friend, Amir, might not be her best friend any more. Ever since Amir moved out of the basti and started going to a posh private school, it seems like he and Sarojini have nothing in common. Then Sarojini finds out about the Right to Education, a law that might help her get a free seat at Amir's school - or, better yet, convince him to come back to a new and improved version of the government school they went to together. As she struggles to keep her best friend, Sarojini gets help from some unexpected characters, including Deepti, a feisty classmate who lives at a construction site;

Subramanian provides a lively tour of both negotiation and auction theory, then takes an in-depth look at his own hybrid theory, outlining three specific strategies readers can use in complex dealmaking situations. Along the way, he examines case studies as diverse as buying a house, haggling over the rights to a TV show, and participating in the auction of a multimillion-dollar company. Based on broad research and detailed case studies, Dealmaking brings together negotiation and auction strategies for the first time, providing the jargon-free,

empirically sound advice professionals need to close the deal. Originally published in hardcover under the title *Negotiauctions. A River Runs Again* Apr 29 2022 Crowded, hot, subject to violent swings in climate, with a government unable or unwilling to face the most vital challenges, the rich and poor increasingly living in worlds apart; for most of the world, this picture is of a possible future. For India, it is the very real present. A Dominant Character: The Radical Science and Restless Politics of J. B. S. Haldane Oct 31 2019 A biography of J. B. S. Haldane, the brilliant and eccentric British scientist whose

innovative predictions inspired Aldous Huxley's Brave New World. J. B. S. Haldane's life was rich and strange, never short on genius or drama—from his boyhood apprenticeship to his scientist father, who first instilled in him a devotion to the scientific method; to his time in the trenches during the First World War, where he wrote his first scientific paper; to his numerous experiments on himself, including inhaling dangerous levels of carbon dioxide and drinking hydrochloric acid; to his clandestine research for the British Admiralty during the Second World War. He is

best remembered as a geneticist who revolutionized our understanding of evolution, but his peers hailed him as a polymath. One student called him “the last man who might know all there was to be known.” He foresaw in vitro fertilization, peak oil, and the hydrogen fuel cell, and his contributions ranged over physiology, genetics, evolutionary biology, mathematics, and biostatistics. He was also a staunch Communist, which led him to Spain during the Civil War and sparked suspicions that he was spying for the Soviets. He wrote copiously on science and politics

in newspapers and magazines, and he gave speeches in town halls and on the radio—all of which made him, in his day, as famous in Britain as Einstein. It is the duty of scientists to think politically, Haldane believed, and he sought not simply to tell his readers what to think but to show them how to think. Beautifully written and richly detailed, Samantha Subramanian’s *A Dominant Character* recounts Haldane’s boisterous life and examines the questions he raised about the intersections of genetics and politics—questions that resonate even more urgently today.

the issues that lie at the intersection of globalization, law, and technology, and pay particular attention to the wider contextual question of Internet regulation in a globalized world. While individual essays examine everything from the pharmaceutical industry to television to “information warfare” against suspected enemies of the state, all contributors address the fundamental question of whether or not the flow of information across national borders can be controlled, and what role the law should play in regulating global information flows. of soils, and practical tips add value to the rich contents of book. *Lingering Imprints* Sep 10 2020 Ilampirai is an authentic daughter of the soil. Her words sprout from the grassroots. Lyrical nostalgia breathes through her poetry. No glitz, no artifice, no rhetoric, no fake 'revolution'. Everything rooted in lived experience; emanates from deep anguish, intense joy, muted anger, helpless resignation and determined self-worth. As opposed to empty bombast, the impact of studied understatement throbs in her poems. Her whispers are more impactful than

pompous pronouncements. Poetry is an integral element in Ilampirai's life and work space....as a soulmate, as a constant companion, as a guiding light and as a dependable counsellor.
