Geography of Climate Change Aug 06 2020 Climate change is one of the inescapable themes of current times. Climate change confronts society in issues as diverse as domestic and international political debate and negotiation, discussion in the media and public opinion, land management choices and decisions, and concerns about environmental, social and economic priorities now and for the future. Climate change also spans spatial, temporal and organisational scales, and has strong links with nature-society relationships, environmental dynamics, and vulnerability. Understanding the full range of possible consequences of climate change is essential for informed decision making and debate. This book provides a collection of chapters that span environmental, social and economic aspects of climate change. Together the chapters provide a diverse and contrasting series that highlights the need to analyze, review and debate climate change and its possible impacts and consequences from multiple perspectives. The book also is intended to promote discussion and debate of a more integrated, inclusive and open approach to climate change and demonstrates the value of geography in addressing climate change issues. This book was originally published as a special issue of *Annals of the Association of American Geographers*.

Mentoring Geography Teachers in the Secondary School Nov 28 2019 Mentoring Geography Teachers in the Secondary School supports both new and experienced mentors in developing their knowledge and skills in mentoring in geography education. Within the book, chapter authors critically consider how mentoring has been conceptualised and represented in policy and academic debate, as well as examining how mentoring in geography education has been experienced and perceived in practice. Chapters in the book explore a range of perspectives, experiences and aspects of mentoring geography teachers, including: • Critical engagement with educational policy and practice • Perspectives from beginning geography teachers • Mentoring as a professional development opportunity • The value of engaging with the geography education community in teacher education • How mentoring meetings and conversations can support beginning geography teachers in their growth and development This book is a vital source of support and inspiration for all those involved in developing the next generation of geography teachers. The themes of justice, agency and voice - raised and engaged with implicitly and explicitly throughout this edited collection - are of critical importance to mentors, beginning teachers and geography education more broadly in developing and enacting a progressive vision of mentoring.

The SAGE Handbook of Qualitative Geography Sep 06 2020 Exploring the dynamic growth, change, and complexity of qualitative research in human geography, *The SAGE Handbook of Qualitative Geography* brings together leading scholars in the field to examine its history, assess the current state of the art, and project future directions. "In its comprehensive coverage, accessible text, and range of illustrative studies, past and present, the Handbook has established an impressive new standard in presenting qualitative methods to geographers." - David Ley, University of British Columbia Moving beyond textbook rehearsals of standard issues, the Handbook shows how empirical details of qualitative research can be linked to the broader social, theoretical, political, and policy concerns of qualitative geographers and the communities within which they work. The book is organized into three sections: Part I: Openings engages the history of qualitative geography, and details the ways that research, and the researcher's place within it, are conceptualized within broader academic, political, and social currents. Part II: Encounters and Collaborations describes the different strategies of inquiry that qualitative geographers use, and the tools and techniques that address the challenges that arise in the research process. Part III: Making Sense explores the issues and processes of interpretation, and the ways researchers communicate their results. Retrospective as well as prospective in its approach, this is geography's first peer-to-peer engagement with qualitative research detailing how to conceive, carry out and communicate qualitative research in the twenty-first century. Suitable for postgraduate students, academics, and practitioners alike, this is the methods resource for researchers in human geography.

The Ultimate Geography Quiz Book Feb 09 2021 Are you looking for a fun and challenging quiz to tackle solo? Or looking to tackle it with friends and family? Or looking for a big bank of questions for a pub quiz/quiz night? Here's what you will discover with this book: 720 multiple choice questions: Choose from 4 possible answers from each question. Unlike other quiz books we have seen out there - possible answers in *The Ultimate Geography Quiz* book are meant to be challenging and the possible answers are well researched to truly make you think - see below for more details. Challenging questions throughout: Made to really engage the brain cells, even for the die-hard geographers! Child/Family friendly questions: No sensitive topics are asked about within this book. Keep Score: Optional scoring system to measure your quizzing ability! Matte paperback cover for durability and ease of carrying, so your child can tackle questions at home or on the go. Tackle the quiz alone, with your partner, or make it a social event with your friends and family! Quizzes are great on commutes, and long drives - and equally as great as a social fun event for friends and family. You cannot go wrong with a quiz night! This book makes a perfect gift for adults and children with an interest in geography. Recommend age 12+ Question topics within *The Ultimate Geography Quiz* include, but not limited to: Country and continent names, size, borders and locations respective to each other. Mountain, mountain heights, mountain range and volcano names and their locations. Ocean, seas, marginal seas, and their locations respective to each other City, building, landmark and capital city names and location. Deserts, forests, jungles, glaciers! Country size, flags, language currency, religion, climate and population. Flag, flag colors, other flag attributes. Physical Geography jargon. World record facts regarding geography. Challenging multiple choice questions: We have seen several quiz books that have a poor selection of multiple choice questions, such as example below... What is the highest mountain in Turkey? A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C. Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger... What is the highest mountain in Turkey? A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
