solutions, and applications? This book introduces the tools that are needed when working on restricted congruences and then systematically studies a variety of restricted congruences. *Restricted Congruences in Computing* defines several types of restricted congruence, obtains explicit formulae for the number of their solutions using a wide range of tools and techniques, and discusses their applications in cryptography, information security, information theory, coding theory, string theory, quantum field theory, parallel computing, artificial intelligence, computational biology, discrete mathematics, number theory, and more. This is the first book devoted to restricted congruences and their applications. It will be of interest to graduate students and researchers across computer science, electrical engineering, and mathematics.

*Frommer's Australia* May 02 2020 From diving at the Great Barrier Reef to wildlife watching on Kangaroo Island, from the Sydney Opera House to the best pubs in the Outback, from Tasmanian crafts to Aboriginal art, *Frommer's* lets travelers to Australia explore the country's unique sights and sounds.

*To Democratize or Not? Trials and Tribulations in the Postcolonial World* Nov 07 2020 This volume, a product of the first Tricontinental Conference organized by Yeditepe University, İstanbul, brings together perspectives on democracy and development in Africa, the Middle East and Latin America. Representing local voices and insight, the contributors here respond to the dearth of comparative analysis on these three regions. In spite of the differences observed in colonial practices and postcolonial transitions, a shared disenchantment with the performance of competitive politics comes to the forefront in these geographical areas. Decades after decolonization, low-intensity democracy and the continuing potential for democratic reversals and backsliding make the study of

these three regions relevant. Considering the debates on protests, social upheavals, activism, change and continuity, this book encourages the reader to survey the various trials and tribulations of the postcolonial era.

**Gender Identity, Equity, and Violence** Mar 31 2020 The authors of the thirteen chapters in this volume bring excitement and innovations to teaching about gender from a wide range of theoretical and discipline perspectives. They exhibit the inclusiveness that is central to feminist pedagogy—a perspective that centers the educational enterprise in the analysis of the interconnectedness of social categories that have traditionally divided and given root to inequality and oppression and aims for no less than social transformation. Empowerment is a core value in gender education and the experiential approach nurtures that goal. This volume provides many examples of the power of learning through experience as the authors demonstrate that, "...the authority of the feminist teacher as intellectual and theorist finds expression in the goal of making students themselves theorists of their own lives by interrogating and analyzing their own experience." (Weiler, 1991) To stimulate the adaptation of the approaches described in these books, each volume includes an Activity / Methodology table that summarizes key elements of each example, such as class size, pedagogy, and other disciplinary applications. [Click here for the table to this title.](#)

*League of Liars* Sep 17 2021 In this fantasy thriller, four teens charged with murder and caught up with the illegal use of magic band together to devise the ultimate jailbreak. Perfect for fans of *Six of Crows* and *How to Get Away with Murder*. Ever since his mother was killed, seventeen-year-old Cayder Broduck has had one goal—to see illegal users of magic brought to justice. People who carelessly use extradimensional magic for their own self-interest, without a care to the damage it does to society or those around them, deserve to be punished as far as Cayder is concerned. Because magic always has a price. So when Cayder lands a once-in-a-lifetime opportunity to apprentice under a premier public defender, he takes it. If he can learn all the tricks of public defense, the better he'll be able to dismantle defense arguments when he's a prosecutor. Then he'll finally be able to make sure justice is served. But when he meets the three criminals he's supposed to defend, it no longer seems so black and white. They're teenagers, like him, and their stories are . . . complicated, like his. Vardean, the prison where Cayder's new clients are incarcerated, also happens to be at the very heart of the horrible tear in the veil between their world and another dimension—where all magic comes from. *League of Liars* is a dark and twisty mystery set in a richly-drawn world where nothing is as it seems, rife with magic, villains and danger.

**In Search of My Parent** Mar 12 2021 Tina P. was just a little girl when her father abandoned the family. She experienced feelings of loss, neglect, and rejection. In *In Search of My Parent*, she shares her life story, discusses how her father's rejection framed her existence, and describes her search for him. This memoir chronicles her journey where her spiritual guide teaches that she must move beyond the pain of her past and work toward the dawn of her future. Tina musters the resources to recover from her loss and learns to love again, finding the healing power of love, peace, and forgiveness. *In Search of My Parent* not only shares Tina's personal story, but it seeks to help others who have experienced the pain and trauma caused by being abandoned by a parent. She may not have found the answer she was searching for, but it brought her to a place where she found forgiveness.

[The Cay Lit Link Gr. 7-8](#) Oct 31 2022

**Halcyon Days** Oct 19 2021 This book is a sailing travel-adventure demonstrating how dreams can come true for those who have the desire to accomplish, persistence, a sense of adventure and are willing to take risks in order to make their dreams come true. It is about the pleasures, responsibilities, trials and tribulations that go along with any major change in lifestyles.

[The Turks and Caicos Islands: Our Heritage, Our History](#) Sep 29 2022 Dr. Carlton M. Mills, a native of South Caicos, has been a passionate educator in the Turks and Caicos Islands throughout his professional life. He began his teaching career in 1981 as a history teacher at the Majorie Basden High (formerly Pierson High School). He eventually moved up the ranks to Vice Principal in 1988 and Principal in 1990, becoming the first Turks and Caicos Islander to hold that position. He also

served as Principal of the Raymond Gardiner High School in North Caicos from 1992-1997 and the University of the West Indies Representative in the Turks & Caicos Islands from 1998 to 2010. Dr Mills also served as Vice Principal of the Turks and Caicos Islands Community College from 1997 - 2007. He was also an adjunct lecturer for Sociology. After the General Election in 2007, he was appointed as Minister of Education, Youth, Sports and Culture. Following the suspension of the country's constitution by the British Government in 2009, he was appointed by the Governor to serve as a member of the Advisory Council. He holds a Certificate in Teacher Education, Certificates in Social Work and Public Administration (UWI), B.A. History & Sociology (UWI), Dip. In Education (London), Med. In Education (Bristol) and a Doctorate degree in Education from the University of Sheffield. He has written and published several articles on education and on the history of the Turks and Caicos Islands in the local and regional media. He has also presented papers on education at various conferences in the region and in the UK. He is the General Editor of the book A History of the Turks & Caicos Islands (2008). Dr Mills and his wife, Debby-Lee Mills own and operate MILLS Institute, an elementary school in Providenciales, Turks and Caicos Islands. Debby-Lee V. Mills is a native of Bottle Creek, North Caicos. She is a teacher by profession and has served in the government schools for 27 years, ten of those years as a principal. She is currently co-owner (with her husband) of a local private elementary school, Mills Institute, located in Providenciales, Turks and Caicos Islands. Mrs. Mills has a passion for education management, mentoring young teachers and teaching of Creative Writing. She is an avid reader who also loves to cook, decorate, garden and entertain friends and family. She has a master's degree in Educational Leadership from the University of Leicester, UK. She is married to local historian and educator Dr Carlton Mills. Mrs. Mills has four adult children, one stepdaughter and is the proud grandmother of six. She currently lives with her family in Miramar, Florida.

Bahama Islands; A Boat mans Guide to the Land and Water Sep 25 2019
